URGES SETTLEMENT OF WATERED DISTRICTS

TALK IRRIGATION WHEN LAND IS SCARCE

Meighen is Considering Deeply Whether to Go to the Country Or Stick for Another Period

OTTAWA, Aug. 15.—The Ottawa Citizen will publish tomorrow an article on the federal political situation, particularly having to do with the speculation as to an impending election.

"Mr. Meighen," it says, "it pondering, and the process may last some time yet, though there is much to suggest the desirability of quick decision.

"One cannot say just yet what the outcome will be, whether the government will take the plunge or stick to the ship for another period. It has not been decided one way or the other. The decision which may come very soon, is being awaited with an almost feverish impatience, intensified owing to the serious diversity of opinion as to what course is best, from the angles both of political expediency and the public interest. The weight of opinion on the hill Monday seemed rather favorable to the election idea; what it may be today is another matter."

Trades Council Has Confirmed Resolutions to be Presented at Congress in Winnipeg Next Week

Motions Will Be Far-Reaching in Character and Range from Disarmament of World to Protection of Youth in Canada from War Training Before Age of Eighteen

At the regular meeting of the Edmonton Trades and Labor Council Monday evening a gist of resolutions to be presented next week at the Dominion Trades and Labor Congress Winnipeg, were confirmed by the delegates present, the measures having been first submitted for approval at a special meeting on August 5th.

These resolutions deal with several phases of the national life of the country and are far reaching in character, embracing in their scope questions dealing with the disarmament conference of the world nations, improvement of Canada's railways, capitalization of Dominion industries, equal political representation for National Railway employees unemployment relief throughout Canad, all goods market with manufacturer's costs, uniformity of compensation under existing acts, and protection of the youth of Canada from being trained in the arts of war before the age of eighteen.

Nationalize Hospitals

Two other resolutions passed at Monday night's meeting to be submitted to the Winnipeg Congress ask for the nationalization of the medical profession and all hospitals, and the repeal of the Hanna order whereby National Railway employees are deprived of political privileges.

Representing the Edmonton Trades and Labor Council the following delegates to leave the city this weekend for Winnipeg to attend the big congress are: A. Farmilo, C.H. Geary, and secretary J. J. McCormack. As representatives of their respective unions the following delegates will also attend the Peg convention; J. McColl — Edmonton Civil Service Union No. 52; J .W. Findlay—Machinists Union (872); H. J Clarke—Musicians Union (390); Mrs. Harriet Ingram—Garment Workers Union (120).

Further preparations for the big whist drive and dance of the Edmonton Trades and Labor Council to take place Monday September 5th, in Memorial Hall were completed Monady night. The whist drive will take place between the hours of 7.45 and ten o'clock, dancing to follow until midnight. Seven prizes will be awarded in cards.

Monthly Dances.

It is also being arraned to hold six additional monthly dances during the coming fall and winter. A special prize is being provided for the winner at cards during the whole series, in addition to the regular monthly prizes awarded. The dances will take place during the following months: October, November, December, January, February and March.

A resolution introduced by members of the machinists' union requesting that all delegates use the Canadian National roads in preference to other lines was unanimously passed by the council. It was pointed out that the measure was adopted by council in support of its avowed principle of government ownership of the country's utilities.

New delegates to be enrolled in the trades council Monday night included J. Shaw, of newly organized journeymen tailors' union; N. P. Shropshire, civic employes' union; E. E. Owens, plumbers' local, and M. L. Adamson, moving picture operators' union.

Tuesday, August 23rd, at 10.30 a.m., the unemployment conference called at the parliament buildings will be attended by president Robert McCreath, as representative of the Edmonton trades and labor council. An alternative representative, to act for the council in case of Mr. McCreath's unavoidable absence, has been chosen in the person of A.A. Campbell; J. W. Mitchell, director of employment bureau's for Alberta, has been selected as secretary pro tem for the conference.

The questionaire agreed upon at the last conference July 20th was received by council from Mayor Duggan to be submitted direct to secretary Mitchell.

A resolution was passed by council advocating the purchase of local union made goods in preference to union made articles from the United States.

LOWER PRICES HARDSHIP ON VET SETTLERS

Situation Made Difficult Both for Men on Land and the Supervisors

OTTAWA, Aug. 15.—Major John Barnett, chairman of the soldier settlement board of Canada, has returned to Ottawa from the west, where he conferred with board officials in every district office and also paid many visits to many soldier settlers on their farms.

"The collapse in market prices, especially of livestock," said the major, "makes the present situation one of difficulty both for our settlers and for our field supervisors who are responsible for settlers achieving the best results possible.

Continuing, the chairman said: "The test will come with the collection results in November, but if the optimistic hopes of the field supervisors are realized, it will be a remarkable evidence of what can be accomplished in colonizing effort when the settler is worth while and when he is assisted by proper supervision of his purchases of equipment and his farm management.

Thinks That Non-Union Crew of S.S. Exporter Lacked in Knowledge

VANCOUVER, Aug. 15.—The marine knowledge of the new non-union crew of the Canadian Exporter unfavorably impressed Thomas Cockburn, according to his testimony at the inquiry into the wreck today. When the crew conferred to learn how many could steer, four offered to do their best, he said. Cockburn said he was at the wheel when the vessel left port and also when it piled up on the rocks.

Captain W. P. Williams compass adjuster, testified that he had adjusted the compass on the Exporter when the ship left the yards, and later on representation from Captain Bradley had shifted its position. It was a good make of compass, he said, and its deviation should not deceive experienced navigators.

Enemy to Potato Bug Is Found in Ontario

KINGSTON, Aug. 15.—J. F. Brown, a well-known local gardener, has discovered a bug which preys on the potato bug by sucking the blood from it. Mr. Brown says that the back of the bug resembles the shell of a turtle, but it is smooth and very black, with a bell-like mark of light red on it. It has six legs and two feelers and is slightly larger than a potato bug.

SPECULATE OVER RESULT CHANGE IN RAILWAYS

No Immediate Reduction in the Freight or Passenger Rates Possible

LONDON, Aug. 15. — (Canadian Press.)—The greatest interest continues to be manifested in the emergence of British railways from government control.

The most far reaching outcome of the new scheme is the eventual compulsory amalgamation of all the railways into four great groups, displaying a curious reversal of parliamentary opinion, inasmuch as only a few years ago sanction was refused a similar voluntary grouping of three railways.

Sir Eric Geddes, minister of transportation, declares it is possible to save £25,000,000 in working expenses within seven years, which sum many regard as a visionary figure. The cost of labor, now based on the cost of living, was recently reduced £17,000,000 but the total cost of railway labor has risen £120,000,000 since the opening of the war.

Leader Thomas of the railwaymen's organization, who invariably counsels moderation, gives the opinion tonight that the new system will mean economic management and will be good for everybody.

Combination in Germany Formed to Stop Spread British Dye Industry

LONDON, Aug. 15.—(Canadian Press Cable)—The president of a prominent dye manufacturing concern in Glasgow, who has just returned from an extensive tour of India and the colonies, brings back the disquieting news of the universal determination on the part of German dye makers to exclude British dyestuffs from Germany, and prevent, if possible, extension in the trade in such British manufactures in all parts of the world.

The Germans have formed a strong combination, and in view of the necessity of raising enormous revenue for national purposes, they will exact exorbitant prices for special dyes.

FARMER CAUCUS WOULD RELIEVE SOUTH COUNTRY

Topic Was Paramount in Discussion Held on Monday Afternoon

Paramount among the topics occupying the attention of the first meeting of the new executive council of the U.F.A. government held at the parliament buildings yesterday was that in reference to the dispensation of an adequate form of relief to the stricken farmers of the south country, according to Premier Greenfield's statement following the conclusion of the meetings Monday.

Honorable Premier Greenfield said Monday the relief question was one that would receive the utmost consideration from the farmers' government and that a continuation of the cabinet sessions would be conducted at the parliament buildings today.

The premier, who is staying at the Macdonald hotel, said he had nothing of particular importance to announce beyond the fact that the new government was beginning to establish itself and round out a policy for future action.

Proved Absolute Alibi on Charge of Murder

VANCOUVER, Aug. 15.—Thanking the court smilingly, Ed. G. Metzdorf, arrested two weeks ago and charged with the murder of Alma Sampson in the Castle Hotel more than a year ago, stepped from the prisoner's dock at police headquarters today a free man.

Confirmation by letter of a wire received from Prince Rupert that Metzdorf was in that city on the date of the murder, cleared the accused.

With his release the mystery of the death of Mrs. Sampson remains as deep as ever.

FRENCH TEXTILE WORKERS TO STRIKE

LILLE, France, Aug. 15. — Forty thousand textile workers within the triangle formed by the cities of Lille, Roubaix and Tourcoing have voted to strike tomorrow. They refuse to accept a cut in wages of forty centimes per hour.

PRINCE ALBERT, Aug. 15. Prof. H. W. Wallace, commissioner for Northern Manitoba, addressing the Rotary Club here today, expressed it as his opinion that instead of carrying out irrigation schemes it would be a wiser policy to have farmers in the dry areas of the western provinces moved into the northern districts where here was adequate rainfall each year. Then when all the territory which had sufficient moisture was settled up it would be time to talk about irrigation projects for the dry districts.

CANADIAN ELKS MEETING IN VALGARY

CALGARY, Aug., 15.—With 500 out of town visitors, chiefly from Alberta and British Columbia the annual convention of the Canadian Order of Elks will open in the city tomorrow. Addresses of welcome will be given by Exalted Ruler Dr. Gibson, Mayor Adams and others. The program will include business sessions tomorrow a barbecue at a nearby ranch, banquet and ball. Supreme Grand Ruler J. H. Morris, of Vancouver is present.

BRAKEMAN KILLED WHILE BOARDING TRAIN

LONDON, August 15. — Robert E. Eairth, a Canadian Pacific railway brakeman, was instantly killed at Hyde Park Junction at noon today when he attempted to board a train as it was leaving a siding.

THEFTS OF AUTOS DOUBLE IN NEW YORK

NEW YORK, August 15.—Automobile thefts in New York have almost doubled in the last six months, according to police figures for the boroughs of Manhattan and the Bronx, made public today. Since February 20, 2,491 cars, valud at $2,500,000 have been stolen.

TABLET TO COMMEMORATE FOCH'S ACHIEVEMENTS

TARBES, France, Aug. 15.—A tablet to commemorate the achievements of Marshal Foch, commander in chief of the forces which victoriously opposed the central empires in the great war, was placed today on the house here where Marshal Foch was born.

Edmonton Boy Picked to go To the Arctic

TORONTO, Aug., 15.—Allan R. Crawford, 20 years of age, son of Prof. J. T. Crowford, of the College of Education, University of Toronto has been selected as the one Canadian to accompany Stefanson, the Arctic explorer, on his northward trip.

Stefanson expects to explore a million square miles of territory lying between the polar regions and Siberia. Mr. Crawford is a student in chemistry and minerology at Toronto University

Farmers About Vermilion Will Enjoy Bountiful Harvest; Big Herds of Cattle Fat and Sleek

Great Quantities of Hay Have Been Put up for the Winter—Crops in Mannville District Lighter Than Anticipated—Damage Was Done There Early in July by the Hot Weather

(Special to The Bulletin)

VERMILION, Alta., Aug. 15.—This is the second crop bulletin sent to The Bulletin from Vermilion within the last ten days and is very encouraging in every way. Mike Smuk, of Slava, commenced cutting barley Friday afternoon and is among the first in this district to report wheat and barley cutting. Looking at the many magnificent fields of grain in the Ruthenian district, which is situated north and northwest of Vermilion, one could not help wondering if these people would ever enjoy as much peace and plenty in Russia as they have done in western Canada. Many of the Ruthenian farmers have been cutting rye and on some farms this work is just about finished. Much of the barley is cut and some of the oats.

All cattle through this district—and there are many—are sleek and fat. Enormous quantities of hay have been put up for the winter, as these people do not intend to sell their stock this fall owing to the drop in price. Sixty per cent of the binders that were purchased in this town were bought by the foreign element this summer.

In the Manville district crops are lighter than was first anticipated. Considerable damage has been done by the hot weather early in July. The yield is not expected to be very big to the acre, especially the oat crop. Crops immediately east and south of the town are splendid and do not seem to have suffered from the heat, but the further east and south one goes the better things get.

The crops in the Cummings district are generally excellent, with the exception of wheat in stubble, which is light and short and much choked by weeds. However, this is the exception, by far the larger percentage of the wheat being in on well cultivated land and a good stand. There is absolutely no sign of rust and only a small percentage of fields show any affect of the heat.

Alex. Irving, who farms on an extensive scale in this district, has an eighty acre piece of wheat sown on summer fallow and if this crop matures without frost he will be among the best in the whole district. It is intimated that the eighty acres will average close to forty-five bushels per acre. He also has one hundred acres of oats of a good stand that fully indicates around sixty and seventy bushels, if they finish without frost.

There is no flax and very little barley. This district appears to concentrate on wheat, rye and oats. On summer fallow and breaking the wheat is reported to be the best that has been grown in the Vermilion district for years. The wheat spring plowing is not quite up to the average as a whole, but a good yield is expected. The oats and barley are a good crop; the hay in some parts of the district as a result of the dry weather in the beginning of July is somewhat lighter than usual, but there is sufficient in the district for all requirements.

There has been a noticeable improvement in the potato growth during the past ten days as the result of heavy rains which have kept the soil well soaked, and what was expected to be only a sixty per cent yield will go well up to the average.

The wild fruits, saskatoons, blueberries and raspberries are to be found in abundance all over this section of the country.

There is no shortage of harvest help up to the present time, about forty harvesters have arrived and all have been placed on farms.

Harvest will be general throughout this district by the 20th, with auspicious weather conditions. A special train of seven coaches arrived here today, carrying seven hundred harvesters en route to the harvest fields of Saskatchewan. Eighty-five per cent of the men were from Vancouver and New Westminster, while the others were also from different parts of British Columbia. A large number of Hindoos and Japs were included in the party. They were a pacific and well-behaved bunch of men. Many of the harvest hands expected to get five dollars a day and board in Saskatchewan.

Some Optimism Expressed Over Chance Of a Settlement in Irish Situation; Dail Eireann Holds First Meeting Today

DUBLIN, Aug. 15.—The pessimism over the Irish situation which today in some quarters in Dublin reached almost the point of hopelessness, yielded tonight to reasoned optimism when the program for the meeting tomorrow of the Dail Eireann was made public.

Instead of immediately taking up the problem of peace or war, the Sinn Fein parliament will spend at least two days in dealing with the formalities incident to the opening of the body, thus providing an opportunity for many things to happen behind the scenes.

All Ireland is eager for a decision by the parliament on the British government's terms whether it be acceptance of them, the expression of a desire for further negotiations, or rejection in order to remove the tension which exists.

The belief prevails that rejection would mean a resumption on an intensified scale when the truce ends of the guerilla warfare that for so longterrified the country.

Dublin Castle officials view the prolongation of the sessions of the Dail Eireann in various lights. One section of the British government forces expresses the fear that delay in immediately acting on the troublesome questions at issue may provoke the military, which is declared to be not hopeful of a favorable settlement, into making preparations for eventualities. The other section, however advances the opinion that the longer the members of the Dail Eireann are in debate the greater will be the chance for acceptance of the imperial government's terms. These persons profess to see a bright spot in a prolonged session, arguing that one day would be sufficient to end the negotiations if the republican cabinet so desired.

Members are Gathering.

From all parts of the country there gathered today members of the "parliament" to attend the sessions of the body upon the decisions of which so much is at stake. Many of them had been released from prisons or internment by order of the imperial government that they might lend their voice to deliberations; others had been actively engaged with the Irish republican "army" until the truce ended the strife, when they returned to civil life. Earnestness was depicted on the faces of all men as they gathered for an informal meeting of the members of the "parliament" which was held during the course of the day. Many of these who had been away from Dublin a long time met in small groups and discussed the situation with the members more intimate with its late phases than they. In Dublin aside from the prevalent feeling of anxiety over the situation, everything was peaceful. In order that there might be no occasion for a clash between the soldiers and Sinn Feiners, all the troops were held in barracks. No soldiers were to be seen anywhere on the streets of the city.

Tomorrow's formal opening of the Dail Eireann in the Mansion House will be a public function, although there will be little room inside the chamber other than for members. Eamonn De Valera, leader of the republicans, is expected to deliver an address. Afterwards, the whipping of the assembly into shape for the important work before it will begin.

Tuesday's Business.

After prayer, these sessions will be declared open, and a speaker and a deputy speaker will be elected. This is all the business provided on Tuesday's agenda. The session will begin at 10.30 o'clock in the morning.

Until the members of the "parliament" got together today it had been understood that after the election of a speaker, Mr. De Valera would immediately read the correspondence which had passed between him and Premier Lloyd George, and ask the Dail Eireann to act on it. According to the present program, however, the question of peace negotiations will not be reached until Wednesday at the earliest and possibly not before Thursday.

London Thinks De Valera Not In Worse Position Than Before; Point Not Won But Progressing

LONDON, Aug. 15.—Optimism continues the prevailing note in London opinion on the Irish question.

The general view is that Eamonn DeValera, leader of the Republicans in Ireland, having sought for but failed to secure improved terms, is in a position no worse than he was several days ago, and that since the negotiations are being contradicted by both sides to the controversy with the greatest of consideration and politeness, there is no reason why they should break down. Although the Irish Republican parliament will convene in Dublin tomorrow, no decision with regard to the government's peace proposals is expected for several days—until the assembly has had full opportunity to debate the question at issue.

Public opinion here considers that the letter of Jan C. Smuts, the South African premier, to Mr. De Valera, urging a compromise of the Imperial government's proposals, is likely to prove the central and deciding factor of the issue. The belief is expressed, however, that the Dail Eireann will decline to assume responsibility for a decision, but will refer the problem to a plebiscite of the Irish people, either by a referendum on the question of accepting or rejecting the government's proposals, or by a new election to the southern parliament, in which case it is believed the advice of General Smuts would have the most weight. After freedom for the past month from their load of anxiety, incident to the guerilla warfare, it is felt here that the Irish people would be reluctant to give a decision which would mean a return to hostilities, but would prefer to act on the advice of Gen. Smuts and accept the government's terms and leave to time the settlement of the Irish-Ulster problem.

ADVISE DE VALERA NOT TO GIVE IN

DUBLIN, Aug. 15.—Eamonn De Valera, the Irish republican leader, has been inundated by telegrams, mostly from Irish republicans, advising him not to give in to the British government on the peace proposals.

"If they (the Irish republicans) accept the government's terms," asked one member of the Irish republican party, "what have we been fighting for?"

On the other hand, one member of the Sinn Fein said today that it was those who wished to continue the fight who rushed to the telegraph office, not those seeking peace.

One of the most prominent business men in Dublin, a strong advocate of home rule, said this evening: "We cannot go back to where we were a month ago.

Every man's hand would be against his fellow and we would be brought to the shambles."

No Amnesty Is Granted Any Person in Ireland Claims British Premier

LONDON, Aug. 15.—"No amnesty has been granted to any person in Ireland," said Lloyd George in the house of commons today. The statement was in answer to a question by one of the members of parliament as to whether amnesty would be extended to persons other than those who have been released from prison or internment.

BELFAST, Aug. 15.—Commenting on the new developments in the Irish situation, the Unionist Belfast Telegraph says:

"What a tragedy for Irish nationalism that there is not today in its ranks one man of the quality, character, bigness and statesmanship to stand forth upon the stage and rally round him all the thousands who are groaning for such a peace as is now offered and are turning weeping eyes everywhere for some strong man to lead them out of the gethsemane which the gun-men have made of Ireland.

"England has been magnanimous to the point of folly and Ireland insane to the point of criminality. For Ireland, separation would be suicide."

The Irish News, the nationalist organ of Joseph Devlin, says:

"We have excellent, indeed, questionable authority for stating that the British governmental preparations for a renewal of the conflict in Ireland, consequent on the possible abrogation of the truce which has existed since July 11, have been speeded up within the past three days to such an extent that they now are practically completed."

The Northern Whig, unionist, says:

"We have no hesitation in saying that the terms which the premier offered the Sinn Feiners would, if given effect, tend to bring about disintegration of the Empire."

SALES FOR TAXES MAKE REVENUE FOR PROVINCE

City Officials Complain of Unnecessary Burden upon Civic Receipts

City officials view with alarm the amount the city has annually to disgore to the provincial government over the tax sale.

In the first place, the whole of the lots for sale are compelled to be advertised in the Gazette, which costs the city well over a thousand dollars, and is looked upon as quite an unnecessary proceeding.

Then there is the matter of the fees charged for obtaining transfers, some 25 cents per lot, which in the cases of thousands of lots runs into hundreds of dollars.

These points, said the mayor, are to be taken up with other municipalities, with the idea of securing some amendment to the tax recovery act, which will help to lighten the burden of expense on the cities.

Tax Sale List.

The city assessor, in compliance with the provisions of the act, handed over the schedule of tax arrears to the mayor on Monday, and the mayor thereupon issued the warrant for the holding of the sale.

The figures for the exact number of lots in the sale will shortly be announced.

Fire Hall Rented.

Bonnie Doon fire hall has been rented by the city land department. The rent is to be $50 per month. It is stated that the lower portion of the premises will be used as a wet wash laundry and the upper as living apartments.

Income from Taxes.

From the beginning of the year taxes paid the city now total $2,505,272. For the corresponding period of last year the amount was $2,748,273.

License Figures.

The city license department reports that there are 178 licensed drays in the city, one jitney, and 63 trucks, together with 177 vehicles licensed to ply for hire. It is computed that there are 660 horses working in the city, these including 250 two-horse teams and 159 single horse outfits.

Exchange on Freight Shipments August 15-31

OTTAWA, Aug. 15 (Canadian Press).—In accordance with the judgment of the board of railway commissioners dated January 14, 1921, it is announced the rate of exchange in connection with shipments of freight between points in Canada and the United States from August 15 to August 31, inclusive will be eleven and one-eighth per cent, the surcharge on international freight shipments will be seven per cent. The rate on international passenger business will be based on eleven per cent. exchange.

FRANCE TO SEND PRIME MINISTER TO WASHINGTON

WASHINGTON, Aug. 15—The hope of United States officials that the disarmament conference will be a diplomatic conclave of the first order was strengthened today when France informed the state department that she would send her premier, Aristide Briand, at the head of her delegation of diplomatists.

It was the first formal acceptance to be received from any of the invited nations.

Meantime the administrations preparation of its own part in the conference was advanced by a request sent to congress for an appropriation of $200,000 as an initial budget to pay expenses of the United States representatives and of a secretary general.

News that the French premier would attend the conference was received with manifest satisfaction, for there has been a general expectation that should one of the powers decide to send its premier, the others would do likewise in the interest of fair representation.

NOTED EDUCATIONIST AND AUTHOR DEAD

LONDON, Aug. 15. — (Canadian Press cable)—Sir Alfred Dale, distinguished educationist, formerly vice chancellor of Liverpool University and author of religious history, is dead at the age of sixty-six.

TEACHERS WILL NOT APPLY FOR VACANT PLACE

St. Boniface Principal Has Appealed Against His Dismissal

TORONTO, Aug. 15.—At a special meeting of the Canadian Teachers Federation called at the request of the Manitoba Federation to consider the dismissal of Principal W. D. Bayley, of King George V School at St. Boniface, Man., the following resolution was adopted:

"The principal of King George school of St. Boniface, Man., having appealed for a board of reference re his summary dismissal from his school the Canadian Teachers' Federation, whilst not in any way expressing an opinion as to the merits of the case, ask all teachers to refrain from applying for the above position until a decision has been reached by the board of reference."

Mr. Bayley was dismissed because of an address he delivered in the labor church in Winnipeg. This address was so reported in the various newspapers as to cause the board of education to decide on his dismissal. Principal Bayley stated that the reports were incorrect.

Disappearance of Small, Toronto Theatre Magnate, Still Remains a Mystery

DES MOINES, Ia., Aug. 15.—The man whom private detectives declared was Ambrose J. Small, Toronto theatre magnate missing since December, 1919, and who was said to have been found at the Polk County Poor Farm, is John Daugherty, taken to the farm on January 11, 1919, authorities at the farm announced late today.

John J. Brophy and Frank Harty, former Des Moines policemen, and the detective who maintained that the man was Small, had refused to reveal his whereabouts until a writ of habeas corpus had been issued this afternoon demanding that the man be produced in court Tuesday. When the injured man was pointed out, he was quickly identified as Daugherty. The detectives had said that the man they claimed to be Small had lost both legs and had been otherwise injured.

PREMIER MEETS CABINET MONDAY ALL DAY SESSION

Eight Members New Executive Council Take Part In The Conference

The first meeting of the new executive council of the U.F.A. government in the province of Alberta took place Monday morning following the return of Premier Greenfield from a visit over Sunday to his home in Westlock. The morning meeting of the council adjourned shortly after 12 o'clock for a resumption at 2 o'clock. The premier announced he had nothing to say in connection with the deliberations of the initial executive session.

Cabinet ministers including Attorney-General Brownlee, and Vernon W. Smith, minister of railways and telephones, spent the week-end at their respective homes, Mr. Brownlee returning to the capital on the early train Monday morning and Mr. Smith from Camrose shortly before noon.

A negative result came from Premier Greenfield to The Bulletin's question as to the likely location of the seats to be contested by the Premier himself and also Mr. Brownlee, both of whom are without constituencies at the present time.

In regard to the by-elections, the premier said he had nothing to say. He was reticent on the question and reiterated a previous statement made by him to the effect that likely seats would be found in due time.

LOSES FINGERS IN PLANER

Robert Davidson, of 5650 Ada Boulevard, is now in the Royal Alexandra hospital suffering from injuries received Saturday afternoon while working in the Western Foundry. It is said that young Davidson, who is opposition leader in the Edmonton Boys' parliament, has lost three fingers as a result of getting his hand caught in a planing machine at the foundry. Immediately following the accident, he was taken to the Royal Alexandra hospital, where surgical attention was given by Dr. Mackay.

READY TO MOVE CROPS.

Winnipeg, Aug. 15.—Everything is in readiness for the moving of the 1921 crop, so far as the railways are concerned, and it is expected the movement will be in full swing by September 1. Saturday ten cars of new wheat from southern Manitoba were loaded at the Canadian National yards here for shipment to Port Arthur, and fifteen more cars also from southern Manitoba, are being loaded today.

ONTARIO PROBE IN RADIAL CASE TO COST $500,000

Commission's Work Will Be Somewhat Expensive—Hydro Party Proposed

Toronto, Aug 15.—The cost of the investigation by the Sutherland commission into the radial situation will be close to $500,000, according to accounts already filed at Queen's Park. Some of the bills presented by lawyers were regarded by the taxing officer as excessive and the attorney-general, it is understood, may ask for detailed statements. I. M. Ferguson, K.C., has charged $26,000 for legal services; Robert McKay, K.C., who acted for the pro-hydro forces, $36,955, and R. S. Robertson, K.C., who acted for the anti-hydro municipalities, but at the government's expense, wants $86,915.67.

The hydro power commission has charged the government $114,453 54 for the services of the commission's staff in preparing data, and Bion J. Arnold, the Chicago expert who endorsed the radial scheme claims $54,855.17.

Toronto, Aug 15.—The formation of a hydro electric party in the province to back public ownership and the power and radial policies of Sir Adam Beck was predicted last night by Major Alex. Lewis, M.L.A., who said:

"There will be a hydro electric party formed in the province to rally behind the project and see that the success of Sir Adam Beck's policy of public ownership is not endangered. Those men who favor public ownership will rally to the new party without regard to present affiliations."

Reading that adding 25 members to he House of Representatives, as proposed, will cost the country $500,000 a year, Uncle Silas is certain to remark, "Taint wu'th it"

FATHER POINT

Father Point Lighthouse, Foghorne Station and Keeper's House.

Father Point is a little Quebec cape jutting out into the St. Lawrence where it is still an ocean. It is here that the immigrant from European countries during the summer months gets his first human touch with Canada and Canadians.

Father Point would not appeal to the ordinary tourist or holiday maker. It is off the beaten track and only reached by car from Rimouski. Its charm is merely that of hundreds of other French Canadian villages which are more accessible. The fresh breezes blow from off the St. Lawrence as they do upon countless other fishing villages along the river shore. This place is a haven for the tired, the brain-taxed, the overworked and neurotic in its meditative calm and brooding hush.

The great interest in the little hamlet is for those who go down to the sea in ships. Near the extremity of the point a modern lighthouse has been erected which each night flashes its warning light across twenty miles of water. In close proximity is the giant foghorn blasting its message when fog enshrouds the light. Upon the hill stands a wireless station which receives advice of every vessel entering the Gulf before it proceeds up the river. A coastguard and life-saving station completes the precautions for the preservation of vessel and man upon the water.

But greatest interest centres in the "Eureka," the sturdy little government pilot boat which leaves its pier on the point to take out a river guide for all vessels going up to Quebec or Montreal. When the wireless report is received of the approach of a vessel all eyes are turned riverwards and glasses and telescopes focussed upon the speck on the horizon following it as it takes shape over the rim of the sea.

Larger and larger looms up what turns out to be a giant passenger liner of the Canadian Pacific bound with a heavy freight of human souls for the St. Lawrence ports. When about half a mile away or so the pilot boat leaves its pier and steams out to meet its mammoth sister. The pilot is, however, not the only man to go on board. There is the Inspector of Immigration, the Colonization Agent of the Canadian Pacific and the representatives of the passenger department of the same company, all having the same object, assisting the steamship passengers, preparing them for debarcation, and facilitating the actual landing. And so it is a goodly little number the pilot boat takes out on its short voyage.

It takes the speedy little craft but a short time to reach the big liner now merely drifting with the tide and waiting its arrival, and with a deft little swing she glides gracefully alongside, the incongruity of the pair forcibly suggesting another interpretation of "Dignity and Impudence." All the while the passengers are crowding the decks, and hanging in a dense mass over the side eagerly watching, wondering, and appraising.

The rope ladder is dropped from the liner and swings out from the side at each heave of the vessel. The pilot seizes it and climbs up hand over hand to be followed by the others who are to make the trip with the newcomers up the river. Remarks and light banter are interchanged, there is much waving of hands and fluttering of handkerchiefs, and the cheeriest of spirits prevails. Then the little boat pulls away, the Titan of the seas appears to recede, and in the echo of shouts and cheers the pilot boat turns her nose to the shore and faces and figures become obscure blurs.

MIXTURE WATER AND OIL FLOWS AT PEACE WELL

Gusher Which Carried Away Derrick Throws Fifty Foot Column

(Special to The Bulletin)

Peace River, August 15th.—Reports from the Peace River Petroleum Company's well, 30 miles down stream from this point, indicate that the water gusher which wrecked the company's well recently, also carried a large volume of gas and some oil.

The drilling is now throwing a solid ten inch stream of water, with an admixture of oil, fifty feet into the air, and had it not been for the unfortunate break through of the water pressure, the drillers are of the opinion that they had the "real thing."

In addition to the water geyser there was a heavy flow of gas when the pressure was liberated, and the gas underlying the water was responsible for the damage caused to the plant.

The water and gas were so close together that there was no room to set casing to shut off the water above the gas, but reconstruction work is proceeding steadily, and hopes are entertained that the problem of overcoming the water pressure will be solved.

GARNEAU HAS EARLY MORNING BURGLAR SCARE

Men With Ford Car Attempt to Carry Off Furniture From Residence

Wild alarms, pistol shots, screams, Ford cars, neighbors rushing to help, furniture, cabbages and beets, an auto smash, all figured in an alleged attempted burglary, happening on 91st avenue between 111th and 112th streets, Edmonton south, at about 3:15 Monday morning.

Members of the G. B. Chadwick household were at that hour roused by a smash at the front door and dashing downstairs found burglars in the act of removing the household goods into a waiting Ford car.

It appears that Mr. Chadwick and his family are moving and some of the furniture had been placed out on the front verandah ready for removal. This had evidently attracted the cupidity of some persons who were bent on annexing it for their own use.

The appearance of the household startled them and starting up "Liz," beat it in all haste. Their hurry proved their undoing, for the car hit a fire hydrant and collapsed. The Chadwick household had now been reinforced by neighbors and a hot chase was made after the burglars, who disappeared into the bush, leaving their damaged machine behind, also the goods.

They were evidently in a great hurry, for it is said that amongst the property taken was a sack of vegetables.

How many took part in the raid is not known, some assert there were only two men, while others say that there were five or six engaged.

Police Enter Chase.

The police having arrived on the scene, the chase for the disappearing burglars was maintained, and it is stated that some shots were fired at one flying figure, but no one was hit.

Up-to-date no arrests have been made, but the car is now in the hands of the police.

WANTS RECIPROCITY ON CATTLE

Regina Leader:

The only permanent solution of the livestock problem of Western Canada that occurs to those who have given it expert attention is the free entry of Canadian livestock and animal products into the United States.

The way to obtaining this has been left open in the tariff legislation recently enacted by Congress. The power to negotiate reciprocal agreements with other countries, which President Harding possesses under the tariff law, would undoubtedly be exercised in the interest of the livestock industry in Canada if the facts were presented to Washington by the Ottawa Government and a request for reciprocity in animals and animal products made to it. The immediate opening up of diplomatic negotiations between the Governments of Canada and the United States with that end in view was stressed by the Calgary Board of Trade as the first step to be taken toward a permanent solution of the situation.

The salvation of the livestock industry is a matter that affects all of Canada. While Western Canada is more directly interested in the raising of stock than any province outside of it, with the exception of Ontario and Quebec, agriculture is the basis of Canadian prosperity from coast to coast; and agriculture cannot thrive in Canada without stockraising. The industrial centers that look to the farmers to absorb their manufactures are scarcely less interested in the situation than the farmers themselves. Stockraising is no longer predominantly in the hands of the big ranchers. It is part and parcel of the economy of every successful farm in the West. Strike at it and you strike at the farmers, profits and his purchasing power.

Unless immediate steps are taken by the Government to deflect the blow that has been aimed at the Canadian farmer by the tariff legislation of the United States both profits and purchasing power will soon disappear and with it will disappear that home market in the West upon which Canadian manufacturing industries have come more and more to depend. The question of seeking reciprocity with the United States in animals and animal products is of profound importance to the whole country and the whole country should take an immediate and lively interest in it.

Let Quality Be Your Watchword Always !

One of the basic principles upon which this store has based its merchandising is QUALITY, first and always. In this eagerness for fashion's latest whims, feminine buyers are often tempted by style rather than by prosaic quality. Without the stable foundation of quality, style is but a filmy, unreliable substitute—a hollow mockery. The confidence which patrons place in this store is a tribute to its policy of quality.

1000 Pairs of Children's, Misses' and Boys' Boots

To be Cleared at a Saving of $1.00 Per Pair

Regular $4.00 $2.98 DOZENS OF NEW STYLES and LEATHERS

DES MOINES MAN CERTAIN SMALL IN HIDING THERE

Legless Hermit Found in Isolated Farmhouse Thought Missing Millionaire

Des Moines, Iowa, Aug. 15.—A man of mystery, who, according to Frank Harty, former assistant chief of police, has been under surveillance here for six months as Ambrose Small missing Toronto theatre owner, may beb rought from his place of hiding today, Harty announced.

Harty said he was certain that the man is the Toronto millionaire for whom a world-wide search has been in process since his disappearance in December, 1919. Harty said he had been in communication with Toronto authorities and some one would be here from the Canadian city either today or Tuesday to verify the indentity of the man. He said Mrs. Small might come to Des Moines.

John K. Brophy, former chief of detectives, who, with Marshall Miller, former superintendent of public safety, who assisted Harty in his investigation, said that the man is living in an isolated farmhouse just outside of the city limits. Brophy substantiated reports that the man is legless and said he appears to be dazed. Brophy intimated, however, that he was injured by a train and not by gunshot wounds as previously reported.

STONY PLAIN FAIR.

For the last few days the secretary of the Stony Plain agricultural society and his staff have been busy receiving entries for the fair on Wednesday next, and up to date these are very encouraging and augur good success for the exhibition. In the live stock classes there will be good competition, horses and cattle being well up to the usual number, while the entry in the sheep section is an extra heavy one. This branch of agricultural industry is being more and more cultivated in the district and the entries received up to time of writing betoken the keenest competition. Grains and grasses and roots and vegetables come well up to the standard of former years and the display of home products and other exhibits in the industrial section will be an interesting one. The sports committee is putting on an attractive program of horse jumping, racing and other events as well as baseball and football games. Altogether visitors to the fair are assured of an interesting and enjoyable day.

A mother's care for Alberta's helpless orphans is furnished by The Wood's Christian Homes, Olds, Alta.

FIVE VACANCIES NOW EXISTING IN FEDERAL HOUSE

Writs For By-Elections In West York and St. Antoine Soon

Ottawa, Aug 15.—(Canadian Press)—Writs for the impending by-elections in the constituencies of West York and St. Antoine, Montreal, should be issued before long. If the government decides to take full advantage of the six months' delay provided by statute it need not issue the writ for West York for three weeks, while the St. Antoine writ should be issued in about a month. In the case of West York, which became vacant by the death of Captain T. G. Wallace, the vacancy is recognized officially as dating from March 9, and in the case of St. Antoine, vacated by Sir Herbert Ames, who joined the secretariat of the League of Nations, the vacancy occurred on March 17.

Three other vacant constituencies remain to be provided for. They are Leeds, Sir Thomas White's former seat, declared vacant on April 7; Durham, formerly represented by Hon. N. W. Rowell, which became vacant on June 4th, and Maple Creek, Hon. J. A. Maharg's old seat, which was declared vacant on the same date. The fate of the government in these five seats will probably have an important bearing on the date of the next general election. If the government should lose a majority of the seats, an election next spring, after the passage of a redistribution bill this fall, might result.

News of the District

DONALDA

Bulletin News Service:

Born, to Mr. and Mrs. Chas. Gray, Monday, August 8th, a son.

L. F. Krumm of Donalda west, exhibited at the Bashaw and Edmonton fairs. At the former he won ten prizes out of thirteen entries. In sheaves he took three firsts and two seconds, three prizes in vegetables and two in grain. At Edmonton he captured a third in wheat, second in potatoes and second in oats.

Mrs. F. W. Brown returned from visiting her mother in New York on Friday.

Mr and Mrs. Stanlake, Miss Fraser and O. M. Vikes were week-end visitors in Edmonton.

Rev. H. Brooke will go to the lake next Sunday to hold service, and his subject will be "Giants." Regular service in the church at eight o'clock.

Mr. and Mrs. Downing and Mr. and Mrs. Grice motored to Gull Lake on Sunday, sixty-eight miles.

Rev. H. Brooke has organized Sunday schools at Meeting Creek and Buena Vista.

It is expected that the school board will meet soon to consider a number of applications which have been received for the principalship of Donalda Consolidated school.

LOUGHEED

Mrs. Hamell left for Edmonton a few days ago to undergo an operation for throat trouble.

Mr. A. Bunnin left at the beginning of the week to complete the work of hail insurance adjustments in which he has been engaged for some weeks.

Mr. Bluin, one of the local blacksmiths, has purchased a shop at Wainwright and intends to move his family there during the fall.

Mrs. Hollingworth returned at the week end from Edmonton where she was spending the holidays.

Rev. C. H. McClellan of the Canadian Bible Society, visited Lougheed on Tuesday in the interests of the New Bible House, which has recently been purchased by the Society on Jasper avenue, Edmonton.

The Misses Bullock from Edmonton have been visiting with Mrs. W. E. Roberts this week.

The services conducted by Rev. J. Houston, D.D., of Glasgow, Scotland, were much appreciated by the large audiences in St. Andrews church, and in Groveland school. Mr. Houston will preach for the next two Sabbaths. The people will be glad to know of this arrangement.

Mr. Souter, one of the local farmers, has purchased an auto truck.—Lougheed, Aug. 10th.

Plans for Wheat Pool Abandoned By Canadian Council Agriculture

WINNIPEG, Aug. 15.—Plans to form a wheat pool to handle the Canadian crop in 1922 practically have been abandoned, according to information secured today by a local paper. Officially the scheme has not yet been given up, but the council of agriculture at its next meeting may take definite action along that line.

It is understood that the proposed pool broke on the disinclination of farmers to sign five-year contracts without which, it was thought, the plan would be unworkable.

The formation of a pool has been advocated by the council of agriculture for a year or so.

Hospital Board Has Decided On Appointment of Medical Superintendent for the General

Step Is Necessary by Increased Work of Hospital Now New Wing Is Nearing Completion—Committee Has Work of Bringing in Report on Subject—Business Side of Institution in Good Shape

"I think it is now time," said the chairman, W. T. Henry, to the members of the hospital board on Monday night, "that we should consider the appointment of a medical superintendent for the Royal Alexandra and other hospitals."

"Th question has now been laid over for some time, and the work carried on," he added, "but I do not think it wise to proceed in this manner any longer. There are matters occurring daily which need reference to a medical man, and particularly now, in regard to the new wing, there are questions of equipment to be decided. A medical man, in purchasing equipment, would save thousands of dollars by purchasing what is properly required in the first place, whereas we, as laymen, might waste a great deal by not purchasing what is correct."

"As for the business side," went on the chairman, "the superintendent is not so much required from that point of view, as business is quite satisfactory, and the cost is lower now than that of any hospital in Canada last year."

The chirman also said that he would not in future be able to give so much time to hospital affairs as he had up to the present.

After some discussion of the matter, Dean Kerr proposed as a motion that the board adopt the principle of engaging a medical superintendent for the hospitals under its control.

This was duly carried, and Alderman McArthur moved that the matter be referred to a committee for further report and that it be understood that publicity would be given to the decision of the board by the committee. This was in order that applications might be received.

The motion was carried and the committee selected as follows: The chairman, Dr. Anderson; Dr. Tory, D. Knott, O. Bush and Alderman Abbott.

Recovery of Fees

Recovery of fees from patients at the Royal Alexandra hospital was again a matter for debate.

The statement of accounts of the hospital from January to 31st July show the amount of fees earned to be $89,452, of which $69,733 have been recovered, leaving a deficit of $19,719. Of this amount the sum of $10,000 is owing by general country patients The point raised was whether inquiries could be made concerning the financial standing of country patients before they are admitted and thus help to avoid making bad debts. To this it was replied by the chairman, W. T. Henry, that all municipalities were by reason of the new provincial statute, responsible for the debts contracted by hospital patients from their own particular district, up to $200. Therefore, under this new ruling, there was very little of the money that would not be recovehed.

Collecting Agents Employed

It was further stated that collecting agents were now being employed by the board and the sum of $585 of outstanding 1920 accounts, had been brought in.

In answer to a query from D. Knott it was stated that an Edmonton taxpayer who resided out of town, would only be charged the city rate, provided the person made it known that he was a taxpayer.

The comparative average cost of working the hospital shows a substantial reduction against that of last year. The per capita cost is $3.09 against $3.83 last year, showing a reduction of 72 cents, and the subsistance is 74 cents against 88 cents, a reduction of 14 cents.

It was stated that $3.20 was the lowest per capita cost of any hospital in Canada in 1920

Training Schools

Miss MacMillan, lady superintendent at the isolation hospital, with Dean Rankin and Dr. Anderson were appointed as a committee to draft a report on the question of affiliation of by a smaller hospital training school with the Royal Alexandra training school.

The matter arose over the request of the Coronation hospital to have its trainging school applied to the Royal Alexandra school.

Fees For Anesthetics

Some discussion took place over the recommendation of committee that there should be no advance in the fees charged for the administration of anesthetics at the Royal Alexandra during operations. At the present time the minimum fee charged is $10, and the maximum fee $15 and it was asked that the fees should be increased fifty per cent.

Eventually the matter was referred to committee for further report.

Rules and Regulations

Temporary permission was given by the board for the adoption of the rules and regulations approved by the doctors who are now voluntarily acting as staff at the Royal Alexandra hospital.

This resolution includes the appointment of a historian, but for the time being, so it was explained by W. T. Henry, chairman, a salary would not be paid, as the pathologist at the hospital, Dr. Hall or his assistant, would carry out the work.

The rules and regulations, it was pointed out, would remain in force until the question of appointing a superintendent is taken up by the boad.

Report On Convention

Miss MacMillan submitted a report on the nurses' convention at Quebec, which she attended a short time ago.

The chairman and Miss MacMillan were appointed to attend the hospital conference to be held at Calgary, Thursday, of the Alberta and Saskatchewan Branch of the American College of Surgeons.

Coal Tenders

The board decided to issue a call for coal tenders for supplies to the hospitals.

A Serious Case.

Miss Shute, nurse at the isolation hospital, contracted diphtheria in March last and has only just been discharged from hospital. She is not yet able to work. It was stated that she suffered severely and that paralysis had also occurred both in her throat and hands.

The executive committee of the board had paid her salary to July 31, and it was asked what further action should be taken, as Miss Shute would not be fit for work for some time

Under the circumstances, it was decided, on the motion of Dr. Anderson, that the action of the executive in paying the salary should be confirmed, also that the salary should be paid for the month of August and then the matter be again considered.

Vote of Condolence.

On the motion of O. Bush, seconded by Dr. Tory, a message of condolence and regret was ordered to be sent to Mrs. Melrose, by reason of the death of Mr. Melrose, late a member of the board.

Hiccup Epidemic Prevalent

Don't get the habit of hiccups—stop the slightest attack at the beginning. Nothing brings such magical relief as slowly sipping a few drops of Nerviline in sweetened water. For stomach pains bloating, cramps, diarrhoea, nothing will prove more useful in every home than a 35-cent bottle of good old Nerviline.

WARNING!

Frequent complaints have been made recently of parties removing newspapers and other articles left in trust for citizens in the street railway waiting room at the corner of 91st Street and Whyte Avenue. Measures will be taken to prosecute anyone found removing same in future.

A. G. SHUTE,
Chief Constable.

Stony Plain Potato Growers' Conference Was Held on Saturday

There was a meeting of potato growers of the Stony Plain district held at Stony Plain on Saturday, Aug. 13th. J. H. Hare, of the department of agriculture; W. F. Broadstock, secretary of the Edmonton Potato Growers' association; and B. McColl, agricultural representative at Stony Plain, were present. The intended operations of the Edmonton associations were explained, and the prominent growers of the Stony Plain district are joining the Edmonton association, as they feel convinced that co-operative marketing of potatoes will work to their advantage. Growers in the district who were not present at the meeting and who would wish to obtain information regarding the Edmonton association should communicate with W. F. Broadstock, Winterburn, or B. McColl, Stony Plain.

BUSINESS MEN ARE ASSISTING WOOD'S CHRISTIAN HOMES

A luncheon will be held Tuesday noon at 12:30 in the board of trade dining rooms. His Honor Lieut. Gov. Dr. D. G. Brett presiding, to hear Rev. Mr. George Wood discuss the work being done by the Wood's Christian Home at Olds for the orphans of Alberta.

Representatives of the fraternal, business and social orders of the city, together with a number of the leading business men have been invited to be present.

The work of the home for orphans has been so widespread and the field to great that there has been a decided lack of cottages and equipment to continue it on a basis ample enough to care for the entire province's need.

It is anticipated that the part Edmonton will take in this movement will be decided upon at the luncheon and plans made to raise the Edmonton quota of $10,000 to construct and equip a cottage to be known as The Edmonton Cottage. This will enable the home to care for some twenty-five additional motherless boys and girls from Northern Alberta.

EDUCATION AS IT IS IN THE UNITED STATES

Literary Digest:

We spend more upon education than any other nation, and, various authorities have recently assured us, get less for our money. Not long ago we were shocked by General Pershing's statement that one man in every four in the American wartime army "could neither read nor write English"—while in the German army there was only one illiterate in 5,000.(Last month Dr. John J. Tigert, United States Commissioner of Education, told an educational conference that "America stands today was the only one among the great nations of the earth in which there is not a high degree of literacy. "It is true," he said, "that before the war the United States spent more than any other nation on education, and that every State in the Union had laws requiring at least elementary school education." But "the laws are not enforced, and only half of the children required by law to be in the schools are actually there."

STARTING NEW BUSINESS

Sam Waldman, formerly of Smoke Shops Ltd., has just returned from a seven months' trip through Europe and starts in business under his own name at 10022 Jasper avenue Wednesday. He has a large selection of high class pipes from the leading European factories.

CHIEF MECHANIC AT MINE IS DEAD

Robert Weir dropped dead at his home, 10510 135th street, Monday morning at 10 o'clock. The cause of death was heart failure. The doctor had been called and saw the man before he expired, but was unable to do anything for him.

Deceased leaves to mourn his loss a wife and six children. The body lies at the undertaking parlors of Connelly & Armstrong, who will make funeral arrangements on the arrival of relatives of deceased, who are coming from the east.

DOCTOR GOES TO JAIL TO STUDY CRIMINALS

Failing to obtain incarceration as a pretended prisoner to carry on his studies of criminals, Dr. James J. Finley deliberately committed forgery and welcomed his sentence to the Los Angeles jail to await the determination of his case. Dr. Finley is held on the charge of forging a check for $210.

POLICE FIND MAY CLEAR UP LOST ARTICLES

Conglomeration of Missing Goods Is Located on Prisoner's Premises

Joseph Smith, 10725 76th avenue, fell foul of the police net at 11.15 Monday night, when Sergeant Edwards and Detective Percy Appleby of the city police squad placed him under arrest and escorted him to headquarters. A charge of vagrancy was laid as a preliminary of others to follow.

A heterogeneous collection of articles, many of which correspond with those reported at police headquarters as lost or stolen during the past few weeks, were found on Smith's premises including the barns in the rear. Numerous auto parts were also unearthed by the detectives and police in the garden, these having evidently been secreted with the intention of making their discovery doubly difficult.

Smith's arrest is the result of unremitting efforts on the part of Chief Shute and his men to round up the perpetrator of numerous petty thefts occurring in the city from time to time. Nothing of very great value has been taken, but the thefts constituted a continual series of annoyance to those victimized.

Smith has been under surveillance for some time, and following the burglary alarm early Monday morning in Edmonton south, Chief Shute, Inspector Fraser and Sergeant Gillam who responded completed plans for closing every avenue of escape from the city. Confident that Smith was implicated, at ten o'clock Monday night Police Inspectors Matt Blackwood, Dan Fraser and Sergeant Gillam executed a search warrant on Smith's premises. After discovering some goods and conveying the same to headquarters, Sergeant Edwards and Detective Appleby were detailed to await the arrival home of Smith. The man in demand showed up at his residence at 11.15, where the officers met him with information that he would be their guest for the night. It is thought by the police that numerous theft complaints in the city recently can be traced to the pile of goods brought to the station Monday night from the residence of the accused.

AUTO THIEF GIVEN YEAR IN PRISON.

TORONTO, Aug. 15.—For the theft of two automobiles E. W. Forester was sentenced in police court this morning to one year's imprisonment. Forester is 25 years of age and was secretary of the young people's society of a local church.

WOMENS' INSTITUTES

Editor Bulletin:—

The Edmonton Bulletin for June 21st, has been placed in my hands, and I have read with much interest the stirring account you give of the Womens' Institute movement in Canada. As one who assisted Mrs. Alfred Watt in establishing the movement in Great Britain, the account you give of its inception, and progress is of particular interest to me. I should like it, however, to be known in your country that if Mrs Watt and myself had not had the backing of some public spirited men I doubt very much if we should ever have had a Womens' Institute movement, over here. The women folk were very shy of the idea at first and some of them actively opposed it Mrs. Watt's task from 1913 to 1915, the year I had the pleasure of meeting her, was a very uphill one.

Another fact is that the movement in Freat Britain is numerically larger than in Canada. We must have (1921) well over 125,000 women in membership, not a bad record for six years work. Not that I place much value on members as a criterion of success. There is such tendency in these days to worship bigness for bigness sake and ignoring the fact that it is the spirit in a movement that really matters.

I should like to send through the columns of your paper my warmest greetings to the Women's Institute movement in your great country, as we look upon it as the mother of our great organizaiton over here.

Yours truy

J. NUGENT HARRIS

a member of the Executive Committee of the National Federation of Womens' Institutes of England and Wales and chief organiser of the Village Clubs Associations of Great Britain.

AFTER RISKY TEN DAYS PARKED CAR CAREFULLY; STOLEN

When auto thieves take cars, the question of accessibility apparently never enters into the project.

For ten days, while J. H. Chemelnitsky, 10224 121st street, was having a new concrete walk laid on the driveway of his property he left his Overland car standing on the side of the road. Saturday night he considered the new work to be dry, and parked the car just under his kitchen window. Sunday morning it was gone.

The police found it Monday night on 142nd street, undamaged. A lady's purse containing $10.00 at least in cash had been left in the car, and it was also found undisturbed. Nothing had been touched except the car.

THREE BIGGEST CITIES BEHIND BEST BREEDERS

Edmonton, Calgary and Saskatoon Will Not Be Stampeded by Wheat City

Edmonton will continue to hold a banner place in western affairs despite any action that the City of Brandon may take in its threatened secession from the Western Canada fairs circuit. This is the expressed opinion of Manager W. J. Stark, who has just returned from a judging tour in the province of Saskatchewan.

On his return trip to Edmonton he met C. D. Fisher, manager of the Saskatoon fair, who stated that Saskatoon had no intention of leaving the circuit. Saskatoon has third place in the fair dates and Mr. Stark was assured that the city would stand with Edmonton and Calgary in the maintenance of the circuit.

Possible alliance with Vancouver and New Westminster in the Western Canada fairs was referred to by Mr. Stark. Winnipeg was also quoted as a likely city to become allied with the circuit. Calgary and Edmonton must stand together in the securing of early fair dates as the interests of both these cities were closely linked together. At present they had a priority of claim on early fair dates before the harvest season commenced. Them ost advantageous period has been found to be in July.

The necessity of Calgary and Edmonton working in harmony was pointed out by Mr. Stark, in the fact that breeders at present were producing the best owing to the advantage of being able to show at two large city fairs instead of only one. In view of this advantage, exhibitors were prepared to make greater efforts to produce ad show the best in the respective lines of stock. This could not be expected of them if they had the one fair to cater to.

Alberta, said Mr. Stark, was the livestock province of Canada, and in the matter of its exhibits Edmonton and other Alberta cities had nothing to fear in comparison to other cities.

Fires Follow Warning in an Ontario District; Police Are Appealed to

WOODSTOCK, Aug. 15.—Two mystery fires and anonymous leters containing warnings have stirred up the district surrounding Springford Village

Following a fire two weeks ago when a vacant house on the farm of Eli Barnim was destroyed, an insurance company and the owners of several threshing machine outfits received letters containing warnings that further fires would occur at the Barnim farm. The total destruction of Barnim's barn last night, following receipt of the warning letters, has resulted in an appeal to inspector Heaton of Toronto, to send a man to investigate the whole affair.

Insurance on the barn destroyed last night totalled $4,500.

Obituary

Allister William Mackenzie

The funeral of Allister William Mackenzie, aged thirty years, who died in the city Friday, August 12, took place at 2 p.m. Monday from the parlors of Howard & McBride to Beechmount cemetery. The Rev. Mr. Grant conducted the services.

The deceased is survived by his widow, Mrs. William Mackenzie, residing at 9622 104th avenue.

James Fleming

The death occurred in the city Monday night of James Fleming aged 52 years. The body is in care of Connelly & Armstrong, awaiting instructions for funeral arrangements by family at Viking, Alberta.

Railroad Brotherhoods Might Take Referedum on Wage Cut Next Week

CLEVELAND, Aug. 15.—The call for the referendum of all the members of the "big four" railroad brotherhoods and the Switchmen's union of North America, to determine their attitude on wage reductions ordered by the United States railway labor board under which they have been working since July 1, may be issued before the end of the week, according to officials of the railway brotherhoods here tonight.

The situation hinges, not so much on the average 12 per cent. reduction already ordered, but on rumors that the railroads would seek further wage reductions, the elimination of time and one half pay for overtime, and the revision of schedules and working conditions.

"If the railroads propose to go ahead and upset all we have gained through years of negotiation and eliminate time and one half pay and other working rules and conditions no power on earth can hold the railroad men of the country," President Lee, of the trainmen, said in a recent interview.

Carmen's Union Raises Its Per Capita Levy on Membership of 200,000

TORONTO, Aug. 15.—The question of raising the per capita levy on all its two hundred thousand membership, was introduced at the afternoons session of the Railway Carmen of America, and passed by a majority after the most heated controversy

From the present straight rate of fifty cents per month the law committee recommended a graded increase, calling for a monthly tax of 55 cents on coach cleaners, 65 cents on helpers and apprentices and 85 cents on mechanics.

It was also proposed that the great increase in revenue which would result from this should be used for improvements in benefits, notably the insurance of "out of work", stamps and enlargement of scope of disabilities.

Names Representatives at Meeting of League

LONDON, Aug. 15 (Canadian Press Cable).—At question time in the house of commons today Premier Lloyd George said he was unable to announce who the representatives of Canada and Australia would be at the forthcoming meetings of the assembly of the League of Nations, but he added that Sir James Allen would represent New Zealand and Sir Edgar Walton, Lord Robert Cecil and Gilbert Murray would represent South Africa.

Mountain Landslide Has Changed Country's Aspect

ASHCROFT, B. C., Aug. 15.—A landslide with a half mile frontage came down without warning at Basque, B. C., on the west side of the Thompson river, Saturday, changing copmletely the aspect of the country in that section. The river was entirely blocked and up-stream has risen 12 feet. The ground is still falling down at intervals. Railways are on the east side of the river are out of the danger zone.

Left Large Bequest to Dalhousie University

HALIFAX, Aug. 15.—It is understood here that the late Mrs. E. B. Eddy, who died at Hull last week, left an estate valued at about $6,000,000. A sum of $300,000, it is believed, has been left by her to Dalhousie University, bringing the total benefactions of Mrs. Eddy to this institution up to $500,000. Mrs. Eddy's remains were buried at Chatham, N.B., her birth place, on Saturday.

ATTACK NATIONALISTS: BELIEVE TRUCE BROKEN.

BELFAST, Aug. 15.—A partisan attack upon a group of Nationalists was carried out tonight. The Nationalists were returning from a fete at Donnegore. One man was mortally wounded. This is the first incident of the kind since since the truce went into effect.

Weather for Harvest in North Proves Ideal at Mine Is Dead

PRINCE ALBERT, Aug. 15.—Ideal weather prevails over the northern area and wheat cutting is becoming general. In some cases the yield is expected to run well over forty bushels per acre for wheat, seventy-five for oats and forty for barley and the general average is expected to be well above last year's yield and equal or better than any former year. Stem rust is apparent in many fields in varying degrees, but is not expected to materially lower the yield in the earlier sown crop. Hay is plentiful and already enquiries have been received in the district as to the possibilities of shipping some to Quebec With a continuance of the present hot weathre much of the wheat will be down during the next two weeks.

Visiting Teachers Are Given Honorary Degrees

TORONTO, Aug. 15. — Gowns of scarlet, sky blue and black, topped by caps and hoods of similar varied hues featured the special convocation ceremony of the University of Toronto on Saturday, when honorary degrees of doctor of laws were confered upon four visiting delegates of the Imperial conference of teaches' associations in the persons of Sir Harry R. Reichel, vice-chancellor and principal of University college of North Wales, C. M. J. Rendell, headmaster of Winchester college; B. M. Allen, deputy education officer, London county council, and Rev. A. Moffatt, professor of physical science, Madras Christian college.

RESCUED WOMAN THEN LOST OWN LIFE

COURTNEY, B.C., Aug. 15.—After rescuing Miss Winnie Farley, who had stumbled into a deep hole in Courtney River, John Sutherland, a veteran of the war fell back exhausted into the river and was drowned.

W. R. Clarke, sporting editor of The Bulletin, has returned from a two weeks' sojourn at Seba Beach.

• • •

Mrs. G. Moth returned on Sunday night from Calgary, where she has been taking part in the provincial tennis tournament.

• • •

Mr. and Mrs. B. A. Huckell entertained at a merry little verandah dance at their summer cottage, South Cooking Lake, on Saturday evening in honor of their week-end visitors, Messrs. Bill Armstrong, Gordon Douglas and Graham Huckell.

• • •

Mr. and Mrs. E. C. Casselman returned to the city on Sunday night from Calgary, where they attended the provincial tennis tournament.

• • •

Mr. and Mrs. R. V. Bellamy have taken the Clibborn cottage at South Cooking Lake for the next few weeks.

• • •

Mr. and Mrs. George Beart, Mrs. George Moth, Mr. and Mrs. E. C. Casselman, and Mr. K. S. Stuart were among those from Edmonton who attended the provincial lawn tennis tournament dance in Calgary on Friday evening.

• • •

Mrs. C. A. Jackson and Miss Amy Jackson, of Calgary, entertained at the tea hour on Friday afternoon in honor of their guest, Miss Miriam Elston of this city. Mrs. John Stringer was also numbered among the guests.

• • •

Miss Kathleen Roach has returned to the city after a vacation spent at Lac St. Anne.

• • •

Miss Gladys Prideaux returned on Monday night from Banff, where she has been holidaying.

• • •

Miss Catherine Ann McNabb, of Toronto, arrived in the city on Monday afternoon to be the guest of her sister, Mrs. Charles Grant Robson, 116 street, for the next month or six weeks.

• • •

Mr. Gordon Gould, of the North American Life Assurance Company, has left on a ten days' trip to Vancouver.

• • •

Miss Campbell and Mr. Campbell, of Winnipeg, are guests of Fire Chief Davies and Mrs. Davies.

• • •

Mr. and Mrs. G. G. Robson, of the Jasper block, are spending a vacation at Rainbow Lake, near Mount Robson.

• • •

Mr. and Mrs. Wm. McIntosh entertained on Friday evening in honor of the girls who have been camping at Sunnysid farm, Westlock. The evening passed quickly in dancing, games and singing. During the evening a buffet supper was served. The guests included: Misses Kathleen McIntosh, Isabell Brown, Mary Gillies, Mr. and Mrs. Macdonald, Messrs. C. R. Kinsella, C. McMaster, B. Poland, J. Clesson, H. McPherson, Jas. Thomson, J. Diamond and J. Irwin. The party broke up in the early hours of the morning, when the girls caught the train for Edmonton.

• • •

The Misses Jean and Lindsay Campbell are guests at the home of Mrs. K. M. MacMillan, Edmonton.—Calgary Herald.

• • •

Mr. and Mrs. Donald McTaggert and their nephew, Norman Pickard, left last night to spend the week-end in Edmonton.—Calgary Albertan.

• • •

Miss Lillian Berry, who has been the guest of Mrs. E. R. Birnie for the past week, has left for Sylvan Lake, where she will visit, after which she will return to her home in Edmonton. —Calgary Herald.

• • •

Mr. Isadore Allen, of Calgary, is a visitor in the city, the guest of Mr. J. K. Reith, manager of the Rialto theatre. Mr. Allen has just completed a trip around the world.

• • •

Mr. and Mrs. R. E. Karran and Master Bob Karran, 10239 107th st., left Sunday morning to spend their holidays in the east, travelling via the Great Lakes.

• • •

Dr. and Mrs. M. A. McIntyre, Wm. Cooper Shaw, are guests at the Strathcona Hotel, Victoria.

• • •

Mr. and Mrs. George Beart and Mr. K. S. Stuart returned to the city by motor on Sunday from Calgary, where they took part in the provincial tennis tournament.

• • •

Mr. and Mrs. Charles Hepburn were Sunday visitors at the summer cottage of Mr. and Mrs. A. B. Huckell at South Cooking Lake.

• • •

The Rev. J. P. Gerrie, who with Mrs. Gerrie, is spending a vacation at Gull Lake, returned home for the week-end for the purpose of conducting the united services of the Metropolitan and Knox church, Sunday morning and evening. Mr. Gerrie went back to Gull Lake on Monday.

• • •

A surprise party was sprung on Mr. Harry McPherson on Tuesday afternoon, August 9th, by the girls who are camping at Sunnyside Farm, Westlock. Taking possession of his home they very soon made the cabin full of laughter. The afternoon was spent in singing and games. Later refreshments were served and the party left for the home of Mr. Proudlove where the remainder of the evening was spent.

In spite of the weather Mr. Proudlove and his daughter Amy entertained at their home on Tuesday evening, August 9th, the girls who are camping at Sunnyside Farm, Westlock. The evening was spent in games and singing. During the evening a tempting buffet supper was served. Mr. Harry McPherson kept the company in the best of spirits with his wit and humor. The guests were Mrs. Roddick, Misses Mary and Margaret Gamble, Messrs. H. McPherson, J. Thompson, Parker, Wm. Reighns, J. Allan, A. Gillies, W. Gillies and J. Diamond. After an enjoyable time the evening was brought to a close by singing "Auld Lang Syne" and "For They Are Jolly Good Fellows."

The Daily Poem

ON TEACHING

When I consider how my days are spent
In teaching forty unresponsive girls
Who are too busy fondling puffs and curls
To let me on their minds e'en make a dent
Of what the ages past have to present
As food for thought a little voice I hear
Which says to me, "'Tis quite in vain, my dear.
The present youth on present things are bent;
There is no time for thought of yesterday.
Why should they learn of Roman and of Greek?
No movie plots are founded on their fate.
Why should they wish the poets' words to hear?
'I'll say so' are the words they need to speak.
To get response you must be up to date."

—Emily H. Welch.

Edmonton Girl Becomes Bride Of San Diego Man

The San Diego Union of Wednesday morning, July 27th, contains a two-column portrait of Mrs. Harold A. Neely, (nee Miss Georgina M. Gallon), formerly of this city, together with the following account of her marriage with Mr. H. A. Neely of San Diego:

Miss Georgina M. Callon and Harold A. Neely were united in marriage Monday morning at 10 o'clock at the home of the bridegroom's parents, Mr. and Mrs. S. T. Neely, 4011 Idaho street. The ceremony was read by the Rev. G. A. Charnock of the Park Villa Congregational church.

The bride, who is the daughter of Mr. and Mrs. James Patrick Callon of Edmonton, Canada, was attired in a navy blue suit trimmed with silver gray, and a hat to match, with a corsage bouquet of bride's roses.

Mr. and Mrs. Neely will make their home in San Diego. The bride was born in Canada and her family lived here several years ago. Mr. Neely was born in El Cajon and is connected with Stephens and company. He was formerly with the Southern Trust and Commerce bank.

Kights of Pythias Commemorated First Anniversary of Lodge

A most successful Picnic was held by the Knight of Pythias, Edmonton Lodge No. 13, on Saturday, August 13th, at the East End Park, to commemorate the anniversary of the Institution of the Lodge on August 13, 1920. The large number of members and friends who attended, added zest to the efforts of the Committee in charge who are to be congratulated on the able manner in which all business for the pleasure and comfort of those attending was managed. The chairman of the committee Bro. E. Halsal wishes to thank the most Excellent Chief, Mrs. McFadyen and The Sisters who were assisting her, for the able manner, in which they handled the refreshments, also all Brothers who gave of their best.

The following is a list of the prize winners:—

Boys under six years.—1, Walter Cordray; 2, Russell Plummer.

Girls under six years.—1, Margaret Newman; 2, Patsy Newman.

Boys under 10 years.—George Keats; 2, Reg Rose.

Girls under ten years.—1, Olive McMahon; 2, Marjorie Dayell.

Boys under sixteen years.—Charles Michelot; 2, Harlod Payne.

Gurls under sixteen years.—1, Lavita McDonald; 2, Catherine Stillson.

Boys Shoe Race.—1 Austin Goard; 2, James Haddow.

Girls potato race.—1, Julie McMahon; 2, Lyvita McDonald.

Gents 100 yds. race.—1, J. Botting; 2, E. R. Lister.

Ladies needle race.—1, Mrs. McKeever; 2, Mrs. Lister.

Gents cigarrette race.—1, J. Botting; 2, A. McKeever.

Boys Bun and Whistle race.—1, Maurice Hope; 2, Lewis Haddow.

Girls sack race.—1, Rosalie Hawkins; 2, Olive McMahon.

Gents Tie race—1, E. D. Hare; 2, H. Hawkins.

Ladies egg and spoon race.—1, Mrs. Newman; 2, Mrs. Hare.

Boys sack race.—1, Ge Keats; 2, Roy Buchan.

The Cup presented by the Knights to be competed for by the Sisters of Calinthe Temple No. 1., was won by Mrs. A. McKeever after a most exciting race.

Timely Recipes

Baked Peaches

Peel, cut in half, and remove stones from 6 peaches. Place in a shallow pan. Fill each cavity with 1 teaspoon of sugar, ½ teaspoon of butter, a few drops of lemon juice and a slight grating of nutmeg. Cook 20 minutes and serve on circular pieces of buttered dry toast.

Peaches in Cantaloupes

Fill halves of cold cantaloupes with sliced peaches, sprinkle them with sugar and candied ginger, chopped fine, and serve with whipped cream.

Boiled Peach Pudding

Line a pudding dish with suet crust, fill with sliced peaches and sprinkle each layer with brown sugar. Cover with crust, tie up in floured cloth and boil from 2 to 3 hours.

Peach Custard

Arrange alternate layers of stale cake and sections of preserved peaches in glass dish, and pour over boiling custard.

Peach Pie

Remove skins by allowing peaches to stand in boiling water one minute. Cut in eighths, cook until soft with enough water to prevent burning; sweeten to taste. Cool and fill crust previously baked. Cover with whipped cream.

Peach Jam

Pare and quarter the peaches, cook until tender and mash; allow ¾ lb. of sugar and 1 cup of water to each pound of fruit. Cook, stirring constantly, for 15 or 20 minutes. (The early clingstone and white varieties make good jam.)

Welsh Citizens Take Part In Picnic at S.S. Park

Saturday was a real Alberta day, and because of this the Welsh picnic held on the South Side exhibition grounds was a very happy event. Those proving successful in the various sporting events were, Enid Griffiths, Albert Michard, Phyllis Davies, Phyllis Williams, Elwyn Evans, Mrs. Plumb, Wm. Price, Edmund Richards, Dora Richards, Beowyn Griffiths, Stanley Richards. After the sports program had been gone through, the company enjoyed the contents of the baskets they had brought with them.

Incidentally it should be remarked that the South Side exhibition grounds are ideal for picnicing and sports purposes.

Engagements.

STOBBART-RIDDLE

Mr. and Mrs. James Riddle, 10253 108th street, announce the engagement of their second daughter, Katie, to Mr. J. B. Stobbart, son of Mr. and Mrs. William Stobbart of Sanderstead Surrey, England, the marriage to take place September 6th.

Library Story Hour on Wednesday for Stay-at-Homes

To the children who stay at home during the holidays, Miss Marjorie Henzell will tell the stories of "The Legend of the Daisy," and "Ten Little Indians," at the story hour in the Y. M.C.A. Hut on Wednesday morning, at 11 o'clock.

MOUNTAIN STREAM OVERFLOWS—5 DROWNED

Rome, Aug. 15.—Five persons lost their lives and several houses were destroyed when the Isarco river, a mountain stream emptying into the Adige, overflowed its banks last week. There were a number of unauthenticated reports relative to the flood, some of which stated 250 people had been drowned, while others were to the effect that a dam across the Isarco had collapsed.

AUSTRALIANS MAKE SWEEP OF DANISH TEAM

Cleveland, Aug. 1.—Australia made it five in a row in its meeting with Denmark in the final Davis Cup play here Sunday. J. O. Anderson encountered little opposition from E. Tegner, winning 6-0, 6-12, 6-1, while Captain Peach was forced to go five sets to win from Ingerslev, Danish national hampion. The scores in this match were 3-6, 6-2, 6-0, 3-6, 6-2.

Edmonton's share to care for the orphans of the province, a $10,000.00 cottage to take care of twenty-five motherless boys and girls.

Anglican Missionaries Tell Of Life of Tudukth Indians Who Dwell on Arctic Coast

The Rev. E. Reed and Mrs. Reed accompanied by their little son, Edward McPherson Ellis Reed, the only white boy in the Arctic, and first white child born within the Arctic circle, are in the city having recently come from Fort McPherson, where they have spent the three past years as Anglican missionaries.

Since coming to the city Mrs. Reed has given birth to another son, who is to be named Albert Edmonton Arctic Reed.

Fort McPherson.

Speaking of conditions in Fort McPherson, Rev. and Mrs. Reed said that they saw other white people only twice a year. Rev. and Mrs. Hoare, missionaries to the Eskimos, are stationed at Scenic, where there is a hospital, church and house. At Sningo Point the Rev. W. A. Geddes and W. D. Young, laymen, are building a mission church.

There is also a mission house at Hershell.

At Fort McPherson is stationed the largest Anglican mission in the north. The mission house is 25 x 40 feet in size. The church there was founded in 1861. It is now boarded and has been improved with the use of imported lumber. There is a log school house, also four outer sheds where boats, etc., are kept.

Other Christian leaders at Fort McPherson are the Rev. Edward Sittachinall and Rev. J. M. Crisall, both ordained natives, also three catechists, Colin Vittshik, Peter Snowshoe and Siman Tintzhik, of the Lieuchieux tribe who go out with the Indians on their hunting trips, distributing literature and preaching. There are three hundred Christians at Fort McPherson, who are very faithful.

Tudukth Indians.

The Tudukth or Lieuchieux (a word of French derivation meaning slant-eyed) Indians range from the Copper river to Dawson and from the Arctic ocean to the Arctic circle. The life of the women is hard but not stern. She is the worker of the family. The men and women are becoming more like partners instead of, as formerly master and servant.

When a girl reaches the age of sixteen her parents begin to look for a suitable husband for her. The Indians never plan beforehand. They announce their wish to marry, to the minister only about a day before they wish the ceremony to take place. It had to be explained to them by Rev. Reed that the bans must be read at three services before the ceremony could take place. Sometimes services were held and the banns read three times in twenty-four hours, in order to have the ceremony take place at a certain time, for once marriage had been thought of between two people a feast was at once prepared.

Indian Customs.

An instance was cited in which a widower came to the missionary saying, "I want you make me woman." On being asked who the woman was, he replied "Jean." It was then Saturday, and he wished to be married the following Monday. The banns were read at a service on Saturday night, at another on Sunday morning and at another on Sunday night. In the meanwhile preparations for a feast were going forward. On Monday morning the prospective bridegroom came in first, about ten o'clock. A little later Jean entered. She was a widow and carried her youngest child on her back. After that various women came straggling in, but no men appeared, and the minister had to send the bridegroom out to find the man to stand with him. They went to their own homes after the ceremony, but at seven o'clock that night a feast was prepared, after which the bridegroom followed the Indian custom of going to the home of his bride, where he stayed until either he was tired of the company of her people or until he was able to provide a home of his own.

On the arrival of a new baby, the women of the community congregate at the home of the new visitor and give advice. Nothing is ever prepared beforehand, so one woman makes a bonnet while some others make a bag, usually of velvet, into which they put the baby. The bag is laced and the baby remains in this bag, receiving as little attention as possible for the next six weeks. Seventy per cent. of the death rate is among babies under six months old. With them it is a case of the survival of the fittest. A child is nursed until it is three years old or until it is able to eat meat, for the only milk procurable is condensed milk, and that costs from $1.00 to $1.50 a small can.

Indian Housework.

The housework of the women consists in shaking the blankets in the morning and hanging them out to air. They then gather wood in the summer time. In the winter time the men provide the wood by cutting down trees.

A large pot of tea stands on the stove always. The old tea leaves are never emptied out, but new leaves are put in, so that a sort of boiled tea is the result. Their solid food consists of a bannock made from flour, water, baking powder and grease. They consider themselves lucky if they can procure a little sugar and some raisins. These cakes are about an inch thick and measure about six inches across. They are baked on the stove, in the open or in a frying pan. Fish is usually broiled in a pan, or made into a mush called fish soup. Ducks are cleaned as little as possible and are cooked over a fire or in a pot.

Women's Dress.

The women's summer dress consists of a skirt made from as much cloth as the woman is able to procure, and gathered at the waist into a band. Her blouse is modelled after the old shirt-waist style. On her head she wears a bright handkerchief and invariably also wears a shawl, although many of the younger women now wear sweaters.

In winter the women wear a heavy coat made of blanket cloth trimmed with fur or of all fur called a "Parka."

In summer they wear nothing on their feet, and in winter wear plain mocassins. Only the men wear embroidered mocassins, and the kind of wife a man has can always be told from his mitts and mocassins, for an idle wife will not trouble to ornament them in any way. In addition to mocassins in the winter, the women wear two or three pairs of blanket socks and also wrap their feet in rabbit skins.

Family Hunting Grounds.

At the beginning of the winter the various families go to their own hunting grounds. All the members of one family, including fathers, mothers, mothers, sons, daughters, son-in-laws, daughter-in-laws, nieces, nephews, etc., congregate at the old hunting spot that has belonged to that family for generations. These hunting grounds have names such as Husky River hunting ground, Johnny K.'s hunting ground, Charlie Rat's place, Nelson fisheries, Mouth of Peel, Point of Separation, etc.

The men start out in the morning and search for trails of the animals they are seeking, which they follow until they run down the herd. They kill as many as they can get and then start to skin and cut up the animals.

According to the old custom, the men never touched an animal after it was dead. It was the work of the women to skin and cut up and dress the meat. Only the heads and limbs of the animal is kept for food.

Moose nose is considered a great delicacy. They never give it away unless out of gratitude or as a special favor. It is reserved for the men. Rev. and Mrs. Reed received some once from a chief whose dying child they had attended. They say it was one of the best pieces of meat they have ever tasted. The flavor was positively delicious. This tasty morsel is obtained by peeling off the upper jaw of the animal's face, from the upper lip to just below the eyes. It is a sort of gristle in which there is no bone.

On returning to the camp, the dogs are let loose. They go straight to the place and do not return until everything has been disposed of. In this way the dogs look after themselves during the winter. It is an unwritten rule that an Indian must remain where he is until the dogs return.

Summer Season

The Indians living on the shores of the great Arctic Ocean in the vicinity of Fort McPherson, congregate in the mission centres as soon as the hunting season of winter closes and the missionaries make preparations for the opening of as many schools as they have native teachers able to take charge. There was no chance in the old days for any learning, but most of the women now atend the mission schools during the summer months. The men very seldom wish to learn. The winter is spent hunting and fishing but the summer months are spent in feasting, visiting and trading.

Schools In Summer

At Fort McPherson, there were three native teachers, one who taught the little tots the alphabet; another who taught the older ones the rudiments of reading; and another who taught the Bible to those who could read. They all learn very quickly.

In addition to learning the alphabet, they must also learn about 300 syllables, before they can read. In the Lieuchieux language is no "q" "p," or "b". Thus "Queen" is spelled "Kween."

One of the delights of learning to a woman is to be able to write her own name. They are very anxious to learn English. All the young people speak a few words of English. Their language is vastly different from ours. For example, God is in their language is "Vittekwichanchyo"; Wife is "Trenjo"; Man is "Tinji"; speaker or minister is "gikhe".

Men Eat In State

The men of the tribe always eat in state. In the tents, their table is likely to be a box, but in a house they may have a proper table. The man of the house has his own dishes including, a plate cup saucer etc. The food is placed on the table and he sits down to eat, while the woman and children sit back until he has finished. It would not be entirely correct to say that they get what he leaves because there is always enough for them to eat. The Indian never starves the women and children but they do have to wait until he has finished before they can eat their portion.

Both parents are very good to the children. The children really rule the house, and the parents will give up anything to the child.

Funeral Arrangements

When it is known in the community that some one is dying, all the neighbors crowd into the dwelling place, no mater how small it is, but they keep as far from the bed as possible, so that it is possible for the place to be crowded to its utmost capacity without looking crowded. No one makes the slightest sound. They believe that by being still, the spirit will be helped in its upward flight. A noise of any kind might trouble it and bring it back. The minister is the only who is allowed to speak and he is always asked to pray.

Spirits Come Back

Immediately the person is dead, they make a terrible noise, wailing. Several women take hold of the body at once, and begin to wash it and prepare it for burial. They take more pains with the dead body than they do when alive. In many cases the washing after death is the only bath the person ever receives. So quickly do they work that the body is dressed before cold. While the women are working with the body the men are busy getting lumber making a coffin, and digging a grave. The body is usually confined to the earth within thirty hours after death. They believe that the spirit comes back for three days after death. Some even go so far as to say that they have seen it. In the coffin they place a prayer book and a hymn book. They don't seem to know why but these are placed even in the coffins of babies.

Church Service

The coffin is taken to the church and at the close of the service, is opened and every person must look at the dead. The bodies always blacken very quickly, and it is a most gruesome sight to see the relatives all kiss the face of deceased and fuss and arrange the clothing to better advantage.

At the grave side each person has to throw in a handful of earth. If they do not it is thought they owe the dead some grudge, which will cause them trougle.

Women Cut Hair

All the women relatives cut their hair according to the amount they loved the deceased. For instance, if they loved the dead one very much they will cut off half of their hair which they leave hanging in a braid to show how much has been cut off. An inch cut off will signify that they loved only a little.

Everything a dead person has used from his bed to his dishes are burned or destroyed.

Winter Graves

During the winter, it takes about three days to make a grave. The men dig as much as possible the first day, then make a fire in the hole to thaw out the ground which they dig out the next day, and then if necessary, make another fire that night and dig the next day, until they have a large enough grave.

Highlands and District Community League Hold Annual Picnic and Sports

Excellent management throughout and the heartiest enjoyment of everyone present were the outstanding features of the big gathering attending the Highlands and District Community League sports and basket picnic held on the sports ground adjoining Ada boulevard on Saturday last. Without a hitch the long program of over 35 events was carried through with the vim and cooperative spirit that usually mark the activities of this league.

At the conclusion of the set program, the president of the league (A. U. G. Bury) assisted by the chairman of recreation committee (H. Slate) and the league secretary (H. L. Humphreys) distributed the prizes, prior to which Mr. Bury called attention to the notice posted on the grounds offering reward on behalf of the league for discovery of the individuals concerned in sending a false fire alarm call from a nearby box the previous evening. As emphasized by the placard and speaker, not only did such useless and dangerous tricks endanger the lives of the firemen in their usual terrific and splendid rush in response to calls, but also damaged the good name of the district in which practised, and robbed possible real fires, during the time, of the services of the men and equipment wasted and risked in such culpable fashion. Hearty agreement was evidenced in the president's comments by those present.

A keenly enjoyed item of the day, in which everyone, especially the kiddles shared, was the periodical peanuts and "kisses" scrambles, replenished from great bags that, as one remarked, seemed like the widow's cruse of oil, never ending.

Rounds of ringing cheers were given at the close for the recreation committee and to the ladies and all assisting in providing the day's all-round pleasure, including the following contributors to prize fund and expenses: Beverley Mine per A. J. Davidson, $5; Bon Ton store, per Mr. Morrison, goods, $1; Bush Mine, per Mr. Southgate, $10; Coca Cola Co., per Mr. Davis, goods, $6; Dominion Rubber Co., per J. L. Bond, goods, $5; E. C. D., per Mr. Stanley, goods, $7.25; R. W. Grierson, $7; Humberstone Coal Co, per C. G. Sheldon, $25, H. and D. Community League, $25; A. Jackson, $1; A. E. Meyers, $2; Richards' Store, goods, $2; Swift Canadian Co., goods, $6; Western Veteran Printing Co, $7.

The following shows the list of events and winners:

Girls' 50 yards dash—(10 and under 12)—1st, Diana Baylils; 2nd, Nancy Thompson; 3rd, Margaret Morrison.

Boys' 50 yds. dash—(10 and under 12)—1st, Colin McGilvray; 2nd Harold Shortridge; 3rd, George Holgate.

Boys' 75 yds. dash—(12 and under 16)—1st, Marvil McNeil; 2nd, Magnus Hughes; 3rd, Cyril Foster.

Girls' 75 yds. dash—(12 and under 16)—1st, Phyllis Baylils; 2nd, Violet McLeod; 3rd, Cecilia Hassan.

Young men's 100 yds. dash (16 and over)—1st, Frank Slate; 2nd, George Reed; 3rd, Bill Montgomery.

Young women's 75 yds dash (16 and over)—1st, Elsie Reed; 2nd, Elsie Reed; 2nd, Ethel Johnson; 3rd, Evangeline McNeil.

Small girls' 50 yds. dash (under 10) —1st, Pearl Fulthorpe; 2nd, Marjorie McLeod; 3rd, Margaret Grierson.

Boys' sack race (open)—1st, Frank Slate; 2nd, Marvil McNeil; 3rd, Bill Montgomery.

Girls' 50 yds. skipping (under 12) —1st, Helen Montgomery; 2nd, Nancy Thompson; 3rd, Diana Baylils.

Girls' skipping (12 and under)—1st, Cecilia Hassan; 2nd, Elsie Reed; 3rd, Violet Ward.

Small boys' dash—(under 10)—1st, Chas. Bean; 2nd, Phillip Orries; 3rd, A. McGilvray.

Broad jump (boys under 12)—1st, J. Slater; 2nd, George Holgate.

Broad jump—(12 and under 16)—1st, Marvil McNeil; 2nd, Clifford Shook.

Broad jump—(16 and over)—1st, Frank Slate; 2nd, Bill Montgomery.

Hop, step and jump (under 16)—1st, Marvil McNeil; 2nd, Clifford Shook.

Hop, step and jump (16 and over) —1st, Frank Slate, 30 ft, 3 in; 2nd, Laurie Loutitt.

Married women's 75 yds. dash—1st, Mrs. Davidson; 2nd, Mrs. Manning; 3rd, Mrs. Lammie.

Boys' foot and cycle—1st, Ernie Chown; 2nd, Magnus Hughes.

Girls' flower-gathering race—1st, Annie Underwood; 2nd, Edith Underwood; 3rd, Margaret Thompson.

Boys' three-legged (under 14)—1st, Leo Fowler and Colin McGilvray.

Girls three-legged (under 14)—Pearl Fulthorpe and Cecilia Hassan.

Bicycle tortoise race.—1st, Frank Slate; 2nd, Cameron Smith.

Boys' obstacle—(under 14—)1st, Claude Withers; 2nd, Colin McGilvray.

Boys' obstacle—(14 and over)—1st, Frank Slate; 2nd, George Reed.

Girls' relay—(open)—1st, Elsie Reed's team.

Boys' relay—(open)—1st, Edmund Allen's team.

Throwing the baseball—(under 16) —Marvil McNeil.

Throwing the baseball—(16 and over)—1st George Reed; 2nd, J. Holgate.

Men's putting the shot—1st, (37 ft.) A. Pearson; 2nd (35 ft. 7 in.) Jack Raymond.

Prior to, between and following the above events, boys' girls' and men's baseball games and quoits playing were in operation.

Republican Parliament Assembling

Crucial Period in Irish Negotiations Faced in Britain—Lloyd George Lays All Cards on Table and Awaits Action of Parliament at Dublin.

Dublin, Aug. 15.—An informal meeting of the Irish Republican parliament was the chief manifestation today of the activity observable in both Sinn Fein and Dublin castle quarters as the result of the new turn in the Irish negotiations, following the disclosures in the correspondence between Mr. Lloyd George and Eamonn De Valera. The meeting was held in the Mansion House at noon to give the members, many of whom had never met, an opportunity to become acquainted and exchange notes prior to the summoned meeting to be held tomorrow to consider the whole question of the negotiations.

The people of Ireland, who have enjoyed a month of peace, found it hard today to believe that negotiations between Eamonn De Velera and Prime Minister Lloyd George were at the breaking point. They were placing their hopes in the Irish Republican parliament which will meet tomorrow to consider the whole correspondence and frame a reply to the prime minister's latest letter.

Suggestion has been made that the Dail Eireann may propose submission of the question to a plebiscite, but this proposal may not come from those wishing to prolong the truce as long as possible.

Deadlock Now Exists.

London, Aug. 16.—Great Britain today faced a crucial period in the negotiations looking to the establishment of peace in Ireland. The action of the British government yesterday in making public letters exchanged between Prime Minister Lloyd George and Eamonn De Valera, Irish Republican leader, shows the people that a virtual deadlock existed and although the door was declared to have been left open for further parleys, it was apparent that the situation was one of considerable gravity.

Reports from Dublin which might indicate what the Irish Republicans would do to counter the unexpected move of the government in giving the correspondence to the press were anxiously awaited. It appeared the next step should be made in that city as Mr. Lloyd George literally laid his cards on the table yesterday and it seemed that Mr. De Valera and his colleagues must meet the situation thus created. Whether they would issue a statement today or would wait until the opening of their parliament tomorrow was uncertain. The purpose of the precipitate action of the government in making public the British proposals and demands of the Irish Republicans has not been disclosed, but it would appear that the prime minister sought to lay the Irish problem before the country on the eve of the meeting of the Dail Eireann.

No Surprise at Belfast

Belfast, Aug. 15.—Little surprise was felt here at the tenor of the letter from Eamonn De Valera to Prime Minister Lloyd George rejecting the government's offer of dominion status for Ireland, as talk of peace has been regarded with much skepticism. It is predicted that should the truce in Southern Ireland be ended the government's difficulties would be enormously increased through having recognised the Sinn Fein as belligerents.

A meeting of the Ulster cabinet has been called, although Ulster is only indirectly interested.

The Government's Terms.

The government terms were in brief as follows:

> Dominion status for Ireland with complete autonomy in financial matters, but without tariff or trade restrictions between the islands. Ireland would maintain defence forces and police but her territorial forces would be kept within "reasonable limits."
>
> Irland would maintain her own postal system but would grant Great Britain air defence and communication facilities. Ireland would have control of her own educational and industrial affairs, but the British navy would maintain i's hold on the seas around the island. A share of the United Kingdom's debt would be assumed by Ireland, the exact amount to be fixed by arbitration. Mr. De Valera in reply demanded full independence for Ireland and suggested a treaty of association with the British commonwealth group.

Treaties regarding trade and limitation of armaments were urged by the Irish Republican chief together with mutual agreements as to air, railway and other communications. The Ulster problem would be left to the Irish themselves for solution, Mr. De Valera declaring that the employment of force was not contemplated.

Craig Would Co-Operate.

The attitude of Ulster was made plain by the making public at Belfast of a letter to Mr. Lloyd George from Sir James Craig, the Ulster premier. Sir James expressed the loyalty of his government to the empire and reiterated his readiness to confer with Mr. Lloyd George and the Sinn Fein as to some means of settling the Irish controversy but declared he would not support the Sinn Fein in what he described as a "move to coerce the government to repudiate the Irish act," and "to press for wider powers." Sir James said he would not interfere in any negotiations between the British government and the Irish Republicans, but would stand ready to co-operate on equal terms with Southern Ireland in carrying out any agreement they reached.

London Press Comment.

Most of London's newspapers in their comment on the new developments on the Irish situation this morning reflected the belief that the government's proposals offered a generous settlement of the controversy.

"They show great statesmanship, courage and decision on the part of the government," says the London Times. "Broadly these concessions represent the extreme limit to which this or any British government is likely to go. Mr. De Valera's reply approaches more closely to the tone desirable in such negotiations than of his past utterances. It is a reasoned refusal, which appears deliberately to avoid any final rupture. The prime minister's reply is the only possible rejoinder and we hope the Irish people will give deep consideration to the statesmanlike advice of General Smuts, premier of the union of South Africa, whose letter to Mr. De Valera made public on Saturday urged acceptance of the government's offer."

The Daily News found ground both for hope and for fear in the correspondence, but declined to believe Ireland would "throw away the substance in grasping at a shadow."

The Daily Telegraph believed that a way still remained open for the introduction at the meeting of the Dail Eireann on Tuesday "of the saving element of practical statesmanship into the negotiations on the Irish side."

The Daily Express declared its belief that Mr. De Valera was having trouble with the extremists of his party and ventured to predict his reply was not the last word from Dublin.

Mr. De Valera's letter rejecting the government's offer, in the opinion of the Daily Chronicle, revealed many hands and two tendencies, "one hostile to peace and the other practical and favorable and recognizing there was something to negotiate."

"The hostile tendency" the newspaper continued, "seems to have won the upper hand in the council which drafted Mr. De Valera's letter, but it remains to be seen whether Irish public opinion and the opinion of the Dail Eireann will confirm that supremacy."

Stands By Irish.

The Daily Herald, representing the Socialist Labor view, declares the British offer was "essentially short of the just and logical Irish demand and created a deadlock which causes us to look to the future with anxiety and dread. This newspaper will stand by the Irish whatever decision they reach, but it hopes the Dail Eireann in order to save lives and bring peace will be able to accept something less than Ireland's due."

The Morning Post taking the view that the negotiations with Ireland had reached a most critical stage, denounced the government "for having deliberately placed this country in the position of a defeated nation by suing for terms."

"All of Ireland's best friends," said the Manchester Guardian, "and all who regard with passionate shame the wrongs she has suffered will hope and pray she will not now close the door of peace."

The Scotsman of Edinburgh said: "Peace is now in utmost jeopardy and if the Sinn Fein has spoken its last word the revulsion of temper in this country will be instant and overwhelming."

Mrs. A. Crawford Tells How Cuticura Healed Little Girl

"My little girl's trouble started with small pimples on the back of her head and they spread down her back. The pimples were hard and red and they itched and burned terribly. She scratched and irritated them and they later developed into sore eruptions. Her hair fell out and became thin and dry, and scales fell off on her clothing.

"I used a free sample of Cuticura and the pimples commenced to dry up. I bought more and when I had used one cake of Cuticura Soap and one box of Cuticura Ointment she was healed." (Signed) Mrs. Alonzo Crawford, 83 Parker St., Bangor, Maine, Jan. 22, 1920.

For every purpose of the toilet and bath Cuticura Soap, Ointment and Talcum are wonderfully good.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

NEW JUDICATURE ACT CREATES TWO ALBERTA COURTS

Ottawa Will Have Appointment Of Two Additional Supreme Court Judges

One of the last official acts of the Stewart government was to bring into force the recent legislation providing for the appointment of two new supreme court judgeships in the province, this judicature act initiation being proclaimed in a special issue of the Alberta Gazette.

The judicature act was passed some time ago by the legislature and waited the pleasure of the government to bring it into effect, although the appointment of the judges rests with the department of justice at Ottawa.

It was contended by the government that there was no necessity of bringing the measure into force and creating two new courts when members of the opposition clamored for the enforcement of the act some months ago, but with the fall sessions of the courts coming on and the prospect of crowding becoming imminent, doubtless the government felt in duty bound to bring the act into effect before they left office.

Who will be given the judgeships by the federal government is still a matter of much speculation, but it seems fairly certain that T. M. Tweedie, M.P., of Calgary, is slated for one of the positions. Rumors have been going the round that one of the members of the late Stewart cabinet may be given one of the posts, but so far there are two of the ministers thus named in popular comment and, these, being Hon. J. R. Boyle, ex-attorney-general, and Hon. C. R. Mitchell, ex-provincial treasurer.

HUNGARIAN RULE BRINGS ABOUT STRIKE.

Belgrade, Aug. 15.—A general strike has been proclaimed at Baranya as a protest against the evacuation of the territory to Jugo-Slav troops, preliminary to its surrender to Hungary under the terms of the peace treaty. Demonstrations are occurring in all parts of the district with minor conflicts between the opposing elements.

DEVASTATION IN FRANCE BEING FAST REMEDIED

French Consul General Tells Kiwanis Club of People's United Effort

French Consul General for Canada M. de Verneuil was the guest of honor at the regular weekly luncheon of the Kewanis club in the board of trade rooms Monday at the noon hour. The new consul, who was greeted with the heartiest applause, gave a short address on general conditions in France, the work of reparation and the most friendly relations that existed between that country and Canada and the motherland.

After quoting facts and figures to show that France was gradually rising from the devastations of the war, he went on to show that there was now in that country internal peace, with little or no labor trouble and workers were graciously accepting a lowering of wages in keeping with the conditions of the time. The farmers of the country were content and had settled down to production with might and main and, politically, there was union in the midst of the opposing parties. There was a general spirit of co-operation in the nation.

The new consul dealt briefly with the commercial agreement entered into between his country and Canada and gave it as his opinion that both countries were ready and willing to make the contract permanent.

The mutual sacrifices made by the two countries during the great war, he declared, would be a lasting bond in the times of peace. The speaker in closing words of his speech warned the public against pernicious propaganda that is insidiously being spread with the purpose of setting the allied nations one against the other.

Foreign Trade

Dealing with the favorable outlook for France's foreign trade the speaker showed that for the first five months of the year the exports were 7.827 million francs and the imports 15.720 million, leaving an unfavorable balance of 7.900 million francs, but for the first five monthe of 1921 this condition was reversed and the exports were 9.049 million francs and the imports 8.680 million francs, leaving a favorable balance of 360 million francs.

Measuring the foreign trade in native tons of manufactures and foodstuffs, the following figures show a favorable comparison for 1921, 1920, 1919 and 1914 respectively, first in imports, 11,750,000, 14,218,000, 9,114,000, 15,389,000 and second for exports, 4,743,000, 3,471,000, 703,000, 6,421,000.

Unemployment

In speaking of France's unemployed situation the French consul said that on the 17th of June, the minister of labor published a survey of unemployment in France from June 15, 1920, to June 15, 1921. The number of registered unemployed on the 15th of June, 1920 was 4,268; by the 1st of January, 1921, this number had risen to 47,134 and on the 30th of April, 1921, it reached its maximum, 84,810. By the 1st of June, this number had fallen to 60,565, of which 42,546 were men and 18,019 women. On the 15th of June, 1921, the registered unemployed in all industries totalled 58,411.

"It will be seen from the above figures that unemployment has been gradually decreasing in the last two months.

"In these same months there has been gradual resumption of trade. The minister of labor foresees continued decreases in unemployment in all lines of industries at a gradual rate. The minister draws attention to the fact that there was a much more severe unemployment situation immediately following the armistice, when the number of unemployed totalled at one time 126,000. This first period of unemployment, however, was of short duration, the number falling from 126,000 in January, 1919 to 22,000 in April, 1919.

"A noticeable feature of the last two months in the general trade of France has been the tendency to renew stocks in all lines which had fallen very low because of the period of world-wide depression.

Turning Point Passed

"Without undue optimism, it may be safely stated that the turning point in the situation has been passed and that graduel improvement in all lines has started.

"In 1913 the French tax payers paid nearly one billion dollars to the French Treasury; in 1919, they paid $1,800,000,000 though greatly impoverished by the war; they have now to pay under the provisions of the ordinary budget over four billion, i.e. about 110 dollars per head of inhabitants.

Dealing with the problem of reconstruction it was pointed out that of the 2,500,728 inhabitants who departed from their homes during the war, 1,976,798 had returned up to May 1, 1921; of the 3256 municipalities abandoned 3216 had been re-established; of the 789,000 houses destroyed, 10,213 had been rebuilt and 326,700 had been repaired; of the 8,240,000 acres of land devastated 7,244,000 acres had been cleared from projectiles and 6,881,000 had been cleared of projectiles, wire entanglements and trenches; of the 4,571,000 acres of arable land to be put in order, 4,336,000 had been cleared, and 3,420,000 had been cultivated; of the 1,259,000 animals carried away 337,730 had been restored; of the 32,960 miles of roads destroyed 18,825 had been temporarily repaired and 8426 had been permanently repaired; of the 2520 miles of railway destroyed 2292 had been repaired and of the 4700 factories employing at least 20 persons destroyed 3645 have resumed work.

Financiers of World May Gather at Washington For Revival of Commerce

Washington, Aug. 15.—Assembly of an international congress of financiers at Washington, possibly coincident with the disarmament conference in November—to discuss stabilization of foreign exchange is under consideration at the treasury department, officials said tonight.

The idea behind the proposed conference it to bring together the leading financiers of the world in hopes of evolving a program which by removing the uncertainties now resulting from exchange fluctuations would pave the way for a revival of commerce between the nations.

Request Made to Commissioners For Permission to Erect Track With Object of Holding Dog Races

Attempt Made to Introduce Popular American Sport Into Edmonton—South Side Athletic Grounds Proposed Location of Track—Coyote Houdns to Be Used—Much Favored in England.

Every man the owner of his own racing stud! Such is the picture which the future may bring forth, if a proposition now before the city commissioners comes to any material end.

The request has been made whether permission could not be granted for the erection of a track in the South Side athletic ground for the purpose of holding dog races there, similar to those held in the United States.

In the States the incentive used for the purpose of inducing the dogs to run is an electrically controlled figure of a jack-rabbit mounted on a rail along which the figure travels in a very similar manner to the moving targets at rifle ranges. By means of the control the rabbit is made to stop and listen, then move off again, and also the speed can be augmented or made slower. Races are between various classes of rabbit dogs.

For Edmonton it is proposed that coyote hounds will be used for racing, and for this purpose the quarry will be an electrically controlled coyote which will be mounted on rails, and be part of the track equipment I twill be made so that it can stop and look around, and then go on again, such as a coyote will when running from hounds.

Offer City 20 Per Cent of Gate

The request is made by W. Mohler, and it is asked whether a quarter mile track cannot be made. A charge would be made for admission to the grounds, and it is suggested that the city's interests shall be a percentage of the receipts, the figure named being 20 per cent.

Some information has already been secured on the matter and already there are something like fifty dogs in the city, whose owners would be anxious to enter them in any sporting events of the kind.

Attract Thousands

It might here be said that this particular sport of dog racing is not a new thing, as it has been in vogue in the old country, particularly in Yorkshire, for many years.

Yorkshire whippet races are a great feature, and attract thousands of most enthusiastic onlookers, particularly from men of the mining class. The whippet is a cross between the greyhound and terrier, and is bred specially for racing.

The gambling aspect was discussed when the matter came before the commissioners on Monday, and it was remarked that it was an issue which would have to be properly settled before the project was carried out to any length.

Again, there is another point, the races might cause persons to keep a number of dogs over which proper control might not be exercised. For some time past specific complaints have been made of nuisances caused by coyote hounds running loose in the city, and if these cases were multiplied the subject would be quite serious.

So far, nothing has been decided, but the commissioners will present the matter to council in the usual manner. There is, however, some little sympathy towards the project.

Showers Drown Forest Fires Near Westfield And Fighters Released

St. John, N.B., Aug. 15—A more encouraging aspect has been given the forest fire situation in the Westfield district where a week ago fifty houses were burned, by the showers and damp weather of yesterday, J. H. Brophy, chief fire warden, said this morning that since Friday about three hundred of the five hundred fire fighters had been allowed to go. The remaining two hundred, however, will be kept at the scene, beating out what is left of the fire.

HON. CHAS. DOHERTY PRAISES FRENCH MISSION.

London, Aug. 16.—(Canadian Press Cable.)—Reuter's correspondent in Paris says that Hon. Charles Doherty representing the Canadian government, has sent messages to General Fayolle and other members of the French mission which recently visited Canada remarking on the happy impression left in the dominion by the mission. Mr. Doherty adds in his message that the visit still further strengthened the bond of friendship between France, Canada and Great Britain.

BLUMFIELD MAY PLEAD INSANITY IN OREGON COURT

Recognises Sheriff But Now Claims to Be Russell, Not "Doctor."

Calgary, Aug. 15.—That Dr. R. M. Blumfield, accused murderer of Dennie Russell at Roseburg, Oregon, and arrested at a farm south of here last Friday, may possibly enter a plea of insanity when charged before the Oregon court, is evident from his condition here today. When examined by a local doctor and questioned by Sheriff Starmer of Douglas county, Oregon, who has arrived with Deputy Sheriff Webb to take the dentist back, the prisoner denied that he is Blumfield, claiming to be Dennis Russell.

Blumfield recognized the sheriff when he met him in the office of the chief of police. He addressed him as "Bill," but when the sheriff called him "Doctor" the prisoner appeared surprised, and told the officer he was not Dr. Blumfield but Dennis Russell. He said that the doctor was killed in the automobile accident on July 18. The two officers with their prisoner are leaving for the south tonight. Blumfield is in a very weak condition, having refused to eat since last Friday night.

SORE THROAT IS A COMMON AILMENT WHICH UNLESS CHECKED IN TIME MAY LEAD TO A SERIOUS CONDITION. SIMILARLY A COUGH OR COLD MAY DEVELOP AND REQUIRE SUSTAINED TREATMENT BEFORE IT IS OVERCOME BUT IF TREATED AT ONCE MUCH INCONVENIENCE AND SUFFERING MAY BE AVOIDED. AN OLD AND RELIABLE REMEDY IS FOUND IN

IF you have gone more than 1,000 miles without having your crank-case cleaned; chances are ten to one that your operating expenses are about twice what they should be. Very likely the snug-fitting and rapidly moving parts in your motor are burning and wearing themselves out at an alarmingly rapid rate, too.

Dirty oil, filled with grit, mineral particles and road dust cannot lubricate. Your crank-case should be thoroughly cleaned and refilled with fresh lubricating oil at least every 1,000 miles—more often if your car gets hard usage.

Imperial Polarine Crank-Case Service Dealers are particularly equipped to deliver 100% cleaning service. **Imperial Flushing Oil**, the scientific cleaning agent employed by them, gives unsurpassed results which are not possible with kerosene (coal oil) or similar things that are altogether unsuited for crank-case cleaning.

This is economy year. Clean oil and a clean engine will save you a lot of money. To-day: Drive 'round to one of the addresses listed at the left, or to any dealer who displays the Blue Imperial Crank-case Service Sign. Prompt reliable crank-case cleaning is assured.

MAROONS HIT JONES WITH MEN ON BASES AND DEFEAT ESKIMOS 8 TO 2 IN OPENER

Herma Robbed of Home Run by Sensational Running Catch by Melillo—Slaughter Held Eskimos to Four Hits While Jones Was Touched for Eleven Including a Home Run with Two Men on the Paths—Two More Games

WINNIPEG, Aug. 15.—(Special to The Bulletin).—Cy. Slaughter, the Winnipeg pitcher who has acquired a habit of beating the Eskimos, again performed that trick tonight when he held the visitors to four blows, the score being eight to two for the Maroons. Jones was hit hard and often, the batting feature of the game being a home run by Melillo in the seventh inning, with two men on bases. Throughout the game Jones was touched in the pinches which combined with a slight tendency toward wildness accounted for the bundle of Winnipeg runs.

In addition to scoring a home run, Melillo also supplied the fielding feature of the game when he made a sensational running catch of a long fly by Herman. The blow was a certain homer but for Melillo's wonderful catch.

BROKE RECORD ON DIRT TRACK BUT KILLED IN RACE

Within Half Hour After Doing Mile in 51 Seconds, Motorcyclist Dead

Toledo, O., Aug. 15—Less than half an hour after he had broken the world's dirt track motorcycle with side car record for one mile, covering the distance in 51 2-5 seconds, Albert Burns, 27, of Oakand, Calif., was fataly injured when in the first lap of a 25-mile race at the fair grounds here yesterday, a fellow rider crowded him forcing his machine to skid and crash through a fence. Burns' neck was broken and he died en route to a hospital.

Golf Tourney of Sask. Starts at Saskatoon With Hundred Entries

Saskatoon, Sask., Aug. 15.—With ideal weather conditions prevailing the 9th annual provincial golf tournament got under way over the 18-hole course of the City Golf Club this afternoon. Sixty local players and half a hundred stars from all parts of Saskatchewan as well as other provinces, are here for the tourney, which will last throughout the week. In this afternoon's qualifying round for the combined open and amateur championship, A. A. Weir, the provincial title holder, is playing B. M. Wakeling, local club president; Jackson Walton, Calgary city champion plays A. M. Stewart, Saskatoon; J. P. Runciman, Regina, runner-up in last year's tournament, meets W. Ritchie, Saskatoon, and H. A. Bruce, Saskatoon champion and former provincial title holder, is matched with J. D. Turnbull, Regina. The course is in splendid shape for the meet.

RIFLE SHOOT AT CONNAUGHT RANGE OPENS

Lieut.-Col. Bowen Scores Fourth in McDougall Match at Dominion Rifle Meet

OTTAWA, Aug. 15.—Sir Alexander Bertram, chairman of the executive committee of the Dominion of Canada Rifle Association, fired the first shot this morning and formally declared the shoot of the Association open. This also marked the opening of the New Connaught Range, one of the largest in the country, and which for the next five days will be the mecca for the rifle shots from all over the country. There are 465 entries for the various events, an increase of 200 over last year, when the meet was held at Rockcliffe.

The new ranges got a first class try-out in the variety of winds. The light was also variable and owing to this some of the best shots failed to make as good a showing as they otherwise might have.

In the MacDougall Challenge Cup, the major event of the day, the winner turned up in Major C. R. Crowe, of Guelph. Major Crowe put in 34 at 200 yards and 33 at 600, a total of 67, which, under the hard shooting conditions was a remarkably good score.

The Borden rapid fire competition which was to have been fiered today, was put off owing to lack of time.

Some Scores

In the Tyro match, at 500 yards, there was a full entry of 213. Corp. N. Penman, Canadian Grenadier Guards made the highest score with a total of 34. A Newell, Manitoba Regiment, scored 31.

Scores of westerners in the MacDougall match wege:

Major W. Pugh, R.C.H.A., 63.

Lt. A. Blackburn, Winnipeg Rifles, 62.

C. S. McNaughton, Royal Canadian Engineers, 61.

Lt. Col. P. Bowen, 19th Dragoons, 60.

Pte. W. Armitage, 10th Calgary, 60.

Lt. A. Martin, 10th, Calgary, 59.

Sgt. P. Lunn, 10th, Calgary, 58.

Lt. Col. W. Gibson P.P.C.L.I., 57.

Capt. R. Dowsie, 10th Calgary, 57.

Lt. C. Merritt, 10th, Calgary, 53.

NEW CHAMPION

REGINA, Aug. 15.—A new provincial champion was enthroned here today when Betz of Abbey defeated B. A. Goodman, of this city, in the final game of the singles championship in five sets. The play during the session was the best that has ever been seen in this city. Mrs. Gratton McCarthy won the ladies' championship singles.

Richard, Boy Wonder, in Action While He Was Defeating Champion Tilden

The greatest triumph of his brief but brilliant career, came to Vincent Richards, the nineteen-ear-old New York tennis wonder, when he defeated William T. Tilden 2d., national and international champion, in the final round of the Rhode Island State championship tournament at Providence. Tilden's defeat was a stunning surprise to the gallery. Richards out-played him at every angle of the game winding up with a love set and winning by a score of 6-2, 6-1, 6-0. Richards holds the junior national title.

QUAKERS PLAY BRILLIANTLY BEAT BRONKS

Beer Held Calgary to Three Hits While Saskatoon Bumped Thollander

SASKATOON, Aug. 15.—The Quakers played brilliant ball behind Sammy Beer tonight and this, coupled with the veteran's sterling pitching, gave them a five to one win over the Calgary Bronks in the first game of the series. Thollander was hit hard in the opening innings and the locals gathered at least one hit per inning off his delivery thereafter, but snappy fielding kept the locals from scoring after the second inning. Earl Scanlon of the Quakers hit a home run with none on in the second inning. The ball did not go out of the grounds and ordinarily would have been a two-base hit except for the speed the local third baseman made on the paths.

Calgary	000 000 100—1	3	1
Saskatoon	140 000 00x—5	13	1

Thollander and Sullivan, Beer and Bachant.

New Westminster Will Not Press Protest in Minto Cup Dispute

VANCOUVER, Aug. 15.—Manager Tom Gifford of the New Westminster Salmon Bellies announced tonight he would not press his protest against Saturday's game in the Minto Cup series lacrosse which Vancouver won 14 to 12.

Gifford said he thought it would be a "waste of time." Four games remain to be played in the series and the New Westminster team has a lead of two games. After Saturday's game, the Royals charged Referee Ion with partiality to the Vancouver team in the disposal of penalties.

PITTSBURG LOSES NEW YORK PROTEST

New York, Aug. 15th—The protest of the Pittsburg Nationals against a victory of the New York team on July 27 has been dismissed, it was announced today by John Heydler, president of the National league. An umpire's decision was protested. Mr. Heydler said that no appeal could be taken on an umpire's decision in matters of judgment.

MEAD PASSES RECORD MADE 35 YEARS AGO

Crowd of 20,000 Sees Afternoon Play to Test Cricket Match

LONDON, Aug. 15. — Playing the test match between the English and Australian cricket teams resumed this morning at Kennington Oval before a crowd of over 10,000. The weather was dull, but the pitch by the wicket was in excellent condition.

The batsmen were more confident today and scored at a good pace. Mead reached the century mark after 188 minutes of play. Today's scores up to lunch adjournment brings the total for Eniand up to 403 runs for five wickets.

Afternoon Play.

On the resumption of play the crowd increased to 20,000.

The runs continued to come at a good pace. Mead passed the previous highest test match score for an Englishman in England, that held by W. G. Grace, of 170, made in 1886. Mead gave an excellent display all around, his chief hits being 20 fours, four 3's and fourteen two's. He gave an easy chance of being caught out when at 75, to Mailey at third slip, and when at 104 he returned the ball very hard to Mailey, who split his finger trying to hold the catch. Tennyson declared the innings closed at 5.55 o'clock with Mead not out and having scored 182 runs.

Analysis afternoon scores:

Tennyson b Macdonald	51
Mead, not out	182
Fender c Armstrong b Macdonald	0
Hitch b McDonald	18
Douglas not out	21
Extras	3
Total (for eight wickets)	403

Bowling Analysis.

Gregory, one wicket 128 runs. McDonald, five wickets 143 runs. Mailey, one wicket 85 runs. Armstrong, no wickets 44 runs.

Australia Opens.

The Prince of Wales and the Duke of York saw the last ten minutes of England's innings. They stayed about 75 minutes and were given an enthusiastic reception and send-off. Collins and Bardsley opened Australia's innings. The latter made good leg strokes. Bardsley was dismissed at 33 and Collins at 54. Then the fine partnership of McCartney and Andrews added 108 before the former was dismissed. In the last over of the day McCartney hit nine fours.

Scores:

Collins hit wicket b Hitch	14
Bardsley b Hitch	22
McCartney b Douglas	61
Andrews not out	59
Extras	6
Total (for three wickets)	162

ESKIMOS HOME FOR SERIES ON FRIDAY NIGHT

Winnipeg Opens Final Round of Western Canada League in City This Week-end

The Eskimos will be home Friday to open a two-week's stay. Winnipeg will be the first visiting team. They play in Edmonton on Friday and twice on Saturday, then moving to Calgary. Saskatoon comes from Calgary for a four-game series starting Monday, August 22, and leaving for home on Friday 26, where they play Winnipeg. On the same day Calgary comes to Edmonton for a six-game series, finishing on August 31, the Eskimos then going to Bronkoville for a six-game series, to finish the season on Labor Day.

This week the Eskimos play the Maroons six games. The first three are in Winnipeg, starting yesterday and finishing Wednesday. The Maroons then come to Edmonton for three return games.

The games this week are among the most important of the season. If the Esks. can secure an even break on the six games they have a moderately fair chance of pulling up into a fight-in position. If they should do better than break even they have a chance for the pennant, for with a stay of thirteen games at home they should make a good showing, while Saskatoon and Winnipeg are battling through a prolonged series of 12 games.

REVILLON'S LINE-UP.

On Wednesday evening the Revillon and Calvin football teams play at the Ross Flats grounds starting at seven o'clock. The Revillon line-up will be as follows: Smith, Gibbons, Gibson, Walker, Chambers, Puper, Ball, Primrose, Stevens, Davis, S., Davis, G., Harper and Miller.

CARDIFF PLAYS LOCAL AMATEUR BALL TEAM FIRST GAMES TITLE SERIES WEDNESDAY AFTERNOON

Semi-Finals of Provincial Baseball Championship Series Starts with Two Games Wednesday Afternoon at Diamond Park—Return Games on Saturday at Morinville—Arrangements Completed for Play-off

On Wednesday afternoon and evening the first two games of the semi-final series for the provincial amateur baseball championship will be played at Diamond Park, the competing teams being the Edmonton amateur Eskimos and the Cardiff Miners.

Originally the draw called for the Edmonton team to play a double header with Cardiff at Morinville, the return double bill being scheduled for Edmonton the following Saturday. On account of the Gleichman crew of the Western Canada league returning to Edmonton for a lengthy stay, starting on Friday, Diamond Park will be in use by the professionals on Saturday, and consequently the amateur games have been switched.

The draw now is as follows:

Wednesday, August 17. — Cardiff vs Edmonton, at Diamond Park, 2.30 and 6 o'clock.

Saturday, Aug 20, Edmonton vs Cardiff, at Morinville, two games.

FINAL SERIES.

The winners of the four-game series between Cardiff and Edmonton enter the finals for the Alberta title against the winners of the play-off in southern Alberta. Calgary, Medicine Hat and Lethbridge are engaged in the struggle for the right to represent the artificial rain country, and a home-to-home series will be played to decide th championship.

Secretary Battrum, of the A.A.U. will be present to see that everything is conducted properly. He will arrive in town Wednesday morning and remain until the end of the week, going to Morinville for the games there.

While little is known in Edmonton about the Cardiff team, it is reputed to be exceptionally strong.

The Edmonton team is one of the best amateur agregations that has ever represented the city in a provincial championship baseball play-off. The pitching staff is going great guns, as witness their recent games with various outside teams. The infield is fast and reliable and good batters, while in the outfield there are fast runners and hard hitters. The games should be real contests.

SULLIVAN TO TRY TO SWIM CHANNEL LAST WEEK OF AUG.

BOULOGNE, Aug. 15.—Henry Sullivan, the Lowell, Mass., swimmer who has made several attempts to swim the the English channel and is now in France for another try at this feat, announced today that he would make the effort August 26, 27 or 28, according to the tide and wind. His start on the attempt to gain the British side of the channel will be made from Cape Gris Nez, southwest of Calais.

PITCHING ACE OF 1921 ESKIMOS GOING TO WORK

Leaves for California to Take Old Job as Foreman of Sugar Factory

Fred Fairbanks pitching ace of the 1921 Eskimos and great all around player, left Edmonton yesterday for his home in Bethraria, California, to take up his old position as foreman in a sugar factory. It is a hard blow to the now fast-travelling Esks, but it cannot be avoided, and the club could not possibly have it in their hearts to stand in the way of such a conscientious, faithful worker as Fairbanks was, though a championship hinges on the action.

This is Fairbanks' first season in organized baseball, not because he has not had many opportunities, but because he is a man of affairs, and has preferred to stick to business and his own hearth stone rather than commit himself to the uncertainties of a professional life in baseball. He came to Edmonton this year at the urgent solicitations of Manager Gleichman, only with the understanding that when activities in his own particular line of business opened up he was to return.

The last game that Fred pitched was at Saskatoon on Friday, and he made it a fitting culmination to his labors with the Eskimos by shutting out the crack Saskatoon Quakers by the score of seven to nothing. Incidentally this was Fairbanks' sixth consecutive win. His season's record has been 15 won and 8 lost; he has flung five shut-out contests. In addition he has filled in at centre field in many games with great distinction and batted around the .300 mark.

If Fairbanks did not have so much class about him on the flingers' mound he would have no difficulty in winning a regular berth either in the outfield or infield. He is the ideal type of athlete, always willing, always hustling, never complaining and never alibi-ing. His best is at the command of his manager at all times. Fleet of foot, Mr. aFirbanks and many games that we have lost has it been a pleasuse to recall the way that flying Fred ran everything out to first. It is a pleasure to see this man run even, perfect form and sprinter speed.

His departure knocks the greatest prop out from under the Eskimos' chances of landing the second half. The Esks have a great team now, but they need pitching. The entire infield and outfield is hitting at a .300 clip and fielding fine. Regina pitchers, Zweifel and Nofziger who accepted terms with the Esks have not reported but have tangled themselves up in a jackpot that will have to be straightened out by Secretary Farrell. They have apparently accepted terms with other clubs and have reported to them.

One consolation from Fairbanks' departure at this time is the assurrance that he gives that he will return next year with friend wife and family and settle down permanently in Edmonton, where he avers that he has been treated finely and is in love with the country and the people.

Reformers Try to Stop Wilson-Downey Bout

NEW YORK, Aug. 15—Johnny Wilson, of Boston, and Bryan Downey of Cleveland, will be unable to settle doubts as to the middleweight championship in Jersey City on Labor Day if reformers who tried in vain to prevent the Carpentier-Dempsey fight have their own way. The international reform bureau announced today that its officers would confer with its attorneys tomorrow to discuss measures to prevent the battle. The bureau has no objections to ordinary bouts, it announces, but will seek to prevent championship contests.

WEIR TURNS IN GOOD CARD AT GOLF TOURNEY

Does Saskatoon Course in 73, Lowering Amateur Record—Many Low Scores

SASKATOON, Aug. 15. — Playing superlative golf, A. A. Weir, 1920 provincial champion today lowered the Saskatoon City club course amateur record during the first round of the open championship, doing the 18 holes in 73, one stroke lower than the mark made by H. A. Bruce in the last championship event played in 1919. This mark is the best ever made by any amateur on the course since its inception and is only one stroke over par. The record for the course is 71, made by William Kinnear, the local professional some years ago, which record has stood for some time.

Numerous scores were turned in under 80, which over the local course is a good mark, as there are a number of long holes, on which a five is the least that can be made except by flukes and the general run of six holes here is six strokes.

Outsiders did well during the day, but local golfers are practically sure of having the greater representation in the first thirty-two players who qualify for the amateur championship. The showing of the professionals in today's round was disappointing, none of them turning in cards of less than 80, while one noted player was up in the 90's.

JOHNNY KARR WINS.

COLUMBUS, O., Aug. 15.—Johnny Karr, Cleveland welterweight, won the decision over Jack Perry, of Boston, in a 15-round bout here tonight.

White Star-Dominion Liners Regina and Doric to Sail Soon

Within the next six months, two new White Star Dominion Line steamers will be in commission between Canada and Liverpool. They will be the largest of their type making the port of Montreal during the open season of navigation. These vessels are the Regina and the Doric, sister ships in nearly every respect, being approximately 17,000 tons, built to carry about 600 cabin and 1,700 third class passengers. They will be equipped with all the latest contrivances which add to the comfort and luxurious surroundings of ocean travellers. Work on these steamers was held up for a time by labor troubles, but it is now proceeding, and the erection of the boat deck and the deck houses on the Regina is nearing completion. The builders, Messrs. Harland and Wolff, Limited, of Belfast, have been allowed full latitude in the construction of the Regina and the Doric, with the result that they will possess many unique features—in interior decoration they will be marvels of beauty. Entrance is through a white hall, reminiscent of the time of Indigo Jones, when the quaint fashion of the Elizabethan period gave place to the orderly classical conceptions which found expression in the work of Wren and Frining Gibbons. The only color here is supplied by the doors of teak and the floors of line tiles. On the landing of the grand staircase of the Regina there will be a large painting of the city for which the vessel is named. The dining saloons, which accommodate approximately 380 passengers at a sitting are decorated in white with panelling and open sideboards typically English in style. On the promenade deck is the reading and writing room, done in the motifs of Boucher and the Adams Brothers, and nearby the lounge, decorated in the same style. A children's playroom lies between the lounge and the reading room. The smoking room is panelled in French walnut in the style of Queen Anne, with stained glass windows and other details of beauty and comfort. Both the Regina and the Doris are equipped with up to date gymnasiums for the use of passengers. The Regina is a triple screw steamer with a combination of turbine and reciprocating engines and the Doric will be twin screw driven by turbine engines. It is expected that the former will be ready for service in February and the latter in March or April 1922.

PETTY THIEVING AT WAITING ROOMS TO BE HARSHLY HANDLED

Petty thieving has been going on, says Chief of Police A. G. Shute, from the premises of the street railway waiting room on the Bonnie Doon line at the corner of 91st street and Whyte avenue, and if it is not stopped he declares that someone is going to get caught and may be faced with a jail term. The matter has been complained of more than once but the persons affected by the thefts believing the culprits to belong to respectable families refrained from laying a charge. Prosecutions will now be proceeded with, says the chief, who has been consulted with and who will now push the question to the limit of the law.

Kobe, Aug. 15—Forty-five seamen are believed to have been drowned following the wreck of the freight steamer Shoshu Maru, which was disabled by a typhoon and battered to pieces on the rocks off the Loo Choo islands. Only one of the ship's personnel is known to have survived.

RHEUMATISM FOR OVER 16 YEARS

No Return of the Trouble Since Taking 'Fruit-a-tives'

103 Church St., Montreal.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good.

"Then I began to use 'Fruit-a-tives' and in 15 days the pain was easier and the Rheumatism much better. Gradually, 'Fruit-a-tives' overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

P. H. McHUGH.

50c a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Police Court

In the police court Monday morning Margaret Seeress when committed to stand her trial on the charge of unlawfully undertaking to tell fortunes discovered that the using of the gift that was given to her, the gift of vision, as she calls it, was not a profitable business in this city especially when her subjects are none other than Detective Mrs. Frygdal and Police Matron, "Sergt. Major," Mrs. Robinson. The accused was given preliminary hearing, sent up to the superior court for trial and was admitted to a bond of $1,000.

The two police women learning that the accused had come to town, and had started to practice "her profession," fortune telling and clairvoyance, proceeded to her apartments 10336 101st street and submitted themselves to be given a look into the present and the future and were amazed at the revelations which were contrary to all reason and the knowledge they had of their own lives.

The customary "fair man" and "dark man" were to come into the lives of both women and there were the usual tales of unhappiness with their present husbands or lovers as the case might be. There was the usual specter of death hanging over each life and the glint of joy, but they would live very happy ever afterwards.

The prophetess claimed that she had been doing an excellent business in this city and acknowledged to her two subjects during their readings that she was taking a chance but accepted from them $2 each for the services she had rendered. She claims to have given readings to some of the foremost society women of Edmonton and mentioned particularly a West End resident, the president of a well-known organization who had been greatly pleased with what she had been told.

The police women told the court that they had not been deceived nor mislead by what they had been told by the alleged seer or prophetess and the one thing that impressed the court was that the woman's clairvoyance did not enable her to see that her subjects were detectives or that a court trial was pending.

"Insomuch as you do it unto one of these you do it unto Me." The homeless children of Alberta without mother or father need your help. The Wood's Christian Homes, Olds, Alta.

New Silk Fringes

—Will be used for trimming purposes in many ways. In shades of navy, brown, taupe, copen, rose, pink, white, and black. From 1½ to 16 inches wide. Priced per yard from 35c to $2.50.

Initial Showing of Fall Modes

Just "Delightfully Different" Are the New Hats For Fall

Such a wealth of style and picturesque beauty presents itself in the early displays of Milady's New Fall Millinery that one hesitates even to try to describe them through the medium of a newspaper notice.

—Suffice it to say, we promise a real treat for the woman who will come and see these first new arrivals from the very heart of fashion's centre—New York.

—Here one sees the much-talked of cloche-capeline, as well as the popular poke models, trimmed with dashing bows so much in evidence in the new hats. Among the shades coppery tones are much in favor, as also is king's blue, nigger, mouse grey and black.

—A wealth of beauty indeed, in the advance fall models now on display.

JOHNSTONE WALKER
LIMITED
Cor. JASPER & 2nd ST.

Some Superb Creations For Fall

Which have just arrived, include:

Feather Hats, Toques, Small trimmed Sailors in taupe, mahogany, navy black and black and white.

—Also some charming models, tastefully designed and carefully made, in duvetyne. These in the large cloche shapes and smart pokes and toques in rich shades of brown, rust, taupe, grey and navy.

—And a great many other charming New Fall Hats in most wanted colors, styles and trimming development.

TUESDAY, AUGUST 16, 1921.

The Farmer-Labor Party

The U.F.A. party has thirty-eight elected members in a house of sixty-one. That is a majority of twenty-one over all; or of twenty after electing the speaker. There is no question that the party is strong enough in the legislature to give the province a truly farmers' government, no matter what opposition might be put up by other parties or groups in the legislature. In view of that fact, the inclusion of Hon. Mr. Ross, one of the two Calgary labor members (and one of the group of four labor members) in the cabinet as minister of public works has much more than ordinary significance.

The farmers' party in the Ontario legislature does not constitute a majority of the house. It was only by forming a coalition with the labor party that Premier Drury has been able to carry on the government of that province. The objects and interests of the farmer and the artisan, considered as such, are absolutely antagonistic. The farmer must work long hours; the artisan demands short hours. The farmer wants dear produce which he supplies, the artisan wants cheap produce which he consumes. The farmer is essentially a capitalist, while the artisan may be, theoretically, opposed to capitalism. The farmer must have labor at low wages or he cannot produce successfully. The artisan demands high wages or he won't produce at all. At every point, when considered, not as citizens, but as members of a class, the farmer and the artisan are at the opposite poles.

And yet in order to enjoy power in Ontario they entered into an alliance or coalition, the result of which has been to vastly increase both the expenditure and the debt of the province, while the special benefits to either farmer or artisan are yet to be demonstrated.

Electors both in Ontario and Alberta were urged to vote for the farmer candidate, because he was the farmer candidate; or for the labor candidate, for the same reason. Although in Alberta the farmer was successful he has not a farmers' government. He has a farmer-labor government here, where he elected the majority of members, as in Ontario where he only elected a minority.

Lacking the political necessity which existed in Ontario, the inclusion of a labor member in the U.F.A. cabinet can only mean that influences outside the province caused the selection to be made. It is a case of the "organization" at work. The organization whose dictation the elected U.F.A. members are pledged to obey. The inclusion of a labor member in any prospective farmers' cabinet was never any part of the U.F.A. campaign. It cannot in the nature of things be pleasing either to the farmer members or to those who elected them to support a farmers' government, and find the government they brought into existence to be not a farmers' but a farmer-labor government.

The inclusion of Mr. Ross in the Greenfield cabinet, under all the circumstances, can only mean that there is an active coalition between the dominion farmer and the dominion labor parties to capture the country at the next dominion election. The cabinet place given to Mr. Ross when he was not in a position to claim it, is offered as evidence that after the dominion election, no matter how strong the farmers' party may be, it will share the spoils of office with the labor party, in consideration of such assistance as that party can give during the elections. What Premier Drury did under stress of necessity in Ontario will be done freely in the dominion, and the Alberta cabinet is proof that it will be.

There has been frequent talk of a farmers' government in the dominion. That is not a possibility under conditions as they are. The farmers do not control enough seats, if they got all they do control, unless they could capture Quebec, which at present seems unlikely. But if the labor party captured a fair share of the cities and the farmers a like share of the rural constituencies, a combination of the two might very well control the house and the government, as in the case of Ontario.

The cities of Canada have generally gone Conservative for the past forty years. That was because Big Business controlled the labor vote. Big Business did not have the vote itself, but when labor voted as Big Business directed, there was "nothing to it." Can Big Business control the labor vote of the cities at the coming dominion election? The evidence to date seems to be in the negative. The Montreal Gazette in a recent review of the political situation, reached the conclusion that after the coming election there would be four parties in the house of commons: unionist, liberal, farmer, and labor, and none of them strong enough to control. The Gazette may have had in mind the possibility that the farmers' party under Crerar would come into the Conservative fold as the nationalist party of Quebec under Bourassa had done in 1911. Apparently it had not considered the probability of a coalition between farmer and labor. If it has not yet done so it is respectfully pointed to the minister of public works in the Alberta cabinet as exhibit A in the evidence of such a coalition.

The Treaty and After

Viscount Bryce has said it. He is a courageous man, but he holds so high a place among the world's thinkers that he may not be pilloried as some others have been for saying that the Versailles conference did not make the world safe for democracy; that, in fact, it sowed the seeds for future wars. He may even be allowed to go without castigation for saying that the participants at that gathering did not seem to have as clear a notion of what they were trying to do as the circumstances made desirable. Some other distinguished men have been venturing in the same direction of late, though the veteran seems to have blurted it out in a way they did not dare, and without any of the diplomatic suavity of which he is a master. Plainly it is becoming allowable to think that the gathering at Paris was an assemblage of finite beings. It may even be permissable to suggest that it included some eminent statesmen who were given to doing their thinking with their imaginations, and who deluded themselves into supposing that they could legislate eternal peace into a world filled with conflicting national ambitions and rankling racial antagonisms. At least it is admitted fairly generally that the milleneum has not come as per schedule, and that the League of Nations is mainly a vain hope and a bill of expense.

In mitigation let it be said that things were simply bound to turn out that way. There were peace conferences held in the world before, at which assembled men as sincerely desirous of making peace as those who gathered at Versailles, and quite as thoroughly familiar with the angles of the situation they had to deal with. But they did not abolish war, nor the cause of war. That the recent conference could succeed in that was beyond hope, save by those who can discover rainbows at midnight. Given Europe as it stood when the armistice was signed, or as it has stood at any time within the last two hundred years, it would be a safe conclusion that any body of men who sat down to so demark boundaries as to accommodate their conception of what the map should look like would create as many sores as they healed and leave as many points of friction as they eased. Where races are so intermingled by overlapping waves of immigration, there is a hopeless problem before the convention which seeks to set up line fences about which there can be no dispute. The "self-determination" that President Wilson talked about is not an imaginary thing. It is an impulse as old as the human race, and as inextinguishable as passion. And it makes Europe impossible as the field upon which to lay out a scheme of automatic, universally accepted and unbreakable peace. The League of Nations covenant was a direct negation of that world-old instinct. It pre-supposed that men were willing to forego the right to determine their own destinies and to place their fate in the custody of a super-authority so far removed that they could not get at it. To make matters worse, the President called upon the peoples of Europe to revive their sense of self-determination at the very moment he wanted them to surrender it to the League. Naturally they responded, and in proportion as they did so the authority of the League withered. What is mainly the matter with Europe today is that every fragment of what was once a nation or a race wants to "self-determine" its political status, regardless of inter-mixed elements of population, changed conditions, and exterior considerations of all kinds.

Toronto Heads In.

Toronto is getting into municipal operation of the street railway system. Though it has not yet taken over the system the city council and the newspapers are busy deciding what to do with the concern when it is added to the responsibilities of the civic authorities. One unpleasant suggestion is that the fares be raised from six-for-a-quarter to seven cents. Naturally it is not very popular. The Globe says the people of the city "have it in their minds" that they will not pay more than five cents to ride on the cars, and Mayor Church thinks it will be necessary to hold a plebiscite to find out if that is the case. Just what it has to do with the matter is not very clear from the standpoint of this city, which has had some experience in the street railway business. Here it has been found that people do not pay for their rides with what they have in their minds but with what they dig out of their pockets, and that it does not matter a bit in the financial outcome whether they think the fares higher than they ought to be. The elephant has to be fed whatever the price of hay, and it does not limit its consumption to suit the notions of the patrons as to how much it should eat at a bite. Toronto of course does not need advice from Edmonton or any other place, on street railway operation or any other branch of experimental socialism into which it may see fit to plunge. But at least the cities which have tried the thing may be allowed to watch its career with hope of gathering something useful. For a starter if Toronto can show us how to keep a street railway going with what the patrons "have it in their minds" to pay for riding, that will help a whole lot here and elsewhere.

ANSWERS

This department does not pretend to be infallible. It will endeavor, however, to answer questions sent to it by readers of The Bulletin to the best of its ability reserving the right to ignore all that are trifling or of concern only to the questioner.

To receive attention, every inquiry must bear the name and address of the questioner. This information is not wanted for publication, but as an evidence of good faith. Address your enquiries to Terchus, Editorial Dept. The Bulletin, Edmonton.

Is the marriage permissible between first cousins when both are decended from brothers?

There is no law against it.

What is the address of the Catholic World, edited in the States?

Catholic World, New York, circulation 50,000.

Of what nationality was the author H. C. Anderson?

He was born at Odense in Funen, Denmark, 1805.

What is the distance of the new branch line of the E.D. and B.C. railway northwest of Peace River?

When completed it will be about five miles.

Where could I obtain information in regard to small irrigation plants?

Write to Edgar S. Archibald, Department of Agriculture, Parliament Buildings, Ottawa.

I am anxious to ascertain whether or not a certain person has been naturalized. To whom should I apply?

Write to the court house of the district in which he resides.

Please tell me what nationality Queen Mary is, also how the family came to be Royalty any more than any other?

Queen Mary's father was the Duke of Wurtenburg, who ruled the principality of Teck. The mother was the Princess Mary of Cambridge. The other part of the question is the story and philosophy of human history.

If a person contracts for goods to be delivered on a certain date and the goods are not delivered on time, is the person bound to take them?

It depends largely upon your contract and the wording of it. Circumstances must also be taken into consideration. If the goods were guaranteed to be delivered on a certain date, you would not be bound to accept them should they not reach you on contract time.

ONE TIME PROMINENT LABOR LEADER IS DEAD.

London, Aug. 15—Announcement is made of the death of William Tyson Wilson, former member of parliament for the West Houghton division of Lancashire. He was born in 1855 and was for many years one of the most prominent leaders of the labor party, being named chief labor whip in January 1919.

Will you refuse help to boys and girls who have no mother? The Wood's Christian Home at Olds is giving these boys and girls a chance in life, but this wonderful work cannot continue without your help.

Current Comment

PART OF THE COST

The decline in British exports during the months directly affected by the coal strike—April, May and June—was £238,770,000, according to Lloyd's Bank.

HIS RECOMMENDATION

Toronto Telegram:

Meighen has a razor-edge intellect, and it is this razor-edge that the Government used to cut away Opposition barricades every time contentious legislation was introduced, such as closure or conscription. Whatever troubles Meighen may have to meet outside Parliament, he has nobody to fear on the floor of the House.

E. C. D. LEADS

OTTAWA, Aug. 11.—The quality of the butter submitted to date by the provincial creameries in the Dominion educational scoring contest, is better than in any previous year, according to the Dominion dairy commissioner, J. A. Ruddick. Edmonton City Dairy secured the highest score of any sample since the competition commenced in 1919, with 98 points for their July sample. The highest scoring sample for June was supplied by the Central Creameries, Calgary, with 97.5 points, and for May by the Shoal Lake Creamery of Manitoba with 97 points.

COSTS MUST COME DOWN

Toronto Mail and Empire:

According to estimates at the Ottawa building conference, Canada needs 158,000 dwellings, to provide ample housing accommodation. The cost of the buildings and public works needed is set at $780,000,000. In 1920 about 70,000 marriages occurred, and 11,117 houses were built. Our immigration exceeded emigration and no extra housing provision has been made for the newcomers. These figures serve to emphasize the acuteness of the housing problem. Even this year, when labor is relatively plentiful, and costs have descended considerably, building is not at all active, particularly that of small houses.

There are several factors against a revival of building. One is the high tax rate in most municipalities and the enormous local improvement costs. Another is the high cost of mortgage money. Another is the lack of capital that compels young couples to take an apartment or flat. They cannot afford to buy or rent, and furnish a whole house. The high cost of furnishings has been an important obstacle. Home-owning has become a costly business, almost as costly as renting a whole house.

A SIDE LIGHT ON POLAND.

New York Tribune:

Warsaw.—(By Mail.) — Fifteen thousand university students in the main educational centers of Warsaw, Lemberg, Crascow, Lubin, Posen, and Vilna are being fed one meal a day by the American Relief Administration of the European Children's Fund this summer. Warsaw has five kitchens devoted to serving food to 3,264 students, the other towns having smaller numbers.

The Polish Ministry of Approvisation has been assisting in this work, having furnished the American relief workers with 180,000 pounds of potatoes at 50 cents below market price. Government authorities of Posen made an out and out gift of 20,000 pounds of potatoes to be used locally in the students feeding.

The students benefiting by this special provision of the A. R. A. are all over seventeen years old, the students paying the nominal price of ten marks a meal to assist in covering the rents, service and supplementary foodstuffs purchased locally. At the present rate of exchange ten marks is about one-half of an American cent in value.

In addition to this task the A.R.A. is feeding more than 1,300,000 children in Poland up to the age of seventeen years.

U.S. COAL PRICES DOWN.

Toronto Mail and Empire:

One of the New York coal companies has made a comparison of spot prices, f.o.b. mines, now, and a year ago, and it shows that primary prices have come down.

Bituminous.	Today.	Y'r ago
Pool 1	$2.85	$13.00
Pool 2	2.45	12.75
Pool 10	2.10	12.00
Pool 11	1.95	11.50
Pool 18	1.65	9.50
Pool 71	2.45	12.75
Anthracite (independent).		
Egg	8.25	10.35
Stove	8.40	12.50
Nut	8.00	10.50
Pea	5.26	7.75
Buckwheat No. 1	3.25	5.50

When the freight rate increases were authorised last Autumn, coal was one of the commodities excepted. The rate is not substantially different from what it was a year ago, and the difference in mine price should be reflected in the delivery price here. Bituminous coal was $15 a ton here for a time, and many selling prices, as in tile and other clay products, were raised to that basis. But bituminous coal is now relatively cheap. The anthracite prices have not shown much change in reality, because the independent prices were much above the line company prices.

A HOPE OF BUSINESS REVIVAL.

New York Tribune:

Many manufacturers still complain that buying is of the hand-to-mouth variety—that the retailer will buy only what will move over his counter with celerity. So the wholesaler has to operate in the same way, and the manufacturer worries.

There is nothing surprising about this if we recall what happened only a little more than a year ago. Then there were acute market shortages of goods. The wholesaler took what the manufacturer would give him—on the manufacturer's terms. The retailer was in the same position with the wholesaler. It had been going on for months and months and seemingly would never end. So, believing that every branch of business bought extravagantly at high prices and was able to sell only sparingly at higher prices still. All the time that there were acut market shortages of goods there were great speculative surpluses held off the markets just because prices were rising.

Then things turned. Prices fell a little and part of the speculative accumulations came on the market. Prices fell a little more—and then all at once everybody wanted to sell. With the vanishing or restriction of the markets for goods, production inevitably fell and there were unemployment and depression.

But mark this—all the time that this depression has been under way the consumption of goods has outrun the production of goods. That is, the speculative surpluses accumulated during the fantastic post-war inflation have been steadily drawn upon to make up the difference between output and consumption. And there is much evidence now to show that these surpluses are approaching a state of exhaustion. Presently consumption will have to be filled out of current production, rather than out of the production of a previous period. That means that business revival is not far distant.

ORIGIN OF GOODS ENTERING CANADA MUST BE PRINTED

New Customs Regulations Governing Imports Will Be Issued Shortly

Ottawa, Aug. 15.—(Canadian Press)—An official announcement regarding the date of effectiveness of the customs regulations requiring that all imported goods shall be "plainly marked with the name of the country of origin" is expected within a few days. The matter is now before the government as the result of a conference between Hon. R. W. Wigmore, minister of customs, and committees from the boards of trade of Ottawa, Montreal and Toronto on Monday of last week. At that conference a draft of the regulations was placed before the importers and these were accepted as satisfactory in all but one or two instances. One of the objections voiced was regarding the amended regulations coming into effect on October 1, as provided by the act of parliament of this year. The importers took the ground that as many fall goods had already been ordered and indeed boxed preparatory to shipment it would be hard for shippers to unpack these in order to mark them. They asked, therefore, that the regulations be deferred in their operation until January 1. This matter is now before the government and it has been intimated that the date of operation may be deferred by order-in-council. However, no official statement in that regard is yet available.

In Legible Lettering.

The regulations governing the importation of goods have been issued to collectors of customs and excise and others concerned by the department. These provide that all goods imported into Canada which are capable of being marked, stamped, branded or labelled without injury, shall be marked, stamped, branded or labelled in legible French or English words in a conspicuous place that shall not be covered or obscured by any subsequent attachments or arrangements, so as to indicate the country of origin. Said marking, stamping, branding or labelling shall be as nearly indelible and permanent as the nature of the goods will permit.

Goods imported into Canada after the coming into force of the regulations which are not marked in keeping with the requirements of the act and regulations will be subject to an additional duty of ten per cent. and in addition "such goods shall not be released from customs possession until they have been so marked," under customs supervision at the expense of the importer.

The penalties for violation of any of the provisions of the regulations is a fine not exceeding $1,000 or imprisonment for one year or both fine and imprisonment.

The law, it is pointed out, applies to goods made in Great Britain or any British possession as well as all foreign countries.

The country of origin is stated to be in the case of a manufactured article the country where the article is finished by not less than 25 per cent. of the labor involved. Goods entered for immediate exportation or in transit through Canada will not require to be marked. Goods which are not marked by the importer when called upon to do so may be exported or seized by the collector and treated as unclaimed goods.

The only exception to the regulations are raw materials or goods which are partly made and to be finished in Canada, on which there will be at least 25 per cent. of the work done in Canada.

O. S. FINNIE RETURNING

O. S. Finnie, acting secretary for the North West Territories, who has been in the neighborhood of Fort Smith and Fort Norman and other northern points during the past few weeks superintending the installation of land recording offices, is expected to return to Edmonton toward the end of next month, according to word received at the local land office.

Stomach Treatment Futile For Catarrhal Trouble

Impossible to properly treat Catarrh in the nose or throat by dosing the stomach. To rid the system of Catarrh, send the healing vapor of **Catarrhozone** after the germs, and you accomplish real results. When you inhale the rich piney essence of Catarrhozone and get its healing balsams circulating all through the breathing organs, the cough is eased, sneezing stops, the nostrils are cleared, the throat is healed and freed from discharge. If you want permanent relief from Catarrh, irritable throat, Bronchitis, use Catarrhozone several times every day. Safe and sure. Two months' treatment one dollar; small size 50c; all dealers, or The Catarrhozone Co., Montreal.

DELICIOUS AND REFRESHING

"SALADA"
TEA

Is always fresh and possesses that unique flavour of 'goodness' that has justly made it famous.

HAVE LIVESTOCK SECTION OF THE BOARD OF TRADE

Officers for Branch Elected With D. B. Mullen President—Want Markets

A meeting of members of the Edmonton Board of Trade interested in the livestock industry was held Saturday afternoon at the local stock yards for the purpose of completing the organization of a livestock section of the Edmonton Bord of Trade and Chamber of Commerce.

J. L. Juhlin, manager of the Edmonton stock yards, was in the chair and the following officers were elected: President, D. B. Mullen; vice president, Thomas Hull; secretary-treasurer, A. W. Burrell; chairman of the membership committee, J. L. Juhlin. These officers will serve until the end of September, the conclusion of the board of trade year.

Considerable discussion arose over the present condition of the industry in the West and it was agreed that everything possible should be done by the section to open up new markets for Western Canadian cattle as well as to urge the finishing of cattle in Alberta, rather than to ship stockers and feeders to England and other countries at prices under the cost of production.

H. B. Kennedy of Winnipeg was present at the meeting and evidenced a great deal of interest in the formation of the section and the resultant discussion.

Twenty-two members are already signed up for membership, and J. L. Juhlin, chairman of the membership committee, is of the opinion that at least fifty members will be secured.

CANADIAN NATIONAL RAILWAYS
(Western Lines)

TENDERS FOR TIES

Sealed tenders addressed to the undersigned and endorsed "Tender for Ties" will be received at this office until twelve o'clock noon, Saturday, 17th day of September, 1921, for 2,500,000 railway ties to be manufactured between October, 1921, and May, 1922, and be delivered between December 1st, 1921, and September 30th, 1922, on Canadian National lines between Vancouver and Port Arthur, and between Prince Rupert and Armstrong, in accordance with Tie Specification No. 2856, dated March 18th, 1919.

Tender forms and specifications can be obtained at the office of the General Tie Agent, room 231, New Union Station, Toronto. F. W. Tisdale, purchasing agent, Winnipeg, or C. C. Labrie, purchasing agent, Vancouver.

Tenders will not be considered unless made on forms supplied by the railway.

No tender for quantities less than 10,000 ties will be considered.

The lowest or any tender not necessarily accepted.

Special arrangements will be made to purchase ties fully up to specification, manufactured and delivered by actual settlers from their own lands.

W. H. GRANT
General Tie Agent, Canadian National Railways, Toronto, Ontario.
1498-A30
Toronto, July 29th, 1921.

Trapped in Iron Tank With Turpentine Pitch Flaming on Clothing

Toronto, Aug 15.—Trapped in an iron water tank with his clothes covered with a flaming mixture of turpentine and pitch, Levi Grove, a farmer of Claremont, was saved from a ghastly death by the quick action of his hired man.

Grove had gone into the tank to paint the interior with the mixture of pitch and turpentine. A lantern was knocked down and set fire to the mixture. The hired man who was working in the barn, heard Grove shout for help and pulled him out through a small manhole. In a few minutes the flames were extinguished. Grove will recover.

Our children are the Dominion's greatest asset. The Wood's Christian Homes at Olds, Alberta, give a home to Alberta's motherless and fatherless waifs.

New Canadian Industry

INTERNATIONAL HARVESTER COMPANY TO BUILD MOTOR TRUCKS AT CHATHAM

Announcement is made at Hamilton, Ontario, by the International Harvester Company of Canada, Limited, that their Chatham works is being equipped to take over the manufacture of International motor trucks. The first size to go into immediate production will be their model "S" Speed Truck.

These well-known trucks have heretofore been made in the States and shipped into the Dominion, but the volume of business has grown in such rapidly increasing proportions that wise business judgment dictated some centrally located Canadian city. Chatham, Ontario, was selected because it is the home of the large wagon and sleigh factory of the Harvester Company, where McCormick, Deering and Chatham wagons and sleighs have been built for many years; therefore, it was felt by the officers of the Company that Chatham presented the ideal location for this addition to the Canadian product.

The manufacturing experience of the Harvester Company is such that every confidence can be imposed in its ability to build a substantial product. The Harvester and Plow factories have been located at Hamilton for the past 18 years, and comprise the largest agricultural works in the British Empire.

In an interview with V. A. Porter, Manager Sales Department, at Edmonton, Mr. Porter said: "We have long felt the necessity for establishing our own Canadian motor truck factory to supply the ever increasing demand for Internationals. From the standpoint of speedy service alone, the new factory is a necessity. Chatham has been selected because we feel that in addition to its natural facilities for shipping both in and out, the fact that it is already the home of our wagon works will facilitate our arrangements and enable us to begin building Canadian made International motor trucks in the shortest possible time."

EDMONTON

ACT NOW

THE TIME TO ACT IS NOW. Never before in the history of Edmonton have there been such opportunities for constructive work as right now. In the next year fortunes will be made by bringing businesses that are now more or less stagnant up to their possibilities of activity and profit.

I am building an institution which, more than any other, will have to do with the constructive activities in Edmonton. This is because we are alone in the field. And I need men of courage and capability. As the result of my announcement Monday morning we booked one new client and registered one new co-worker. But we will need more of both—particularly of co-workers. I want a man who can qualify thus:

1. Decision;
2. Capability for Results;
3. Readiness to become a part of our institution— The Alberta Organization and Development Company.

If you can thus qualify—mean business—and are ready for action—see me Tuesday morning.

Work of Dept. of Education Last Year Along Progressive Lines; Advance Policies Carried Out

Annual Report to Lieutenant Governor Submitted By Hon. Geo. P. Smith—Encouragement to Educational Work in Rural Districts Outstanding Feature of Year's Program.

The following report of the department of education for the province was recently submitted to the Lieutant-Governor by Hon. Geo. P. Smith, ex-minister of education. This summary covers the year 1920 and is a clear though necessarily brief survey of the splendid progress made by the department under the supervision of Hon. Mr. Smith during the last year.

The report to His Honor Dr. Brett is as follows:—

Sir—I have the honor to present the report of the Department of Education, for the year 1920.

The time has now arrived when we can judge with confidence the value of certain new policies which have been initiated during the past couple of years. These policies have had to do with several matters of fundamental importance, such as the improvement in standards of qualifications of teachers; the increase in the supply of teachers; the introduction of new types of school organization for rural districts; provision for high-school opportunity for rural children; special efforts amongst the non-English speaking people, and other matters of equal importance. The carrying out of these policies involved the erection of new buildings and the providing of additional accommodation in many ways. The extraordinary cost of labor and materials has made the effort a very trying one, but in spite of unfavorable conditions substantial progrear has been made and the new policies can now be said to be firmly established.

Qualifications of Teachers

The training of teachers for Third-class certificates has definitely been abondondd in Alberta. The Normal school course is now the full academic year. No student can enter upon the training course with lower than Grade XI High school standing. To make possible this stanard it was necessar, to advance government loans to cover the cost of Normal school training. By this means desired result was attained at the same time the number of permits in use in the province was reduced to about one-third of the number issued in preceding years.

The improved training afforded our teachers remaining longer in the profession, and the effect will be benifical, both to the teaching body and schools.

Supply of Teachers

The crisis in the shortage of teachers appears to have been definitely passed. A few years ago the shortage approximated fifteen or sixteen hundred. At the close of the past school year the 4300 school rooms of the Province were all supplied with teachers and the number of permits issued during the whole six months period from January first to June thirthieth was 304. This puts Alberta on an enviable basis.

Futher prospects are bright for the further improvement in our supply of teachers. The tide has turned and many are returning to the profession. The enrolment at the Normal Schools for 1921 promises to surpass all previous records.

High School for Rural Districts

A vigorous effort has been made to overcome the handicap of rural children, in the matter of advanced training. By the elimination of fees for non-resident children attending existing high-schools and by very generous grants to the senior rooms of two-room schools and consolidated schools, much has been done in this direction. The substantial increase in the number of classes organized and in the number of students offering for the various departmental examinations is gratifying evidence that these policeg are bearing fruit.

New Types of Organization

Careful atention is still being [illegible] to consolidated schools and an effort is being made to secure from them the maximum of results by encouraging High-school work in the senior doms.

The two-room-school policy for congested districts has also proven popular, and 60 of these schools have been established in the past two years. They have solved difficult problems that could not have been solved in any other way.

Evidence is not wanting that still further modifications of the traditional organization must be made if all the varying situations in this province are to be met. Diversity of occupation and of living conditions demands great flexibility in our school organisation. Plans are now complete for providing for rural high-schools, or "Secondary Consolidations" as they will be called, and this policy is being received with enthusiastic approval.

Much consideration has also been given to the matter of creating Municipal School Boards to administer the affairs of all the schools within a rural municipality. A decision with regard to this matter has been deferred, however, until means have been found to overcome some of the difficulties connected therewith.

Teachers' Residence

The new policy with regard to building homes for teachers has been well received throughout the Province. During the past two years nearly 60 of these homes have been built, and in most cases they are proving of great value. They are encouraging married men to remain in the teaching profession; they are a splendid agent in holding the teacher in the same school from year to year, and they insure in almost all cases, the continuous operation of schools that formerly operated for perhaps only a few sumer months.

School Inspection

The increase in the number of school inspectors and the complete reorganization of their work have greatly improved the type of inspection service being rendered. During the past year, for the first time in this Province, it has been possible to inspect practically every school and the vast majority of schools were given two inspections within the year. Both school-boards and teachers appreciate the work of the inspectors, and the efficient functioning of the Department has been greatly promoted by the changes in this branch.

Revised Course of Studies

During the year of 1920 complete plans were devised for securing a thorough revision of the Course of Studies for the elementary schools. The Department took unusual percautions to ascertain the views of all classes of people throughout the Province. The co-operation on the part of various organizations and public bodies was most gratifying and the new course will be a practical expression of the demands of the time.

A new course in "Citizenship" will be a special feature of the curricium. It will include divisions dealing with history, civics deportment and morals, and should fill a real nned in our schools.

Work in Non-English Communities

A great advance has been made in the past few years in non-English speaking districts. The two-room schools and the teachers' homes have been particularly acceptable in localities of this kind. At the Summer school, special training courses have been given for teachers who would under take this work. There has been a spirit of co-operation evident throughout the non-English speaking settlements that has been most encouraging and work of real value has been accomplished. It has been a great satisfaction to share in any degree in this work.

The reports of the various officials and heads of branches and institutions are appended hereto, as well as reports regarding school libraries, the care of mental defectives, the education of the deaf, dumb and blind of the Province, and various other activities of the Department.

I have the honor to be, Sir,
Your obedient Servant,
GEO. P. SMITH,
Minister of Education

NEXT WEEK WILL SEE HARVEST-ON WAY OVER NORTH

Grande Prairie and Peace River Report Conditions Perfect In Last Week

Within the next six days cutting will be general throughout the Peace River and Grand Prairie districts and farmers in practically every section of the country will commence the harvesting of one of the best crops in the history of the north.

All crops are in excellent condition; the weather for the past week has been favorable with plenty of sunshine and an occasional warm shower. No damage from frost is reported and labor help, according to present indications will be adequate.

Cutting commenced Monday at Bon Accord from which district the wheat yield is expected to approximate from between thirty-five and forty bushels to the acre; barley will yield about forty-five bushels and oats from sixty to sixty five.

The wheat around the Bon Accord district looks exceptionally well at this time and on new breaking is expected to yield as high as fifty bushels to the acre; barley will yield about forty-five bushels and oats from sixty to sixty-five.

The wheat around the Bon Accord district looks exceptionally well at this time and on new breaking is expected to yield as high as fifty bushels of wheat to the acre. The following is the report prepared by the E.B. & B.C. railway company:

Crop Summary.

Grande Prairie—All crops in excellent shape and farmers all getting ready for harvesting which should be general in about six days.

Clairmont — Crop conditions continue favorable. Weather past week fine and warm with local showers. Grain ripening fast. Some barley now cut. Wheat cutting should start next week.

Sexsmith—All crops in excellent condition and ripening fast. Barley cutting reported. Harvesting will be general in about ten days.

Spirit River—Crop conditions continue favorable. Weather past week fine and warm with local showers. Grain ripening fast. Little barley now cut. Wheat cutting start latter part of next week.

Smoky—Crops in excellent condition. Wheat cutting expected general next week.

Peace River—Crop conditions continue good. Few farmers have started cutting early wheat. Cutting expected general next week. No frost.

McLennan—Weather past week has been wet and cold. No damage to grain reported. Haying delayed on account of wet weather."

High Prairie—Grain all in excellent condition and bumper crop reported. Cutting general August 10th."

Kinuso—Crop conditions still excellent. No damage from any source.

Westlock—Crops in this district could not be beter. Rains past week have added greatly to yield. Some fields about ready to cut."

Morinville—Crops beginning to show signs of ripening. Ten days warm weather would enable farmers to start cutting.

Lac la Biche—Weather much improved and grains maturing well. Cutting should begin in about ten days, with prospects of an appreciable increase over last year.

Bon Accord—Heavy rains on Aug. 8th and 9th. Cutting begins on the 15th. Wheat is expected to yield 35 to 40 bushels per acre. Barley about 45 bushels and oats 60 to 65 bushels per acre. The wheat around this district looks exceptionally good where sown on new breaking, is expected to yield from 45 to 50 bushels per acre. No lack of harvest help is reported to date.

SOUTH ALBERTA WHEAT GRADING HIGH

Albertan:

New wheat in southern Alberta is grading much better in quality than was at first expected, according to George Hill, dominion government grain inspector here. Mr. Hill stated to the Albertan yesterday that the samples he had received to date were of good quality, and would grade up in the No. 1 northern class. He stated that he had been surprised at the manner in which the grain seems to be grading up.

Samples were received yesterday by Mr. Hill from Wilson Siding, just south of Lethbridge, and the inspector stated that these samples were very fine.

Other samples, he stated, had been received from the vicinity of Nobleford, Taber and other southern points, and had been equally fine.

NEW REPUBLIC FORMED

Belgrade, August 15.—Magyar and Jugo-Slav elements in southwestern Hungary held a monster meeting at Funfkirchen (Pecs), a hundred miles southwest of Budapest, last night, and it is reported here that the republic of Baranya (the name of the province of which Pecs is the capital) has been proclaimed with the presidency offered to Count Karolyi.

Will you respond to the appeal of the Motherless Boys and Girls of Alberta? The Wood's Christian Home must have your help to continue this work.

THEATRES

Orpheum

DIVERSITY OF ACTS IN ORPHEUM'S OPENING BILL

Diversity of interest will stamp the bill at the Orpheum next Monday when the theatre will be re-opened for the new vaudeville season. At the head of affairs will be two well-known players, Franics X Bushman and Beverley Bayne, whose reputation for sterling dramatic work is known all over the English-speaking world. But popular as these artists will be with Edmonton audiences they will not be responsible for all the attractions on the opening programme. Genial, jolly George Watts and Bella Hawley will be there with their amusing offering of "Laughs Coated with Melodies." Chick York and Rose King will present an entertaining skit, "The Old Family Tin-Types," a skit that should provoke plenty of refreshing laughter.

Art. Henry and Leach Moore will appear in "Escorts Supplied," an amusing trifle about chaperons and the methods they pursue to keep irrepressible youngsters from upsetting the social applecart. Barbette, the popular slack wire artist will be another feature. Someting quite unique and novel will be contributed by the Clifford Wayne trio, full-blooded Indians, who will present their son, the world's Indian prodigy. Galetti's simion comedians will complete the bill.

PRODUCTIONS AT CITY THEATRES FOR TODAY

SCREEN

ALLEN
Special Sidney A. Franklin production, "Courage," featuring Naomi Childers and Sam de Grasse.

MONARCH
Rex Beach's production. "The North Wind's Malice."

STRAND.
Frank Mayo in "The Blazing Trail."

RIALTO
George Walsh in "From Now On."

REGENT
Gladys Walton in "The Man Tamer."

NEW EMPIRE.
Mary Pickford in "Through the back door."

FILMLAND

Allen

"Courage," well named, well acted and well directed, is a photoplay of compelling interest and fine ideals. It has a fascinating plot which deals with the imprisonment of an innocent man for a crime he did not commit and whose plucky wife manages a great industry through the directions he secretly gives her from his cell bars. It is a great story of a stedfast love, of tragedy, pathos, happiness—and courage, which is the big dominating theme. And the photography of this production, which opened an engagement at the Allen theatre yesterday, is superb.

The photoplay is adapted from Andrew Soutar's story of the same name, with Naomi Childers, a beautiful and charming actress, in the leading feminine role, and Sam de Grasse as her leading man. Others in the cast of this First National attraction which was directed by Sidney Franklin, are Lionel Belmore, Adolph Menjou, Lloyd Whitlock, Alec B. Francis, Ray Howard, Gloria Hope and Charles Hill Mailes.

Strand

Owing to the new arrangements the "Breath of the Gods" will not be shown at the Strand theatre the first half of the weeks, but will be replaced by a thrilling story "The Blazing Limb," a Blue Ridge mountains story featuring Frank Mayo.

Rialto

Even the most ardent admirers of George Walsh were surprised at the opening of "From Now On," at the Rialto theatre Monday, where it started a three-days' engagement. Walsh met unusual tests of his ability in this picture, and came through them with flying colors.

"From Now On" is a new type of vehicle, and possesses a greater dramatic force than anything he has done heretofore. The picture gives a marvellous picture of a darkened life of a half-world suddenly aglow with the redeeming love of a girl. The story was written by Frank L. Packard, who was responsible for "The Miracle Man," one of the most successful motion pictures of recent years. "The Miracle Man" has played in Edmonton, and the thousands who saw it knew the power of Packard's pen. Other Packard successes are "The Beloved Traitor," "The Sin That Was His" and "Greater Love Hath No Man."

Fox screen news plays an important part on the Rialto screen this week, one of its big features being pictures of sheep rearing in Alberta. It shows the sheep on the ranches, being herded for shearing, close-ups of the shearing operations, and the release of th little "critters" to gambol over the fields again and grow a new crop of woollen clothes. A comedy rounds out the program.

Regent

"The Man Tamer," Gladys Walton's latest Universal photodrama, received its local premier at the Regent theatre last night, and fully met the expectations of playgoers who remembered her success in "Pink Tights."

The story itself provided crisp and sparkling entertainment. It concerns a circus girl who attempts to run an animal act in a circus, when her father suddenly dies, leaving her alone to battle with the world. She turns from lion taming to man taming, and subdues a young and dissolute millionaire who wants to marry her. How she makes him prove his worth gives the story its concluding wallop.

"The Man Tamer" was written as a "Red Book Magazine" feature by John Barton Oxford, adapted to the screen by A. P. Younger and Harry B. Harris directed it.

Roscoe Karns appears opposite Miss Walton, while Rex Rosselli, C. B. Murphy, C. Norman Hammond, Parker J. McConnell and William Welsh all have important roles.

Monarch

STORY OF ADVENTURE

When Rex Beach was prospecting for gold in the Klondike quite a few years ago he returned without so much as a grain of the precious metal. But he found something more to be treasured. He struck a mine of liberature which has wielded the public a rich trove of stories. One of the greatest motion pictures that ever came from Rex Beach's pen is "The North Wind's Malice," a story of the romantic days of the Yukon gold rush, which will be shown at the Monarch today and Wednesday.

The theme of "The North Wind's Malice" is distinctly unusual. Mr. Beach tells of the dread winters of Upper Alaska which descends upon the country like an evening spirit, shrouding the land in its freezing pall. The furious cold shuts men and women up tight in their cabins and grinds into their minds a terrible despair, the grim spectre of monotony. In this atmosphere trival incidents are exaggerated beyond their importance and rage springs up on the slightest pretext.

This is the thrilling background for the wonderful story told in "The North Wind's Malice," a story of love adventure, furious revenge and golden romance.

New Empire

PICKFORD'S GREAT CHARM WINS MANY FRIENDS

Her Last Production Carries Her Audience Away As If By A Storm

Mary Pickford, the eternal little girl, is with us once more in her grand new United Artists production, "Through the Back Door," which opened yesterday for a weeks run at the New Empire theatre.

With all her cutness, all her winsome and whimsical charm, Little Mary is shown depiciting one of her famous child roles, the one characterlation in which she will always reign supreme. Even more youthful and beautiful than ever is Mary Pickford in this picture. Her interpretation of the little girl part is more genuine and more convincing than anything she has ever done in the past. In the beginning of this feature she appears in rags, and in "glad-rags" at the finish. Clad in wooden shoes and in the picturesque costume of a little Belgian miss, she clatters across the aluminum sheet straight to the hearts of those who watch her from the darkened depths of the seat-filled house.

In spite of the fact that one laughs much of this picture, there comes times when handkerchief is not amiss. Especially is this true when Mary is Little Jeanne Bodamere comes to America to make herself known to the mother who thinks her dead. Many are the obstacles that she surmounts before the mother finally learns that her little daughter is a servant in her own home. The scene that reveals this is undoubtedly one of the most touching that has ever been filmed.

The opening title tells us that scenario for "Through the Back Door" was written by Marion Fairfax, and that Jack Pickford and Alfred E. Green co-directed it while Charles Rosher did the camera work which by the way deserves special mention all to itself.

In the cast we find such familiar names as Wilfred Lucas, Gertrude Astor, Elinor Fair, Adolphe Menjou, John Harron, brother of the late Robert Harron and tiny Jeannie Carpenter. All of these give excellent portrayals in their respective parts.

THE SECRETS OF THE MOVIES REVEALED

Q.—What famous director is soon to marry a film star whom he picked out of a group of extras several years ago and made a leading woman?

A. — Rex Ingram, the handsome young Irish director, and Alice Terry, the blonde-haired Venus of "The Four Horsemen of the Apocalypse," are the principals in the latest studio romance. Ingram first saw Miss Terry among the extras at a studio in Hollywood several years ago. He was so impressed with her beauty that he immediately gave her a leading role in "Hearts are Trumps." Ingram was born in Dublin, Ireland, and was educated at Trinity College, Dublin, and at Yale. Miss Terry is four years younger than Ingram, having been born in Nashville, Texas, in 1896. She is five feet one inch tall, weighs 115 pounds, has a very fair complexion with blonde hair and grey eyes.

Q. — How many of the Pickford's are now engaged in making pictures?

A.—For the first time in several years all three of the Pickford's—Mary, Jack and Lottie are busy in the studios. Mary is finishing "Little Lord Fauntleroy," Jack is making a picture called "A Tailor-made Man," and Lottie is appearing in a Pathe production entitled "She Must Pay."

Q.—What is the title of Wally Reid's next picture?

A.—Wally's next picture on which he has just started work is called "Rainbow's End." Gloria Swanson and Elliott Dexter are appearing with him.

Q.—How long have Tom Moore and Renee Adoree been married?

A.—They were married on February 14, 1921.

Q.—What is Viola Dana's real name?

A.—Viola's real name is Violet Flugrath. She is with Metro in Hollywood, and is now 22 years old.

What well-known movie star recently gave up a chance to earn $104.000 a year in order to play a star role in the kitchen, and really keep house for her husband. Would you give up $2,000 a week for a home. Read this department tomorrow and we will tell you the romantic story of the girl who did. Questions of any nature about the movies will be gladly answered by the Movie Secrets Editor if you will address him, giving your name and address.

—(Copyright, 1921—Thompson Feature Service).

Toronto, Aug. 15.—Failures in Canada for the week ending August 13 totalled 36, according to reports furnished by R. G. Dun and company. There were 19 in Quebec, 9 in Ontario, 5 in Saskatchewan, 1 in Alberta, and 2 in New Brunswick. The total for the corresponding week of last year was 14.

NEW EQUIPMENT ON WATERWAYS IS NOW IN USE

Improved Service To Comprise Combined Buffet And Sleeper — New Coaches

Monday's northern train over the Waterways line betokens the era of a new and improved service for those who travel via the Government railway to the north, four new cars having been put into service this morning. These consist of a combined buffet and sleeper, and three new day coaches. Each of the latter accommodate 62 passengers, while the entire train can take care of 200 passengers, after the mode of the transcontinental lines.

In the buffet car there are tables which will seat 12 persons at a time, but if crowded this accommodation can be doubled, and should circumstances warrant, the whole coach can be readily converted into a diner, which the officials of the road state will be done when the traffic increases.

At present, the employes of the diner consist of a cook and porter who also combines the duty of waiter, while the catering will be done by the company, instead of letting the work out to a contractor, as it is felt that better service can be secured thus.

In the combined car there are berths for six passengers, and a standard Pullman car of the usual type will also be in service on the road in two weeks time. Until such time as this car comes into service, preference on the sleeper will be given to women passengers in every instance, and tickets sold will carry the proviso, that the berth is rented providing that it is not required by any woman traveller.

On the new running schedule, which will soon be in operation, the train will leave the city at 9.30 a.m. on Friday morning, reaching the end of steel on Saturday at 6 p.m. It will leave again for the south on Sunday at 8 a.m., arriving at Lac La Biche at 6 a.m. Monday, connecting with the Edmonton train on Tuesday as heretofore. During the wait, holders of sleeper berths will be allowed to use the train, but it is expected before long that a through train will be put on which will do away with the wait at Lac la Biche.

GOVERNOR GENERAL VISITS HIS OFFICE

OTTAWA, Aug. 15. — (Canadian Press.)—His Excellency, the governor general, accompanied by Captain O. H. Balfour, secretary, and Arthur F. Sladen, private secretary, paid his first official visit to his office in the east block of the parliament buildings this morning.

Girls, Don't Wash Your Face

Use Liska cold cream instead (you have never used anything like it). Just try it once, and you will never be without it. Soap and water has a tendency to make the skin rough, and does not cleanse the skin as thoroughly as Liska cold cream. To prove it make this test: Wash your face with soap and water, dry thoroughly, then apply Liska cold cream, massage it well into the skin, then wipe off the superfluous cream with a soft white cloth; examine the cloth and see how much dirt has accumulated thereon. Liska cold cream cleanses, softens and beautifies the skin. For sunburn or after a dusty auto trip there is nothing like it. It's fine after shaving, too. Let hubby or brother try it. Just compare Liska cold cream with any other you have ever used, and you will need no further argument to convince you that it's the best. It's put up in tubes, the only sanitary way. Try it tonight. You will be delighted. At toilet counters everywhere.

SECOND DAY OF PEACE RIVER FAIR THE LIFE SAVER

First Day's Proceedings Were Called Off Owing to The Inclement Weather

(Special to The Bulletin)

Peace River, Aug. 15.—Cloudy, damp, and cold weather with intermittent light showers was the program handed out by the weatherman on the first day of the Peace River two-day fair last week. In fact so inclement were the conditions, that the management was forced to call off the day's proceedings, hoping that the following day would see things brighten up. Dame Fortune then turned a smiling face, early on Wednesday, and an ideal day resulted.

The fair this year, while not as "big and better" as might have been desired, was, from the viewpoint of a livestock exhibition, a great improvement on those of previous years.

Harry Paul of Paul's Corners had several entries of classy animals in the Clydesdale and Hackney sections. Stewart' Brothers of West Peace River, McKenzie Brothers of Griffin Creek, and Keith Brothers of Little Prairie vied with each other closely in the heavy and medium draft horse, each having some splendid animals entred.

In the cattle sections, McKenzie Brothers and Keith Brothers each had a good exhibit of Shorthorns. McKenzie Brothers managed to take first prizes in this section and Keith Brothers three seconds.

In the Jersey section, J. B. Farly of Griffin Creek had the whole department to himself. He had 26 entries and swept everything by the board. Mr. Farly is the owner of a thrifty and flourishing herd of pure bred cattle, the most northerly herd of pure bred Jerseys in the Dominion.

In the beef grades McKenzie Brothers and Keith Brothers again divided the spoils, while in the milkers' section J B. Manzer took first with some fine female stock.

The swine exhibit was small, with some fair stock showing. J. W. Newland had practically no opposition in his entries in the Berkshire class, while J. W. Brooks of Bluesky had things all his own way in the white Cheshire class.

During the afternoon a full program of horse and foot races and sports were run off, which kept the crowd interested and busy. The fair ended with a baseball match between Peace River and Bear Lake teams in which the local men "put it all over" the visitors to the tune of 13 to 10. At one time it looked like a walkover for the home team, but the visitors came along strongly during the latter part of the game.

Peace River Fair Awards

The following are the prize winners at the Peace River fair:

Clydesdales.

Stallion, 4 years or over—1, Henry Paul.

Stallion and three of his progeny—1, Henry Paul.

Percherons.

Stallion, 4 years or over—1, Ed. Clifton.

Hackney.

Brood mare, 4 years or over—1, and 2, Henry Paul.

Mare, 3 years old—1, Henry Paul.

Foal of 1920—1, Henry Paul.

Heavy Draft.

Team to wagon—1, Stewart Bros.' 2, McKenzie Bros..

Brood mare, 4 years or over, foal at side—1, Stewart Bros.; 2, Mckenzie Bros.

Mare or gelding, 3 years old—1, Stewart Bros.

Sucking colt—1, Stewart Bros.; 2, McKenzie Bros.; 3, O'Shea Bros.

Medium Draft.

Team to wagon—1, Stewart Bros.; 2, W. R. Williams; 3, Mckenzie Bros.

Brood mare, 4 years old, foal at side—1, Stewart Bros.; 2, Stewart Bros.; 3, Keith Bros.

Mare or gelding, 3 years old—1, F. McLean.

Mare or gelding, 2 years old—1 McKenzie Bros.; 2, Stewart Bros.; 3, Keith Bros.

Mare or gelding, 1 year old—1, Keith Bros.; 2, McKenzie Bros..

Sucking colt—1, Keith Bros.; 2, Stewart Bros.

Light Draft.

Team to wagon—1, McKenzie Bros.; 2, W. R. Williams.

Brood mare, 4 years old or over foal at side—1, McKenzie Bros.

Mare or gelding, 3 years old—1, and 2, McKenzie Bros.

Sucking colt—1, O'Shea Bros.; 2, McKenzie Bros.

General Purpose.

Team to wagon—1, A. P. Police; 2, F. McLean.

Mare or gelding, 3 years old—1, O'Shea Bros.

Mare or gelding, 2 years old—1, Stewart Bros.

Carriage And Saddle.

Driving team—1, and 2, Henry Paul.

Single driver—1, Henry Paul; 2, T. M. O'Neil.

Saddle horse—1, A. P. Police; 2, A. P. Police; 3, N. Soars.

Saddle pony—1, Ed. Clifton.

CATTLE.

Shorthorns.

Bull, 3 years old—1, McKenzie Bros.; 2, Keith Bros.

Bull, 2 years old—1, McKenzie Bros.

Cow, 3 years old—1, McKenzie Bros.; 2, Keith Bros.

Heifer, 1 year old—1, McKenzie Bros.

Heifer calf—1, McKenzie Bros.; 2, Keith Bros.

Jerseys.

J. B. Earty had 26 entries in this class and was the only exhibitor. He was the winner of 10 firsts, 8 second prizes and 5 third prizes.

Beef Grade.

Cow, 3 years old, calf at side—1, McKenzie Bros.; 2, McKenzie Bros., 3, Keith Bros.

Fat cow, 3 years old—1, McKenzie Bros.; 2, and 3, Keith Bros.

Heifer, 2 years old—1, 2, and 3, Keith Bros.

Heifer, 1 year old—1, McKenzie Bros.; 2, McKenzie Bros.; Keith Bros.

Steer, 3 years old—1, and 2, Keith Bros.

Steer, 2 years old—1, and 2, McKenzie Bros.; 3, Keith Bros.

Steer, yearling—1, and 2, Keith Bros.; 3, McKenzie Bros.

Steer calf—1, and 2, McKenzie Bros.; 3, Keith Bros.

Dual Purpose.

Dual purpose cow—1, Norman Day; 2, J. B. Manzer.

Milk Grade.

Cow, 3 years old—1, J. B. Manzer; 2, Norman Day; 3, J. B. Manzer.

Heifer, 2 years old—1, J. B. Manzer.

Heifer yearling—1, B. Manzer.

SWINE.

Berkshires.

Boar, any age—1, J. W. Freeland; 2, J. A. Kennedy; 3, Norman Day.

Sow, any age—1, J. W. Freeland.

Boar, yearling or under—1, J. W Freeland.

Sow, yearling or under—1, J. W. Freeland.

Chester White.

Boar, any age—1, J. W. Brooks.

Sow, any age—1, J. W. Brooks.

Boar, yearling—1, J. W. Brooks.

Boar, yearling or under—1, J. W. Brooks.

Sow, yearling or under—1, Mrs. Elmer Ferris; 2, J. W. Brooks.

Sow, with litter of seven—1, J. W. Brooks.

Yorkshires.

Boar, any age—1, Keith Bros.

POULTRY.

White Wyandottes, cock and hen—1, J. W. Brooks.

"THE HARP THAT ONCE——"

The Showman: "It's now or never boys! Let's patch up the poor old harp and have some harmony."—Drawn by George Whitelaw.

AUTOS STRONGLY IN DEMAND BY LADS PLAYING "GALLANT"

Automobiles have been stolen or taken for joy rides by the score during the last few days while their owners left them standing outside buildings on the public thoroughfares. The culprits are thought to be in most cases young lads who mean no harm but just feel under the obligation to take their young lady friends for a spin around the city. In all the cases complained of to the police the cars have been returned to the owners. The police score the owners of the cars for their carelessness in the matter. They make the temptation wide open to the would-be thiefs when they leave their cars standing for hours on the streets without a lock or other preventive against theft. The chief of police says to auto owners: "Buy a lock and save your cars and the authorities a lot of expense."

Naples, Aug. 15.—Enrico Caruso's little daughter, Gloria, is given one half of the estate of the tenor, under the terms of an agreement signed by Caruso's heirs here. The agreement provides for division of the remaining half between Mrs. Caruso, Giovanni, brother of the singer, and Enrico, a son.

Two Swimming Records Smashed at Halifax By Pair Montreal Champions

Halifax, N.S., Aug 15.—Two Canadian records were smashed in the Canadian amateur swimming championships at the Waggwoltic club here on Saturday, when George Vernot, Montreal Swimming club, won the 880 yard event in twelve minutes and thirty-five seconds, and C. C. Bourne, Montreal A. A. A., clipped four-fifths of a second off the fifty yards speed record by finishing in twenty-six and two-fifths seconds. The old out-door record for 880 yards was 14 minutes 17 seconds, while the former 50 yards dash record was 27 1-5 seconds.

Briefly Described.

"What is cvelocity?" asks a science journal. We have always thought that it was the thing with which one lets go a wasp.

GASOLINE PRICES DROP TWO CENTS AT FILLING STATIONS

Another drop in local gasoline prices is announced by the Imperial Oil company's Edmonton office, the decrease amounting to two cents a gallon. This means that the wholesale price of 45 cents has been reduced to 43 cents and the charges at the filling station dropped from 49 to 47 cents.

Kerosene has also been reduced two cents a gallon, the wholesale price effective Monday being 27 cents. No change has been made in motor oil prices, which took a considerable drop some time ago.

"How fast can your car go?"

"Just fast enough," replied Mr. Chuggins, "to break the road rules and not fast enough to keep ahead of the cop."

To The Smokers of Edmonton

GENTLEMEN!

WE TAKE THIS OPPORTUNITY OF ANNOUNCING THE OPENING, ON WEDNESDAY, AUGUST 17TH, OF WALDMAN'S (FORMERLY SMOKE SHOPS LTD.) IN A BRAND-NEW STORE FOR SMOKERS AT 100 JASPER AVENUE, JUST WEST OF THE C.P.R. BUILDING, CARRYING A COMPLETE NEW STOCK OF HIGH-GRADE CIGARS, PIPES, TOBACCOS AND CIGARETTES, AS WELL AS A VERY SELECT STOCK OF SMOKERS' SUPPLIES OF EVERY KIND.

IN OPENING OUR NEW STORE ON WEDNESDAY WE EXTEND TO EVERYBODY A HEARTY INVITATION TO COME AND SEE US AND GET ACQUAINTED.

WALDMAN'S WILL BE THE STORE OF BETTER SERVICE AND HIGH VALUES. OUR LONG EXPERIENCE IN SELLING MERCHANDISE TO SMOKERS HAS TAUGHT US HOW TO KEEP STOCK FRESH, NEW AND CLEAN AND, MORE THAN ANYTHING ELSE, HOW TO GIVE A SERVICE TO MEN THAT WILL AT ALL TIMES BE APPRECIATED AND IN KEEPING WITH THE HIGH STANDARD OF BUSINESS WE INTEND CARRYNG ON.

WALDMAN'S WILL BE THE PLACE TO BUY YOUR FAVORITE CIGAR—YOUR FAVORITE BRAND OF CIGARETTES—YOUR FAVORITE TIN OF TOBACCO—YOUR FAVORITE PIPE. OUR MOTTO WILL BE TO PLEASE, BOTH IN THE QUALITY OF THE GOODS WE SELL AND IN THE SERVICE WE ARE ABLE TO RENDER.

THE FINER GRADES OF PIPES WILL BE SOLD AT WALDMAN'S, HAVING MADE CONNECTION, ON MY RECENT TOUR, WITH THE LEADING PIPE MANUFACTURERS IN FRANCE AND ENGLAD.

YOURS FOR SERVICE,
S. WALDMAN,
(FORMERLY SMOKE SHOPS, LTD.)

P.S.—IT WILL BE OUR PLEASURE TO PRESENT FREE CIGARS TO EVERY MAN CALLING AT OUR NEW STORE ON WEDNESDAY, OPENING DAY. NOTE THE ADDRESS—10022 JASPER AVENUE. S. W.

SEAL BRAND TEA

Nice Tea for ICED TEA

Prepare in the usual way—pour the liquor off the leaves and place it on ice as soon as sufficiently cool.

To serve, pour into glasses partly filled with cracked ice. Add lemon and sugar to suit the taste.

GREEKS FOLLOW UP CLOSELY ON TURKS RETREAT

Second Phase of Operations Now Expected—Nationalists Will Offer Stiff Defense

Smyrna, Aug. 51.—The Greeks have begun a second offensive The latter are retiring rapidly towards the Sakaria river without offering resistance.

Smyrna, Aug. 15.—Greek operations against the Turkish Nationalists are expected momentarily to enter their second phase. The Greeks have established contact with the Turkish forces, which evacuated the city of Sivri-Hissar and are retiring toward the east bank of the Sakaria river, about 65 miles west of Angora, where they are expected to make their last desperate stand before withdrawing further toward their capital.

King Constantine has returned to Eski-Shehr from Kutaia.

TOKIO GETS FORMAL CALL TO WASHINGTON.

Tokio Aug. 15—Formal invitation to Japan to send representatives to the conference on disarmament and Far Eastern questions to be held in Washinton late this autumn has been received from the United States capital.

Mid-Week Fair at Veteran Shows Progress in Farm Community

The Veteran fall fair held August 9th and 10th was a decided success. The crowd was better than usual, the rain of the night before holding up harvesting operations, and the farmers evidently took advantage of the occasion to attend the fair. A good program of sports was carried out. Coronation winning over Veteran in the baseball game, and Veteran won from Lakesend in football.

The horse racing caused very favorable comments, and was much enjoyed by the crowd, as well as all other sports, which were well arranged and managed by the directors. The public school building was converted into an exhibition hall and the exhibits in all classes were excellent. The women's fancy work and the household products being especially good.

In the livestock competition practically all classes were well filled, the following being a list of winners:

HORSES.

Clydesdales.

Stallion, age 3 and over: 1, W. W. Wilson; 2, Wm. McKeage.

Stallion, age 2: W. Wilson.

Brood mare, colt at side: W. W. Wilson.

Dry mare: 1, W. W. Wilson; 2, W. W. Wilson.

Filly, 2 years and under: G. R. Orchard.

Foal, 1921: W. W. Wilson.

Percheron.

Stallion, aged: J. Mogek, W. P. Jones.

Belgian.

Stallion, aged: J. Doran.

Standardbred.

Stallion: G. R. Sprung.

Heavy Draft.

Dry mare or gelding: W. W. Wilson, J. E. Bower.

..Brood mare: W. W. Wilson, J. Doran.

Filly or gelding, yearling: G. R. Orchard, W. W. Wilson.

Foal, 1921: G. R. Orchard, A. L. Hoult, J. E. Bower.

Dry mare or gelding: W. W. Wilson, W. W. Wilson, F. Kennedy.

Brood mare, colt at side: W. W. Wilson, F. Kennedy, G. R. Orchard.

Foal, 1921: W. W. Wilson, J. A. Brittam, G. R. Orchard.

Road or Carriage Class.

Dry mare or gelding: T. F. Burnett.

Brood mare and colt: W. W. Wilson.

Harness.

Draft team, 1500 or over: W. W. Wilson, G. R. Orchard.

Agricultural team, under 1500: G. R. Orchard, E. Kruse, V. A. Melin.

General purpose team: A. F. Geiks, V. A. Melin.

Driving team: J. F. Hall, J. Doran, J. Mogek.

Four-horse team: W. W. Wilson G. R. Orchard.

Gents' single turnout: Chas. Bishop, W. P. Jones, T. F. Burnet.

Ladies' single driver: Mrs. Thorburn, T. F. Burnett.

Lady rider: Mrs. Thorburn, Jean Wilson.

Gents' saddle horse: W. W. Wilson. V. A. Melin.

Pony, 14 (3 and under): Mrs. Thorburn, Ida Biddlecome.

Shetland pony: Jean Wilson.

Girl rider: Mrs. Thorburn Miss Thorburn.

SPECIAL IN HORSES.

Kennedy Special.

Best colt at fair: J. E. Bower, F. Kennedy.

Jones Special.

Best Percheron colt: A. L. Hoult, A. L. Hoult.

McKeage Special.

Best Clyde colt: W. W. Wilson, W. W. Wilson.

Wilson Special.

WHY YOU NEED IRON—

To make you strong and 'brainy' and put the power into your blood to overcome disease germs

PRACTICAL ADVICE ON HOW TO DEVELOP GREAT ENERGY AND ENDURANCE

The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is plenty of good rich, pure blood, strength, energy and endurance and the greatest energy carrier in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron in spinach, lentils and apples and like the iron contained in what is known as organic Nuxated Iron, which may be had from almost any druggist.

If you have been taking metallic iron without benefit such is no proof that organic Nuxated Iron will not help you. Nuxated Iron often increases the strength, energy and endurance of weak nervous, run down folks in two weeks' time. It is such an extremely valuable product that even the Pope at Rome wrote especially of its merits in a communication to the Pharmacie Normale. It has been used and highly recommended by former United States Senators, Members of Congress, Judges of U.S. Courts, many physicians and prominent men.

Over 4,000,000 people are now using it annually. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.

LOCAL INVENTOR IS CALLED TO NEW YORK TO EXPLAIN DERAILER

Mr. J. P. Callon of this city, veteran engineer on Canadian railways, has been called to New York by the Statistical Bureau of Safety Appliances for a more complete discussion and investigation of his automatic derailment attachment and automatic air valve, which he has invented and which has been highly commended by railway officials of this country. Mr. Callon leaves at once for New York.

MADAME BERNHARDT IS IN GOOD HEALTH.

Paris, Aug. 15—Sarah Bernhardt, the world famous French actress, rumors of whose illness were current here on Saturday is in good health says a telegram from an editor on the staff of the Journal, who is spending his vacation on the island of Belle Ile En Mer, off the coast of Brittany. He declares he saw Madame Bernhardt yesterday at her summer home on the island.

If we work upon marble it will perish; if we work upon brass, time will efface it; if we rear temples they will crumble into dust, but if we work upon immortal souls, if we imbue them with principles with the just fear of God and love of fellow men, we engrave in these tablets something which will brighten all eternity. The WOOD'S CHRISTIAN HOME cares for these motherless boys and girls. WILL YOU HELP?

FRENCH CONSUL IS IS RECEIVED BY MAYOR DUGGAN

Calls at City Hall to Ascertain How French People Dealt With

Mayor Duggan had the pleasure of receiving the French consul-general who was accompanied by Paul Jenvrin, on Monday morning.

As previously stated, the object of the consul's visit was mainly to ascertain how French people in the city, when in need of assistance, are dealt with by the city authorities.

Miss King, secretary to the Welfare board, took part in the discussion, and stated that there were very few French people who ever applied to the city for relief. At the present time there was one case, but in the main, the French sections of the city's population looked after their own people.

According to Miss King, the percentage of foreign-born who came to the city for relief varies from 22 to 23. During the last month or six weeks, 143 cases were dealt with and these some 48 were foreign-born.

The consul expressed his satisfaction that the number of French needing help was so very small.

Henry M. Polan, who was before the city police court magistrate Monday morning on the charge of living wholly or in part off the avails of gambling, secured his discharge without going to his defence, the case for the crown not having been proved to the satisfaction of the court. The case for the accused was handled by Eardly Jackson.

BROWN SAYS HE COULDN'T SPEAK ABOVE WHISPER

Edmonton Citizen Was on Verge Of Nervous Prostration—Like a New Man Now.

"Tanlac has made a new man out of me and I am strong for it," said Fred J. Brown, 79th Avenue, Edmonton, Alberta.

"When I began taking it I was so weak and run down I actually couldn't speak above a whisper and was on the verge of nervous prostration. I couldn't sleep at night and would twist and toss for hours, and what little sleep I did get was troubled and broken. I suffered tortures from indigestion too, and actually dreaded to go to the table, as I knew it meant hours of misery afterwards.

"When it comes to whetting a man's appetite and building him up and making him feel fine I can testify that Tanlac has them all beat. I am my old self again and as sound as a dollar. I eat, sleep, and feel better than I have in years and Tanlac did the work for me. I certainly will recommend it to every man who suffers as I did."

Tanlac is sold in Edmonton by Liggett's Owl Drug Co., Ltd., and by leading druggists.

GROWING PANIC AMONG SOVIET FAR EAST FORCES

Overthrow of Republican Govt. At Chita Reported—Uprisings In Siberia.

Tokio, Aug. 15.—Reports of the overthrow of the Far Eastern republic at Chita, which have been current here for a couple of weeks, are still without confirmation.

As circumstantial evidence that the reports are probably true, a local newspaper says wireless reports have been received telling of risings in eastern Siberia and a growing panic among the Bolshevik forces, while Bolshevik newspapers do not deny the rumors that are heard here.

NEW WORLD'S RECORD FOR THE 100-YARD SWIM

Buckeye Lake, Ohio, Aug. 15.—John Weismoller, of the Illinois Athletic club, established a new world's record for the 100 yards during an exhibition swim here Saturday, making the distance in 52 1-5 seconds, one second better than the mark of Duke Kahanamoku of Honolulu.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrohea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

Uneveness of Western Wheat Makes Estimate Difficult; Cutting is Well Advanced

WINNIPEG, Aug. 15.—(Canadian Press)—It is very difficult to estimate the western wheat crop at this time owing to the unevenness in all districts, states the weekly crop report of the Canadian Pacific railway, issued today. Cutting is about completed in Manitoba and threshing will become general in this province within a week. In Saskatchewan and Alberta cutting is general.

The southern areas," says the report in a general summary, "will not be as productive as anticipated, but the northern districts will prove beyond the average. There is no doubt drought, rust, saw fly and hail have taken a heavy toll and reduced the grade, particularly in the central and southern areas. Heavy rains induced rust, which is almost generally prevalent, but the advanced state of the grain in many districts has minimized the damage. It has been an extraordinary year for hail has caused severe losses particularly in Saskatchewan."

Along the Edmonton, Dunvegan & British Columbia Railway all crops are reported to be in excellent shape, and heavy yields are expected.

Weather conditions generally are favorable for harvesting operations.

Grain Markets

WINNIPEG GRAIN.

Winnipeg, Aug. 15—A feature of today's somewhat dull market was the spread between cash wheat and the October future contract. This ranged around 42c with cash wheat selling at 191 flat, and the October fluctuating within fractions of 149. Spreads between October and November are only from one to three cents and November and December only five cents so that this large difference is altogether abnormal. It is probably caused by a shortage of number 1 northern on export shipments and has thrown the market out of line with the others. Wheat futures were all very dull and worked to lower levels after the opening. The volume of business was not large and wheat closed ⅝ to 1¼c lower.

A keen demand continued for number 1 northern, but both domestic millers and exporters were in the market for all offerings, which were somewhat liberal today.

The coarse grains market showed little change today, the market still awaiting the movement of the new crop before much activity can be expected.

Oats closed ⅛ to ⅜c lower; barley, ⅛c higher to unchanged; flax, ¼c lower to 1⅝c higher, and rye, ¼c lower. Oats and barley were in demand in the cash market and oats spreads were unchanged to ¼c better. The flax market was quiet. A little new rye is finding its way on to the market and is being easily absorbed for export purposes.

Inspections totalled 219 cars of all grains, of which 84 were contract wheat.

CHICAGO GRAIN.

Chicago, Aug. 15—Wheat was firm in price today owing in some degree to a current estimate that the United States exportable surplus would not exceed 175,000,000 bushels. Announcement that India's crop would be more than 325,000,000 bushels short of last year's total, was also a bullish factor. On the other hand, advances in price here brought about increased offerings. Initial quotations, which varied from ⅛ cent to ⅝, were followed by slight further gains and then something of a reaction.

Large receipts counted against upturns in the corn market. After opening unchanged including September at 56⅜ to 56⅝, prices hardened a trifle and then showed a disposition to sag.

Oats like corn were weakened by liberal arrivals. The market opened ⅛ cent off to a like advance, September 28⅝ and later went below any level which had been touched this season by the September delivery.

STOCKS IN STORE.

Fort William, Aug. 15—The following statement of stocks in store in terminal elevators at Fort William and Port Arthur on August 12, with receipts and shipments during the week was issued by the board of grain commissioners Saturday:—

Stocks in Store—Wheat, 2,950,590 bushels; oats, 5,915,095; barley, 1,026,957; flax 1,981,817; rye, 121,891.

Receipts—Wheat, 565,964 bushels; oats, 1,350,672; barley, 185,122; flax, 44,665; rye, 22,091.

Shipments (lake)—Wheat, 1,737,294 bus.; oats, 1,734,604; barley, 193,194; flax, 74,001; rye, 23,123.

Shipments (rail)—Wheat, 80,076 bushels; oats, 62,152; barley, 42,311; rye, 86.

Minneapolis Grain

MINNEAPOLIS, August 15.—Flour unchanged. Bran unchanged. Shipments 50,221 barrels.

Wheat, cash No. 1 Northern 142 5-8 to 147 5-8, September 121 5-8, December 131⅜.

Corn, No. 3 yellow 49 to 50.

Oats, No. 3 white 29⅝ to 30⅛.

Calves, choice 6.00 to 7.00, good 4.00 to 5.00, common 2.00 to 3.00.

Sheep, fair to good 5.00 to 6.50, common 3.00 to 4.00.

Lambs, fair to good 7.00 to 9.50, common 5.00 to 6.00.

Hogs, selects 14.00, heavies 11.00 to 13.00, light 14.00 to 14.25, sows 8.00 to 10.00, stags 5.00 to 7.00.

Calgary Livestock

CALGARY, August 15.—Receipts of livestock to the yards today consisted of 87 catle, 14 calves, 8 hogs and 354 sheep. The market today was slow and steady. Twenty very choice steers averaging 1,358 pounds sold at 5.60, medium to good 3.50 to 4.25. Choice heifers 4.00. Choice calves 5.75. No hogs were sold. The last recorded price for selects was 1400 off car weights.

Speculative Industrial Shares Were Depressed Had Additional Losses

NEW YORK, August 15.—Standard shares were comparatively free from pressure today, but speculative industrials and specialties, which are obscured by financial needs and trade depression, sustained aditional losses.

Conspicuous issues of the latter class comprised rubbers, tobaccos, secondary equipments, motors, oils, shippings and food, chemicals and paper shares. Extreme declines among these ranged from 2 to 5 points.

Rails were a negligible factor, and the relative steadiness of popular steels was attributed to some improvement of sentiment in that industry. Lowest quotations were made in the last hour. Mexican Petroleum, International Harvester, and General Electric displayed especial weakness.

Sales amounted to 400,000 shares.

Developments over the week end offered little incentive for constructive effort. Railroad tonnage at western centres showed slight gains, and heavy shipments of grains to market effected further liquidation of loans.

On the other hand the money market remained firm, despite the heavy inflow of funds from interior points, attracted by the rising price rate for call money which held throughout the session. There was little inquiry for short terms at 6¼ per cent.

Irregularity again featured the day's operations in foreign exchange. Influenced largely by London, where lower quotations ruled, sterling and most continental remittances moved in favor of this market, marks manifesting increased weakness.

Dealings in bonds were the smalest of any day in almost two months. The market was devoid of feature.

Total sales, par value, $6,875,000.

Unchanged Prices Rule Eastern Egg Market

OTTAWA, August 15.—The market conditions continue firm with prices practically unchanged.

Toronto extras jobbing 46 to 47, firsts 42 to 43.

Montreal specials 48, extras 44.

Winnipeg trade quoting 29 straight receipts.

Saskatchewan markets firm, 28 to 30 loss off, cases included.

Edmonton dealers quoting on grade, delivered extras 38, firsts 35, seconds 29.

Calgary receipts fairly heavy, quality very poor, trade quoting 9.00 per case delivered.

Vancouver easier with 37 country points.

Chicago firsts 30 to 31, refrigerators September delivery 32 to 32½, October 33½ to 34, December 34 to 35.

New York unchanged.

Lack of Interest Caused Heavy Falling off in Stock Prices in Toronto

TORONTO, August 15.—A decided lack of interest was shown in the trading on the local stock exchange today. The decline of 16 points in Maple Leaf common and an advance of 6 points in B.C. Fishing were [illegible] the banks, and gained 1½ points. In the mines, Nipissing was off 10 points and McIntyre gained 5. Hollinger was up a point and Lake Shore up 6 points.

In the Victory bonds the 1922's, 1933's, 1934's and 1937's were unchanged, the 1927's gaining 5 cents and the 1923's and 1924's losing 10 cents and 25 cents respectively.

Even Paper Stock Was Weak with Montreal

MONTREAL, August 15.—The paper stocks were again the feature of the local stock exchange today. With the exception of Abitibi, which held steady at 28½ on a single board lot transaction, the shares were all weak.

The price trend for the day was rather steady, the losses outnumbering the gains by one. Of the 41 issues boarded, 8 made advances, while 9 issues suffered losses ranging from a fraction to 37 points. The last named loss was scored by Montreal Tramways:

Total transactions listed, shares 2,745, bonds, $125,350.

New York Metals

NEW YORK, August 15.—Copper unsettled. Electrolytic spot and nearby 12 to 12½, later 12¼ to 12½. Tin steady, spot and nearby 26.50, futures 26.50. Iron nominal. Sale of Women's Pure Thread Black Silk Hose at

$1.39

Regular Price $1.75
Guaranteed "Firsts"

Don't think that you have seen sales like this often. You haven't. Consider that these are heavy quality purest silk stockings—the kind that wear long—not the sheer kind. Their present regular price is $1.75. But a year ago you could not buy hosiery of this grade for less than $2.50.

Every pair is black; every pair is perfect and guaranteed so; every pair is seamless; every pair has silk lisle garter tops; spliced heels and toes and double soles.

Another of Ramsey's famous special purchases; that's the reason for the unique price. $1.39—meditate!—$1.39 for rich, heavy, lasting, pure thread silk hose in the best liked of all colors, black! And in all sizes..

You MIGHT want only one pair. But it isn't likely. Two or three pairs will be the popular choice. Tuesday—all day—opportunity knocks loudly.

Worth Repeating—$1.39 a Pair

60 DOZEN
WOMEN'S VESTS
25c
(SECONDS)

It does't seem right to call them all "seconds." Only a part of them have flaws and one must look closely to find them.

Opera and sleeveless styles, with all sizes from 36 to 40 in each. Made of fine, firm, ribbed cotton, neatly finished with beading and a narrow lace edge, plus a drawstring. Worth so much more than 25c won't take long even for 60 dozens to go.

INDESTRUCTIBLE
PEARL STRINGS
$3.98
VALUES TO $10.00

Consider this a rare opportuity. These really high grade graduated pearl strings are beautiful. There are softly toned, snowy white ropes, and rich cream ones, 22 and 24 inches long. Besides being indestructible, they are insoluble in water. Because our buyer made a special purchase, you may buy these lovely necklets tomorrow at half and less than half price.

1,500 Pairs of
ALL WOOL WORSTED SOCKS
(SECONDS)
50c

Go back years in your memory for the equal of this 1500 pairs straight from the land of all wool worsted socks at 50c. We suppose they are "seconds." We bought them under the supposition that they were imperfect, but we can't unearth any flaws.

They are just about the best medium weight wool socks you can buy. Last year we sold batches of them at $1.25, $1.50 and $2.00. Here they are now at 50c, in black, grey, lovat and heather mixtures—and in all sizes. Get a supply.

Bringing Down the Prices of Some Dozens of Pairs of
WOMEN'S BROWN BOOTS
TO $5.00

With the boot season looming ahead, this offering will be thriftily welcomed. For the fine quality, gracefully designed kid or calf boots in this little-priced collection are worth much more than $5.00—some even twice as much. They have recede toes and goodyear welted or McKay sewn soles. The choice of heels, includes military, Cuban and French, all of leather. Sizes 2½ to 7. Sharply reduced to—$5.00.

Dominion War Loans

PRESENTATION TO HON. J. L. COTE MADE BY STAFF SATURDAY

At the parliament buildings Saturday morning the staff of the provincial secretary's department presented Hon. J. L. Cote, provincial secretary in the retiring government with a handsome gold watch suitably inscribed.

The presentation was made by E. Trowbridge, deputy provincial secretary who expressed the high esteem in which Mr. Cote was held by all employees of the department. Hon. Mr. Cote replied in cordial terms and voiced his deep appreciation of the gift and the expressions which accompanied it.

PHOTO ENGRAVERS UNION IN CONVENTION.

Toronto, Aug. 15.—With the address of President Matthew Woll and the incoming administrators of the civic and provincial authorities of Toronto, the convention of the International Photo Engravers' Union was opened here today. Delegates are in attendance from all parts of Canada and the United States, and it is expected that many important subjects affecting labor will be discussed. Samuel Gompers, president of the American Federation of Labor, will address the convention this afternoon.

Alberta Carpatho-Russians Send Strong Resolution to The Washington Conference

A. S. Shandro, M.P.P., Representing the Bukowinian Russians, Appointed a Delegate to Washington, To Place Case of His Countrymen Before Allied Peace Commissioners at Disarmament Conference

Between seven and eight hundred people of Carpatho-Russian lineage gathered at Lamont on Tuesday, when a meeting was held, and strongly worded resolutions forwarded to the Washington peace conference demanding of the allied governments that the Poles be given immediate orders to vacate their armies from the territory of Eastern Galicia. Failing this, it was requested that an immediate plebiscite be held to determine under Polish sovereignty or remain under Polish sovereignty or be re-united with Russia. Should these be impossible of accomplishment, it was asked that the allies bring into being an inter-allied commission to take over the government of the territory, the meeting declaring that the Carpatho-Russians were being persecuted by the Poles.

Russia's Plight Deplored.

The attention of the allies was also drawn to the present terrible conditions in Russia and a resolution was passed asking that steps be taken to provide help for the people in the cholera stricken areas. On behalf of the Bukowinian-Russians, A. S. Shandro, M.P.P. was appointed a delegate to proceed to Washington, to lay before the conference there the plight of his former countrymen, who are now under the Roumanians, and to ask that these people be given the right to determine their own form of government.

From All Parts Alberta

People travelled from all the Alberta Russian settlements to Lamont to take part in the meeting, the proceedings commencing with a church service conducted by the following clergy of the Greek Orthodox church, the Rev. A. Kinuzun, of St Barbara's church, Edmonton; J. Fedyran, of Rabbit Hills; J. Hrycay, of Star, and J. Zubach of Westock.

Following the church service, the meeting was held, this being addressed by H. Lopushinsky, M. Charyk and R. N. Samilo, of the League for the Liberation of the Carpatho-Russians. Mr. Samilo, who was formerly editor of one of the Russian language papers in Canada, had previously attended meetings in reference to this subject, all over Canada and the United States, and gave his audience a clear and concise speech on the subject.

The proceedings wound up with a series of sports for the benefit of the Carpatho-Russian institute in Edmonton, a feature of the entertainment being the athletics as practised in the European homeland.
